BATH.

On Thursday afternoon last Mrs. Zıba Giberson, her little boy and two of Whit Giberson's children went strawberry picking, and found a choice bed of berries near the woods at the rear of Alf. Gi-berson's farm. Here they went to work gathering the berries unmindful of danger or opposition. However, while Mrs. Ziba Giberson was about to settle down to some fresh looking bunches she was thunderstruck by finding herself stumbling over a growling bear which seized hold of her by the skirt tearing large holes in it. She 'screamed and fought furiously, when one of her companions ran to her assistance catching her by the back of the skirt to pull her away. The result of this duel between the bear and the others was the surrendering of Mrs. G's skirt and gaining freedom. The party left the skirt and ran for a considerable distance, when turning round they saw their dis-turber moving slowly but dignified into his forest domain. After he had disappeared Mrs. Giberson returned for her skirt but found only rags, which bruin in his disappointment had made out of the skirt. Mrs. G. returned to the spot on Saturday "loaded for bear," but we have not heard the con-sequences yet. She is a determined woman and can handle a gun, so that it is possible a tragedy may yet be the finale of this adventure. The party although getting a good scare, have all recovered from the shock of the incident and are village heroes.

in spite of the disagreeable weather. The tables looked nice and were well protected by a canvas

covering. The proceed were \$95. The closing examination for this school was held on Friday afternoon. A number of visitors were were present who divided their attention between both rooms until near the close when Mr. Allen dismissed his scholars and went into the primary room. At the close of the excreises Rev. Mr. Fiske, Dr. Ross, D. W. Hamilton and others ad-dressed the school. Miss Doran told the standing of the best scholars: 1st, Miss Leon, F. N. Up-ton, 990; 2nd, Miss Lillian G. Shaw. 928; 3rd, Master Fred. M. Ross, 919, out of a possible 1200. These marks were of course influenced by their at-tendance. The fourth grade scholars were given their grading examination by the principal, Mr. Thos. Allen the day before, and Miss Sadie P. McKay has the honor of leading her class. A number of the young folks of this village are planning a trip up to the falls, taking in several places on the way. both rooms until near the close when Mr. Allen

Woodstock Races.

Races in the driving park on Saturday afternoon were not very largely attended on account of the unsettled weather. The 2 29 class races were especially interesting. Tom O'Haley beat his previous record and will now go in the 2.25 class. James Gallagher drove Baron Almater around the track several times on exhibition. This handsome black stallion was purchased by Gallagher Bros. last spring at a high figure, and was much admired by the spectators. The Woodstock band was in attendance and played several choice selections. Following is a summary of the races:

Chronic Indigestion

By far the most important part of digestion takes place in the intestines and it is folly to expect stom-ach medicines to cure a severe case of indigestion or dyspepsia. The Kidneys, liver and bowels must first be made regular and active and the only rem-edy which acts directly on these organs is Dr. Chae's Kidney-Liver Pills. They are purely vegetable act pleasantly and naturally and positively cures dyspepsia, biliousness and stomach troubles. One pill a dose, 25 cents a box. taxe no substitute.

to convince a man that a garment made from His Measure, taken by an Experienced Tailor, and fitted on in the course of making should fit better and be more stylish than one taken from a pile made 6 to 36 months ago! The marriage of the very popular couple, Frank Doherty and Hannah Hurley, which took place on the 20th ult., was a very quiet affair. Those present at the wedding were near relatives only. If the number of congratulations and good wishes for the future happiness is any indication of prosperity they will have a long, happy and prosperous mar-ried life.

Patrick Gorey who went from Bath on Monday last to represent as delegate Division No. 2, A. O. H., at the Provincial Biennial Convention, held in Moncton on Tuesday and Wednesday last, has in Moneton on Tuesday and Wednesday last, has as far as we know not yet turned up. The con-vention finished Wednesday night last, and prob-ably Mr. Gorey has got as far as St. John, where he has hosts of friends, on his return home. How-ever, the anxiety of his friends here has been much mitigated by this theory. His steam drill which he left in Mr. Bohan's yard has been work-ing just the same ing just the same.

At the basket social which Division No. 2, A.O. H. held in Johnville on the 19th ult., a splendid time was enjoyed and the amount of \$50 put into the treasury. Wade's orchestra furnished excel-lent music for the dancing.

A few days ago E. F. Shaw was the unfortunate victim of some light fingered gent. While away from home, Mr. Shaw left his clerk in charge of the store, but unfortunately while the clerk was busy in the back shop the deed was done. The amount taken was between five and six hundred dollars in cash and notes. Suspicions are rife and point to one certain person, but no arrests have been made, and we are of the opinion not likely to be although it would be a pity not to bring the thief to justice.

which is assessed for \$23,000.

The building is of brick, containing four suites. It is directly opposite the central entrance to the Mechanics' building.

William F. Channing of Pasadena, Cal., is the vendor. The transaction was arrang ed by Frederick W. Hobbs.

Inquiry for property on Hungington avenue, from Copley square to Gainsboro street has been active since it became assured that the new Horticultural Hall was to go up at the corner of Massachusett avenue. It was greatly stimulated by the announcement that the Hill estate was to erect a music studio building on the adjoining lot, and that the New England Conservatory of Music had secured an optain on land at the corner of Huntington avenue and Gainsboro street as the site of a proposed new conservatory building.

But, in spite of active demand, there has been no large number of sales. The reason is chiefly, that owners are holding on with a tight grasp, refusing even to consider offers of less than, say, \$5000 above assessed valuss. However, the sale of the important likley property, and, more recently, Mrs, Everett's sale of two pieces near by, together with Mr. Jones' purchase, indicate the existence of a demand that is substantial enough to at once take out of the market about any. thing that is offered at a figure near the taxed value.

[Mr. Jones was formly a resident of Woodstock and is a well known man here today.]

The Late Rev. Thos. Connor.
