## NEW GOODS IN STOCK.

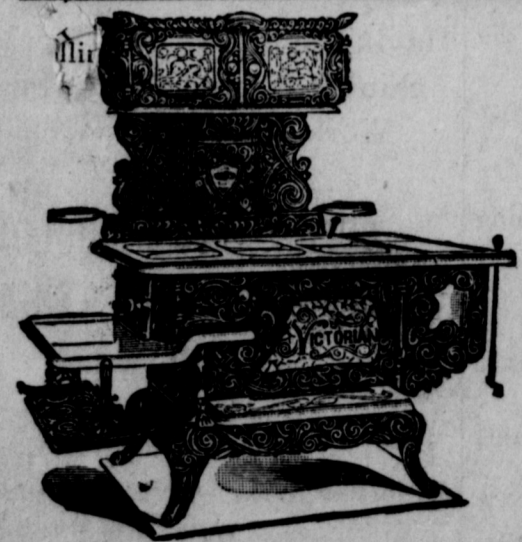

### Boots, Shoes, Oxfords and Slippers,

We know the people want to buy NEW, FRESH GOODS, as they wear longer and better. We have them in all styles and prices. We want your business—your future business—and we want to sell you that which entitles us to it. A shoe that looks the best with fancy finish, etc., may not be the best—quite apt to be the cheapest these days.

Buy where you know they are giving you value for your money.

## CARLETON CO. TEACHERS

In Session at Hartland—Mr. Brittain Present.

Carleton County Circuit Court—Three Criminal Cases and One Civil Suit—Vote on the Pulp Mill Bonus.

The 22nd Annual Institute of the Carleton County Teachers' met at Hartland in the Forsters Hall on Oct. 12th and 13th and a large number were in attendance. President Gray called the meeting to order and made some interesting remarks as to their duties in meeting together. The following committees were appointed, Nominating Com., D. Jones, W. L. Davis, Miss Comben; Audit Com., Messrs. Harrison and Perry; Entertainment Com., Allan Rideout, Julia Neales and Mabel Barker. Further remarks were made by G. H. Harrison, F. A. Good, D. W. Hamilton, Allan Rideout and H. G. Perry.

Mr. Good read a communication from the York County teachers asking them to join in forming a Provincial Association. He stated that the object of the association was to procure better salaries for the teachers and try and remove many of the grievances under which teachers labor. He cited a case in Nova Scotia of where a teacher had been fined in a magistrates court and when the case was reviewed by the judge he reversed the decision, the association standing all the expense.

The following teachers were enrolled.

In the afternoon Mr. Brittain, Science teacher in the Normal school, gave an exceedingly interesting address on "Plants and their Ways." His address was listened to with pleasure, and many of the teachers were noticed taking notes. After this they took a field excursion which was both profitable and pleasant.

The entertainment in the evening was a good success and was opened by the 67th Battalion Band, after which the school children rendered a very appropriate chorus "Canada Land of the Free." President Gray made an interesting address and introduced Mr. Brittain, Science teacher of the Normal school, who gave an excellent address on the "Relation of the Public to the Public School." Mr. Brittain in his usual pleasant style pleased the audience, and all the teachers were glad of an opportunity to listen again to their favourite instructor. He congratulated the village on its band and school house. The duet of Misses Shaw and Johnston was well received, after which T. M. Jones gave a very pleasant address. Miss Helen Page sang in her usual pleasant style and was well received. Mr. Carr gave an address of welcome. The duets of Misses Good and Page and Misses Hutchinson and Estabrook delighted the audience. After the entertainment cake and coffee were served and a very pleasant time was spent. The band rendered suitable selections. The hall was filled to its utmost capacity.

On Friday morning a paper was read by D. W. Hamilton on Ethics in the school room. The paper was well gotten up and contained some valuable hints. The discussion which followed was long and interesting. It was opened by F. A. Good who was followed by Messrs Simms, Gray, Davis, Branscombe, Brittain, Rideout, Perry and others. Miss Mabel Barker gave a lesson to a primary class on "Sounds." She used ap-

paratus of her own devising, and gave a most creditable lesson.

It was moved that the Institute meet next year in Woodstock. In amendment it was moved that they meet at Florenceville unless they could get other counties to meet with them at Woodstock. The amendment was carried.

The nominating committee brought in the following report of officers which was adopted. D. W. Hamilton, pres; Allan Rideout, vice, pres; Miss Avarid, secy; F. A. Good and H. G. Perry, additional members. Mr. Jones' paper on Grammar was a good one and brought forth considerable discussion led by H. G. Perry.

Misses Avarid and Raymond read five minute papers on Vertical Writing and Miss Kate McLeod gave an interesting talk on that subject. The discussion was opened by Allan Rideout and quite a discussion ensued. Some were in favor of the new system and some against. At the close, votes of thanks were tendered to Mr. Brittain, the teachers of Hartland and the band for what they had done and the help they had given.

### Circuit Court.

The Carleton Circuit of the Supreme Court opened at the Court House, Woodstock, yesterday, Tuesday the 17th, at 11 o'clock a. m., Judge Vanwart presiding. Miss Mowatt, Court Stenographer was in attendance. Following are the criminal cases on the docket. The Queen against John Dalton for stealing money from the dwelling house of William F. Dibblee, Woodstock. The Queen against Charles Merritt and William Nason for breaking and entering the shop of Henry W. Scovil in Woodstock and stealing therefrom. The Queen against Mrs. Frances Williams charged with shooting at G. Herbert Long, at the Parish of Wilmot, on the 8th of August last.

Stephen B. Appleby, Q. C., is acting for Crown. Allison B. Connell, Q. C., appeared for Charles Merritt and for Mrs. Williams.

