NEWS FROM THE COUNTY.

NOTICE TO CORRESPONDENTS

Correspondents must send their names with each week's contribution, or their matter will not be printed. The names will not be published, but the Dispatch must know who is accountable for everything that is inserted in its columns.

UPPER KNOXFORD.

The weather has been fine lately so that the farmers will be able to finish harvesting before the skating season comes in.

There have been a good many parties here of late. It is rumored that another party of a matrimonial kind will be given in the near future.

Norman Margieson, of Mars Hill, passed through here last week on his way to and from Hartland, making a couple of pleasant visits.

Miss Marion Waters, of Lakeville, has been spending the past week with her friend Mrs. Allan Margieson.

Two of our enterprising young men Thomas and Edward Longstaff left last week for the lumber woods.

Our school is taught by Miss Katie Waters, of Lakeville.

Miss Emily G. Longstaff spent three days last week with Miss Louisa Delong, Mars Hill.

It is good to learn that Miss Alma Reid is recovering from a severe illness.

Mr. and Mrs. Allan Margieson entertained a number of their young friends on the evening of Oct. 2nd. The guests were treated to an oyster supper. It was a very pleasant party.

A large number of young people attended the basket social at Walter Jamieson's. The affair was a complete success. The sum of \$35.50 was raised for church purposes.

NORTHAMPTON.

Mrs. Oliver Roulston is very ill and but small hopes are being entertained of her recovery. She is ill from a complication of diseases chiefly dropsy, and was away for a long while under treatment in Boston.

S. A. Rogers and his son James are about buying C. L. Smith's share of Bull's Island. This should be a good investment.

There is a bold bad mouse out Kilmarnock which needs killing. It is said to have invaded Geo. Nix's fields lately and attacked a horse which he had picketed off grazing, and made it very interesting for the poor animal until George came to the rescue and severed the rope with his hunting knife, the mouse then making off. A large one was recently shot out there from a window in the house by Banford Bulmer. The animal was large and valuable and netted the lucky sportsman a good figure.

BRISTOL.

A. W. Phillips spent Sunday at home in Bristol. Charles Merritt, Grand Falls, has been spending a few days in the village.

J. J. Hayward has returned from his trip to England, having been gone about two months.

Mrs. Horace Kelso, and her daughter Bessie of Linnes Maine, have been visiting in Bristol, the guests of Mrs. I. N. Boyer.

The Baptist tea meeting was held on Saturday, but owing to the rain, was not very well attended. The receipts however were considerable, and will help to clear off the debt.

The annual school meeting will be held in the school house next Saturday 10 a. m.

Mrs. A. Gardiner and family have gone to Boston to spend the winter where Mr. Gardiner is. Joseph Curtis has been out in the Miramichi lumber woods for some days, cruising out a chance for the winters operation.

ARTHURETTE.

Miss M. McLaughlin spent Sunday with friends at Plaster Rock.

Inspector F. B. Meagher has been visiting the schools here this week.

Sportsmen continue to come to this section and many men of this place are engaged as guides.

BATH.

Miss Annie Healy, of Milltown, N. B., is visiting at Thos. Bohan's.

Miss Maggie Regan, of St. Andrews, N. B., is visiting the Misses Commins.

Miss Teress McGarity, of Milltown, is visiting Miss Mary Gallagher.

Miss Kate Bohan arrived home on Friday last after visiting Fredericton and St. John.

Father McAuley, recently of Milltown, N. B., is at present stationed in Johnville, where he is assuming the charges of Father Murray, who is at present in Quebec, having gone there in order to take a much needed rest and to recuperate his failing health.

Bill Demerchant, of the Demerchant Settlement, had a very close call to save his house from fire a few days ago. The roof caught fire by some means or another but was noticed in time to prevent serious damage. However it will take some lumber to cover the hole in the roof and keep out the coming cold and snow.

The home of Jas. Hall, of Johnville, was visited by a sad calamity last week, when his only two children aged respectively 2 years and eleven months died from cholera within three days of each other. The parents have the sympathy of the whole settlement.

While playing with other boys on the way home from school one day last week the twelve year old son of Amos Demerchant fell dislocating his left arm at the elbow joint. Dr. Commins was summoned, reduced the dislocation and the boy's arm is doing well.

W. H. Coy who has been taking charge of the C. P. R. station here for this last 6 or 7 weeks left this week to take charge of the Kilburn station. Mr. Coy made himself very popular while here, but this station will not want for a genial agent so long as Mr. Blaksley fills that office which he does at present.

