Mendelssohn and Victoria.

As is well known, Mendelssohn was a great favourite of Queen Victoria and the Prince Consort, and during his visit to London was frequently their guest, playing for them and accompanying the Queen, who possessed a good voice, and often would sing for him.

"Now, Dr. Mendelssohn, you have given me so much pleasure, is there nothing I can do to give you pleasure?"

He answered that he was more than amply rewarded by her Majesty's gracious reception, and by what would be a lasting remembrance of the interest she had shown in his music but when she insisted he said:—

"Well, to speak the truth, I have a wish, and one that only your Majesty can grant."

"It is granted," she interposed.

And then he told her that nothing could give him greater pleasure than to see the nurseries and all the domestic arrangements connected with the Royal children. The most consummate courtier couldn't have expressed a wish better calculated to please the Queen. She most cordially responded and herself conducted him through the nurseries. Nor was the matter treated lightly; she had to show him the contents of the wardrobes and give him particulars on the service, and for the time being the two were not in the relative position of gracious sovereign and obedient servant, but rather an experienced materfamilias and an enlightened paterfamilias, comparing notes and giving each other points on the management of their respective children.—Literary Digest.

Black Will Be a Fashionable Autumn Color.

Diamond Dye Blacks Are the Richest, Fastest and Best.

Black dresses, capes and jackets will be much worn this autumn; this will be a blessing to the woman who wishes to look well and who cannot afford to buy much new clothing. Any woman can, by using the Diamond Dye Fast Black, color their old clothes a black that will not fade or wash out.

There are three special Diamond Dye Fast Blacks for wool, for cotton and mixed goods and for silk and feathers, and if the proper dye is used, any woman can get better results than the majority of experienced professional dyers can produce.

Unlike some of the cheap imitations of Diamond Dyes, these dyes come in almost every conceivable color, so that the woman who wishes any special color can get it in the Diamond Dyes. Practical tests prove that the Fast Diamond Dyes are the only dyestuffs that make colors which soap will not wash out nor sunlight fade.

Who Has the Button?

There is a good story told of a magician who has passed the great divide. He was a world-travelled player, and his wanderings set his upon one occasion in faraway New Zealand. It was arranged that he should give an exhibition of mind-reading before the King of the Maoris.

After some parleying it was decided that the king himself should conceal the article which the magician was to discover. The mind reader left the room and after a time was brought back blindfolded, as is the custom in such performances. After some time the magician declared that the hidden article was in the King's mouth. His Majesty shook his head savagely in the negative. The magician insisted upon his point and demanded that the king's mouth be opened wide. The king refused. The magician insisted, and the excitement became very great, until at last the dusky king reluctantly opened his jaws. The article was not there!

The next instant, however, the king was taken with a violent fit of coughing. He had tried to swallow the lost article, a button, but could not, and was compelled to cough it up. The Maoris were uproarious with mirth. They did not know which to admire the more—the wisdom of the magician or the heroism of the king.—London Tit-Bits.

No Cure for... Bright's Disease

In its advanced stages—The Reason Why Danger is Prevented by the Timely Use of Dr. J. W. Chase's Kidney-Liver Pills.

To understand Bright's Disease is to know that in its advanced stages it is past the reach of human aid. The cells of the kidneys undergo a wasting change, which leaves them dead so far as performing their functions is concerned. Just think of having the kidneys dead. Think of the poisons left in the system when these organs could no longer perform their duties as filters of the blood.

It would be difficult to conceive of anything more dreadful, and yet this is the goal to which every case of neglected kidney disease must lead. When the back aches, when urinating is difficult or too frequent, when there are deposits in the urine after standing for 24 hours, there is no time to lose in procuring Dr. Chase's Kidney-Liver Pills.

It is not claimed that they will cure Bright's Disease in its last stages. They are an absolute cure for kidney disease, and so long as the kidneys are not entirely wasted away they will give new strength and vigor and enable them to resume their duties of filtering the blood.

Dr. Chase's Kidney-Liver Pills will stop backache and headache in short order by removing the cause, and will positively prevent Bright's Disease. One pill a dose, 25c. a box. At all dealers, or Edmanson, Bates & Co., Toronto.

Students of one of the big universities in New York have a cat that has utterly refused to become a martyr to science. Its history is another instance of the refining and elevating influence of science. Professor Blank asked S. P. Morgan, the janitor, to get a cat for him, as he wished to illustrate his lecture on "Respiration" by experiments upon the animal. Mr. Morgan succeeded in getting one with the aid of some small boys. When the students had assembled the professor put the cat into the glass receiver of the air pump and began to pump out the air. Before the piston had time to move more than once or twice the cat began to feel very uncomfortable, and, discovering the aperture through which the air was escaping, put her foot on it and thus corked the pipe and stopped the removal of the air. Several subsequent attempts to carry on the experiments were alike ineffectual, for as soon as the glass cover was put over her and she felt the removal of the air the cat would put her feet over the pipe and keep them pressed there. The students, struck by the remarkable intelligence shown by the cat, asked the professor to liberate the animal, and loudly cheered her self-possession when the cat, after coolly cleaning herself and smoothing her ruffled fur, jumped down and rubbed against the legs of the students sitting on the front bench. She is now permanently annexed to the college and an object of interest to visitors.

Probate Court, County of Carleton, Province of New Brunswick.

To the Sheriff of the County of Carleton, or any Constable of the said County—Greeting:— WHEREAS the Executors of the estate of Justus E. Ebbett, deceased, have filed in this court an account of their administration of the said deceased's estate, and have prayed that the same may be passed and allowed in due form of law.