On the civil docket was Michael Welch against R. D. Montgomery an action of trespass to land in Glassville. Allison B. Connell, Q. C., counsel for plaintiff and Hartley & Carvell for defendant.

### Property Vote.

On Monday the ratepayers of the town of Woodstock voted on the question whether or not they would appropriate \$50,000 to purchase stock in a pulp mill or other industry in Woodstock. It was a property vote and the result was as follows, \$478,800 worth of property in favour of the appropriation, \$209,150 worth of property against, making a majority of \$269,650 in favour of the appropriation. The total vote represented \$687,950. The interest in the vote was not very warm as it will be seen that only about one half the total valuation is represented on the vote.

### Columbia Wins.

After sailing seven heats that could not be counted because they were not finished within the time limit the Shamrock and the Columbia at length found a breeze on Monday and the American yacht, the Columbia, won hands down. This was a great surprise for in the other heats that were not counted, the English yacht, Shamrock, had been winning out easily. However the Shamrock has two more cracks at it and may pull the cup out yet.

THE wedding of Fredrick B. Thomas and Minnie E. Scott occurred at the Presbyterian Manse, at half past 8 o'clock Tuesday evening. The ceremony was performed by Rev. Kenneth McKay pastor of the church. After the ceremony the happy couple repaired to Hotel Dewey where a wedding lunch was served at a 11.15. Mr. and Mrs. Thomas departed for a tour of the large Canadian cities. The bride is an attractive and accomplished young lady of Hartland N. B. Mr. Thomas is one of St. John's best known business men.—Houlton Times.

WATSON'S window decorator has another display in one of the large windows of the hardware store. The goods used for this display are materials that lumbermen need for carrying on lumber operations. Mr. Lee, the decorator, in making a display with this material has built up an excellent representation of a pipe organ in the construction of which he had used nothing but the implements used in lumber operations. The display is one worthy of notice.—Houlton Times. Mr. Lee is a Woodstocker.

TYPHOID FEVER has been raging at Windsor C. C. and at least one case is reported in Lower Glassville. Many deaths have been recorded in Windsor in the past month. George Shaw of Lower Glassville who was in Windsor nursing some of the fever patients has gone home sick himself.

THE CANADIAN PACIFIC RAILWAY are covering their bridge across the St. John river at Upper Woodstock to protect it from the weather. At their crossing over King street they have removed a wooden structure and have replaced it with a steel girder.

## TOWN COUNCIL.

### Carleton Creamery Company Exempted From Taxation

For Ten Years, and Same Water Privilege as Granted to Other Concerns.—Sewers will be put in Richmond Street.

The council met in session Monday evening last. All the members were present. Special committee reported that Marshal McFarlane had entered into bonds with the town for \$1000—the bondsmen are John Conner and B. B. Manzer.

His Worship read the following petition: To His Worship the Mayor and Council of the Town of Woodstock:

We the Carleton Creamery Co., Ltd., herewith petition your honorable body to grant us the following:

1st.—Exemption from taxation for the manufacture of dairy products for a period of ten years.

2nd.—To grant us the same water rate that is given to other manufacturers in town. Carleton Creamery Co., Ltd., W. C. RAYMOND, Sec.

Coun. Carr moved that the request be complied with. Coun. Henderson seconded the motion.

Coun. Graham moved that the proprietor of the Creamery Company be heard in the matter.

His Worship thought the council had no power to exempt any body from taxation.

After the motion had been discussed at some length, Mr. Raymond was heard. He said the company intended to erect two buildings for the manufacture of butter. The past summer they manufactured 25,000 pounds, chiefly for export to the British markets. In coming to town they intended to double the output. It was not free taxation that they were seeking so much, as getting closer to the railway. The company paid out in wages about \$400 a month, and some months as high as \$5000 was paid to the farmers for butter fat. From four to six hands would be employed. In regard to selling butter in town at retail, they did not interfere with the merchants as they only delivered about 35 pounds a week at 18 cents a pound, which price was paid them for export by the carload.

Mr. Dickinson said that perhaps some arrangement could be made between the company and the dealers to govern the selling of butter.

Coun. Jones said he would vote for the exemption. The company would be at a large expense in moving into town. If they derived any benefit from the change, the town would also be benefitted. But he objected to peddling butter, as complaints have reached council about other concerns selling retail.

Coun. Watts—I think I am generally found on the side of progress, but the Creamery Company can see the difficulty under which the council is placed. I do not feel like doing wrong that right might come of it. Think the matter should be put off for a week.

His Worship—It is rather hard for me to refuse to entertain the motion. This is not the first time this question has arisen, and having some regard for the interests of the town, I think we should get further information before proceeding further.

Coun. Graham—I do not think it is right to put these men off. I will vote for it, whether retail or wholesale.

Coun. Henderson—The question rests here. We have not the right and we know it. If we vote to give these men the right they will have to suffer. If we can encourage anything of this nature we should do it.

Coun. Carr thought if the resolution was not legal we might pass the motion subject to an act passed and moved that this board ask for legislation empowering us to grant the exemption asked for by this company.

Coun. Henderson seconded the motion, which was carried. The original motion was withdrawn.

Coun. Graham moved that the sewer committee be instructed to put in a sewer on Richmond street.

Coun. Jones objected to this motion, and thought if any money was to be expended it should be for a sewer for the Creamery Co. He did not believe in running over the estimates. The committee had now spent \$150 over the money allowed them, but have pipe on hand to offset that amount.

Coun. Graham thought \$50 would cover the expense of putting in sewer, and it would be money well spent. The motion was carried.

A sewer will also be put in for the Creamery Company.