Some very important improvements have been and are being made on the roads about this place. The Monquart hill which holds the record of being one of the rockiest and most dangerous pieces of road in the county is being transformed, but in the transformation it appears necessary that it should become a great deal worse before it is better, and must remain that way for some time. However Well Giberson who has the contract of doing the work is an experienced roadmaker and no doubt before long we will see a neat job.

RED RAPIDS.

We are no drovers if there hasn't been any items the last few weeks. Its due to carelessness. Wake up old sleepy heads and write a few.

Our busy farmers are all done harvesting with the exception of a few roots to be gathered. The weather was not the best but we can't have all sunshine.

Lumbermen are getting ready for the woods and will soon be taking from our midst the jolly good fellow.

Mrs. William Crawford has been visiting Mrs. McAlary of Andover.

Mrs. J. Forrance has been spending a few days with friends at St. Elmo.

Rob Forrance is home again from Hartland.

Fred Esty dined here last week on his way to Perth.

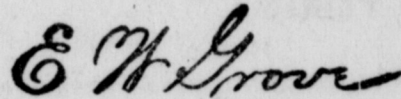

Mr. and Mrs. O. C. Boyer drove to Beechwood last week to see relatives.

C. M. Leonard had a very successful trip recently up the Tobique after the animal with the long horns.

George Suthery's little boy has bronchitis. Measles prevails in the home of Mrs. Merrithew.

EDMUNDSTON.

S. E. Burpee was one of the happiest young men in Edmundston on the 2nd day of this month when he arrived home from a hunting trip on Green River bringing with him a very fine moose head as a trophy of his prowess in the forest. He started from here a week ago Monday and on Friday following succeeded in finding and bringing down a monster bull moose. Early in the morning he started out accompanied by his guide Joseph Dube of this place to search along the shore of the fifth lake Green River and had only gone a short distance when they heard sounds of the game they were searching for crashing his way through the woods. They went ashore and tried to approach him but the moose saw them before they were near enough to risk a shot and turned in opposite direction and trotted. The guide hastened back to the canoe and procured his bark horn and gave a couple of loud calls and in a few minutes the moose came rushing back to where the hunters were stationed and was soon near enough to make a good target and two or three well aimed shots brought him down just at the shore of the lake. Mr. Burpee and the guide then went to their canoe and paddled up towards the spot but were a little surprised to see the moose rise and rush into the water towards them. One shot from Mr. Burpee finished him. He proved to be a large specimen with a beautiful set of antlers almost perfect in shape with a spread of fifty inches and thirteen points. It was no small task to bring the head, hide and the best of the flesh down the rough waters of Green River, but to the successful hunter such is a pleasure. The party saw several other moose both cow and bulls on their return journey but did not molest them. Though Sam took the trouble to warn them that he intended to return next year for a larger set of antlers.

The Aim.

O thou who lovest not alone
The swift success, the instant goal,
But hast a lenient eye to mark
The failures of the inconstant soul.

Consider not my little worth—
The mean achievement, scamped in act—
The high resolve and low result,
The dream that darest not face the fact.

But count the reach of my desire,
Let this be something in thy sight;
I have not, in the slothful dark,
Forgot the vision and the height.

Neither my body nor my soul
To earth's low ease will yield consent.
I praise thee for the will to strive;
I bless thy good of discontent.

Scott's Emulsion

of Cod Liver Oil is the means of life, and enjoyment of life to thousands: men women and children.

When appetite fails, it restores it. When food is a burden, it lifts the burden.

When you lose flesh, it brings the plumpness of health.

When work is hard and duty is heavy, it makes life bright.

It is the thin edge of the wedge; the thick end is food. But what is the use of food, when you hate it, and can't digest it?

Scott's Emulsion of Cod Liver Oil is the food that makes you forget your stomach.

If you have not tried it, send for free sample. Its agreeable taste will surprise you.

THE WAR IN SOUTH AFRICA.

JOHANNESBURG, Oct. 8.—Gen. Barton is fighting with a Boer commando northeast of Krugersdorp. Several bands of Guerillas have reappeared in that district recently and more are expected. Mr. Edwards, an Englishman commanding a Boer force, who became prominent after the Jameson raid on account of a rabid anti-British speech he made, has surrendered in Krugersdorp with a few men.

A colonial force has gone south to Elandsfontein to clear the Boers out of the Klip Riversberg pass. These hills have been a regular rendezvous for the Boers lately. The ignorant Boer inhabitants here attribute the fact that the British officials are selling and distributing food to a desire on their part to clear out the stores before they give up the country, but these same people still readily believe and circulate the most absurd stories about the intervention by the powers. Colonel Henry, who wears the decoration of the Star of India, and who is re-organizing the police department here, has introduced the system of identification by finger marks, and in this way intends to register every native. This plan will be of great assistance in the distribution of passes, the regulation of labor and the suppression of illicit liquor selling.