YOU ARE THEREFORE required to cite the heirs, legatees and next of kin of the said deceased, and all of the creditors and other persons interested in his said estate, to appear before the Judge of Probate for the County of Carleton at a Court of Probate to be held in and for the County of Carleton at the office of the said Judge of Probate in the Town of Woodstock, in said County, on MONDAY, THE TWENTY-FIFTH DAY OF SEPTEMBER next, at eleven of the clock in the forenoon, then and there to attend the passing and allowing of the said accounts as prayed for, and as by law directed.

Given under my hand and the Seal of the said Probate Court, this twenty-fourth day of August, A. D. 1899. LEWIS P. FISHER, Judge of Probate for the County of Carleton. DENNIS B. GALLAGHER, Registrar of Probates for Carleton County.

"It's the devil for any one to tell me a secret, for it is sure to come out imprint."—HAZLITT.

And, now, arises some one and asks why, if bicycle riding is healthful, do the doctors recommend it!!

I am just now engaged on a very important problem, that of preventing the disturbance of worshippers in the church by the monkey-like actions of children. Not long ago I was disturbed in church one evening by the activity of a boy of the mature age of four or five years. The child is a natural contortionist and his marvellous squirmings would have been most enjoyable in a circus ring or on the stage of a vaudeville theatre, but they were rather out of place in a church. His final effort to perform that feat known to acrobats as skinning the cat, on the seat in front of him, was a failure, but otherwise his endeavours were crowned with success. I am debating whether the best method of overcoming this sort of side show would be to chloroform the things and put them under the seats or to have them checked and left in the vestry. Any original suggestion on this score would be gladly accepted.

I suppose every one of us considers himself or herself a martyr at times. It is one of the peculiarities of our race that when one has little trials and difficulties, one regards oneself as peculiarly imposed upon, and as deserving of the "martyr's crown." I've often heard it said of such and such a man or woman "what a martyr he or she is," or "he or she is a perfect martyr" but, as a matter of fact it has not been my experience to run across a real martyr, nor, anything like an approach to one, yet. Of course there are martyrs, in the sense that Innocents were martyrs, without making any sacrifice, voluntarily, to win the crown. Martyrs in deed they may be called but not martyrs in will. People who have much to put up with in life, are apt to think that no one is quite so worthy of a place beside St. Stephen as themselves, but they fail to see that others regard them as rather fortunate individuals. None of us can escape our share of trouble, and really it is more evenly divided than the thoughtless fancy. We must bear our burdens. But strictly speaking there are no martyrs these days. We might perhaps call Dreyfus a martyr. What suffering have any of us ever gone through to equal his, if he be innocent. A leading writer remarks apropos of Dreyfus "the path of progress is dotted by the bones of martyrs." What we need to do is to judge between real martyrs who are few and far between and fanciful people, who, with everything comfortable around them persuade themselves that each trial and petty trouble, if borne without a public protest, as fitting them for canonization and a niche in a church wall.

The Good Work is Quickly and Surely Begun.

Paine's Celery Compound is Always Victorious Over the Most Stubborn Diseases.

Some medicines require weeks of use before sufferers can realize any promising results, and the great majority of patients are worthless, and in many cases positively dangerous to use.

When weak, broken down, sick and diseased men and women have used Paine's Celery Compound for a single day their doubts vanish, hope fills the heart, and they are added to the tens of thousands that gratefully sound the praises of a medicine that truly possesses life-giving virtues.

If your life is in peril from such stubborn and desperate diseases as rheumatism, neuralgia, liver complaint, Bright's disease, diabetes, nervous prostration, or ailments resulting from impure blood, and have not yet tried the medicine that has cured others, do not hesitate another hour. Paine's Celery Compound will assuredly do for you what it has done so well for your friends and neighbors. It will cleanse the blood, drive out lingering rheumatism and neuralgia, banish kidney trouble and liver complaint, build up the exhausted nervous system, clear the complexion, give good digestion, healthy sleep and perfect vitality. One bottle promptly begins the good work.

After Annexation.—"It's a disgrace to the party," said the Goo-Goo. "The idea of such a man for President! Why, he is a moral leper!" "That's just it, exactly," replied the practical politician. "Haven't we got to do something to attract the leper vote? Have you forgotten the last returns from Molokai?"

SPRAINED BACK!

Sprains, Strains and Injuries of the Back often cause Kidney Trouble.

DOAN'S KIDNEY PILLS THE CURE.

Here is the proof:—

Mrs. S. Horning, Glasgow Street, Cuelph, Ont., says: "Doan's Kidney Pills are grand. I have not been ill since taking them, which was over a year ago last winter, and can give them my warmest praise; for they restored me to health after 25 years of suffering. Twenty-five years ago I sprained my back severely, and ever since my kidneys have been in a very bad state. The doctors told me that my left kidney especially was in a very bad condition. A terrible burning pain was always present, and I suffered terribly from lumbago and pain in the small of my back, together with other painful and distressing symptoms, common in kidney complaints. I could not sleep, and suffered much from salt rheum. "When I first commenced taking Doan's Kidney Pills I had little or no faith in them, but I thought I would try them; and it proved the best experiment I ever made. I had only taken two boxes when the pain left my back entirely. Three boxes more, or five in all, made a complete cure. "After 25 years of suffering from kidney disease I am now healthy and strong again, and will be pleased to substantiate what I have said, should anyone wish to enquire."

Laxa-Liver Pills are the most perfect remedy known for the cure of Constipation, Dyspepsia, Biliousness and Sick Headache. They work without a gripe or pain, do not sicken or weaken or leave any bad after effects.