Baldness.

It has been found on study of 300 cases of loss of hair that baldness prevails most with unmarried men, which is contrary to the general belief. The worries of the bachelor may be fewer, but they are more trying to the scalp than are the multitudinous cares of the man of family. Most bald people are found to lead indoor lives, and almost all of them belonging to the intellectual class. Usually the loss of hair begins before the thirtieth year. In woman it usually constitutes a general thinning; in men it affects the top of the head. Diseases that affect the general nutrition of the body are likely to thin the hair. Heredity is a factor. If one has baldheaded ancestors, all the drugs of the pharmacopoeia will not bring out flowing locks.—Argonaut.

Religion is not dependent upon circumstances. There were "saints" in Nero's household.

The Strike Situation.

Now that a convention to consider the 10 per cent. offer is assured, attention is turned to the question of what the companies mean by 10 per cent. in the case of the miner and his helper. The miner works by contract and pays the laborers of his earnings. As rule the miner cuts six loads of coal, for which he gets \$6.30. Out of this he pays for powder, oil and repairs of tools and the wages of his helper. The laborers' pay is fixed at so much per day and in this region it averages about \$1.75. After paying the laborer and the expense of powder, oil, etc., the miner has about \$2.30 left for himself. Ten per cent. advance gives the miner 63 cents extra per day. The laborer wants his 10 per cent. or 18 cents, and as a consequence the miner must be content with 45 cents extra, or seven per cent. But in many instances a miner has two laborers. This means that 36 cents must come out of the 63 cents and the miner finds himself enjoying an advance of only five per cent.

Just how the operators want this offer interpreted is not known. The local operators say that the men who framed the offer either did not have in mind that the miner pays the laborer or else, having been in mind, figured the laborers out of the consideration and left it for the miner and laborer to settle between themselves what, if any, portion of the 10 per cent. the laborer should receive. The laborers will not, it is thought, be content with anything less than a full 10 per cent. raise and this, it is thought, is going to cause a hitch when the convention comes to consider the question.

President Mitchel spoke briefly at a big demonstration of miners at Shenandoah on Saturday, and was frequently interrupted by cheers. His most important statement was one informing the strikers that they would soon meet in convention. He said: I wish to announce today for the first time that in a few days a convention will be called. Every mine will be represented. If you believe a net advance of ten per cent. in your wages is enough, then your votes will decide the question. If you prefer that the strike shall go on Mitchell will be with you. In this strike we must all win together or go down together.

The belief is general that the men will give a majority vote in favor of accepting the concession made by the operators which includes a reduction in the charge for powder to the miners as well as an increase in the pay of all mine workers. The date and place for holding the convention will be decided upon at Hazleton tomorrow, by President Mitchell and other officials of the united workers.

Filipinos Still Fighting.

MANILA, Oct. 5.—via Hong Kong.—The report of the capture of about sixty men of the 29th United States infantry on Martinique Island is confirmed through communications from Macarthur and Kempt from Marinduque Island, though details are lacking. The Yorkstown relief column landed at Torijos on the Mariuquo coast and marched to Santa Cruz, the proposed route of the captured party, without encountering the enemy or learning anything definite regarding the captives, except that they had entirely disappeared. Marinduque is a small island within forty miles of Luzon. It is possible that the rebels have conveyed the captives to Luzon.

MALARIA.

Prof. Koch Announces that he has a Positive Cure.

TACOMA, Wn., Oct. 8.—Passengers who arrived here yesterday from the Orient report that Prof. Robert Koch has arrived at Hong Kong. The eminent bacteriologist of the Berlin university has devoted a year to scientific investigations in the Dutch West Indies and in the German colonies of East Africa for the purpose of testing his cure of malaria, which was only partially successful in Germany before his departure.

The scientist now announces to the medical world that his cure is positive and that every malarial district can be shortly purged of the scourge. Dr. Koch announces that his medicine is both for curative and preventive purposes. He wants it known that he has found a way of ridding countries of the malarial parasites and mosquitoes.

On his arrival in Berlin he will present his official report to the German government and will recommend that measures be taken at once to introduce his method of exterminating the parasites and his cure for malaria, which he claims can be manufactured at once in all countries.

Where are the Skeptics?

In spite of all the evidences published in the daily press and even in spite of the testimony of your best friends you may still be skeptical regarding the unusual virtues of Dr. Chase's Ointment. Nothing short of an actual trial will prove to you beyond the possibility of doubt that Dr. Chase's Ointment is an absolute cure for piles. A single box will be sufficient to make you as enthusiastic as your neighbor in praising Dr. Chase's Ointment, for it is certain to cure you.
