Olo Mon Sloan's Advice on How to Run the Universe.

Mr. Editor: If I were boss—
There would be some radical change in
feminine clothing.
If women folk insisted on wearing skirts,
they would have to wear skirts of a different
sort, some kind that would be firmly attach-
ed to their shirt waists or bodices.

There was a woman's convention the
other day, and for eight blessed hours every
woman that got up to speak first reached
around to make sure that the upper and the
lower parts of her gown met.
I was at a commencement recently, and it
was the same thing there. Every sweet girl
graduate that got up to read her essay had to
fuss a little bit with her gown before she
made her bow to the audience.

Think of the muscular energy women folk
waste in the course of a year, to say nothing
of the nervous worry. It is no wonder that
there are more women than men in the in-
sane asylums.

Then, too, look at the exhaustion that
must come from the proposition of holding
up skirts.

Watch a youngster of 6 go across the street.
Though her skirts are a foot and a half from
the ground, she will grab them in one hand,
as she has seen her mother and her sisters do.

She keeps on doing it every day of her life
from that on. As she gets older her skirts
get heavier, and when she gets to wearing
trains the task gets more arduous.

Think of the energy that is wasted by not
having skirts cut four inches shorter.
If I were boss Dame Fashion would have
to invent a new grab for women or go out of
business.

There is no reason why women should not
be just as sensibly and as comfortably dressed
as men.

Any style, however simple, will become
popular if persisted in.

Women themselves would welcome any
change in their grab that made life easier for
them, if they would only admit it.

And if I were boss they would admit it.
SOLOMON SLOAN.

A Good Stomach

Is essential to health and happiness, but don't
blame the stomach for biliousness. It is the liver
that is deranged, and causes poisoning bile to re-
main in the blood causing indigestion, headache
and irregular action of the bowels. Dr. Chase's
Kidney-Liver Pills regulate the liver, kidneys and
bowels and by their direct action on these organs
effect prompt and lasting cures of biliousness, dys-
pepsia, headache and all kidney ailments. One
pill a dose, 25 cents a box, at all dealers.

In Legal Terms.

"If I were to give you an orange," said
Judge Foote of Topeka, "I would simply
say, 'I give you the orange,' but should the
transaction be intrusted to a lawyer to put in
writing he would adopt this form: 'I hereby
give, grant and convey to you all my interest,
right, title and advantage of and in said
orange, together with its rind, skin, juice,
pulp and pits; and all rights and advantage
therein, with full power to bite, suck, or
otherwise eat the same, or give away with or
without the rind, skin, juice, pulp or pits;
anything hereinbefore or in any other deed
or deeds, instruments of any nature or kind
whatsoever to the contrary in any wise not-
withstanding.'"—Kansas City Journal.

The Other Remington.

As Frederic Remington, the artist, who
lives in New Rochelle, stepped from his train
in the Grand Central station the other morn-
ing a thin man with an alert expression who
was standing near the waiting room with a fat,
red-faced man from Chicago, caught sight of
him.

"Hello," he said, "there's Frederic Rem-
ington."

"Where?" asked the Chicago man with
great interest.

"There he comes, the big fellow. Would
you like to meet him?"

"You can gamble on it that I would," said
the Chicago man. "I don't know a citizen
of your town that I would rather meet than
Remington."

"I didn't know that you cared for his work,
but I will be glad to introduce you."

"Care for it!" exclaimed the Chicago man.
"It's the best thing in the market."

The thin man greeted Mr. Remington as an
old acquaintance, and then presented the
Chicago man as a great admirer of his work.

"Indeed I am, Mr. Remington. I am
proud to meet you. Remington is a house
hold word with us," said the Chicago man.

"Indeed," said Mr. Remington, looking as
any modest man might at such a tribute from
the West.

"It is, for a fact," said the Chicago man,
"and when I tell my wife that I have met
Frederic Remington she will want to know
all about you. She was my stenographer be-
fore we were married and she used only your
typewriter. I wouldn't have any other ma-
chine in the factory and—"

Mr. Remington walked away abruptly and
the thin man gasped and then explained to
the Chicago man.

"Artist, did you say?" asked the latter.

Bleeding Piles

A Prominent Business Man Testifies to
His Cure by Using Dr. Chase's Oint-
ment.

Not a day passes but many people
volunteer recommendations of Dr.
Chase's Ointment as an absolute cure
for every form of piles.

Mr. Jas. Jackson, of the Lauris Spool
Company, St. Alexis des Monts, Que.,
writes:—"You may put my name to
any praise you can give to Dr. Chase's
Ointment, for it has done me more good
than any medicine I ever used."

"I was troubled for two years with
that cruel disease, bleeding piles, and
after using Dr. Chase's Ointment, I
can say I am entirely rid of it. It is
a treasure to all suffering from piles."

Dr. Chase's Ointment is guaranteed
to positively cure any case of itching,
bleeding, or protruding piles. It has
never yet been known to fail, and cer-
tainly will not fail in your case.

For many years Dr. Chase's Ointment
has stood alone as the only ab-
solute and guaranteed cure for piles
and itching skin diseases; 60 cents a
box, at all dealers, or Edmanson,
Bates & Co., Toronto.

Dr. Chase's Syrup of Linseed and
Turpentine has by far the largest sale
of any remedy for throat and lung
troubles. 25 cents a bottle.

"Why I thought he invented the typewriter.
Now isn't that enough to freeze your feet?"
—New York Sun.

SEVERE TOOTHACHE.

"I have used two bottles of Dr. Low's Tooth-
ache Gum and find it splendid. It cured me of
the worst toothache I ever had."
Elvina Hill, Elva, Man.

In a Quandary.

The woman was visibly perturbed. So
much so, indeed, that one were fain to in-
quire the cause.

"Only this," said she "Ten years ago I
told the census taker I was 22."

"Yes."

"And now I've found out the same man
has the same place again. I wonder how
good his memory is?"—Indianapolis Press.

DR. A. W. CHASE'S
CATARRH CURE ... 25c.

Baron Almater
32913,

THE fashionably bred Wilkes-Mambrino
Patcher Stallion, Standard Bred, Rule 1, American
Trotting Register, Vol. 15, with the Double
Wilkes cross, three crosses of Mambrino Patcher
and double cross of the great brood mare Alma
Mater, with 8 in the 2.30 list—5 producing sons and
3 producing daughters; being sired by Baron Alex-
ander 28383 (who was destroyed by fire when young)
a full brother to Alfonso, with 11 in the 2.30 list at 9
years of age, son of Baron Wilkes 2.18, and Alma
Mater; dam, RACHEL, dam of Blackbird 2.26, at 2
years, and a full sister to Raven 2.19 and Edna Cook
2.12, by Alcantara 2.23, son of George Wilkes and
Alma Mater; granddam, Rachel B. 2.28, by Allie
West 2.25—the champion 5 year old stallion of his
time and considered the best son of Almont.
BARON ALMATER is a young horse, his oldest colts
were only 3 years old last season, and in October
last one of his colts trialed a mile in 2.18 and sold
for \$500.00, and another trialed a mile in 2.22 and
sold for \$750.00, and a pair of his colts took first
prize at Long Island horse show last fall and sold
for \$1300.00, for a gentleman's double hitch.—BARON
ALMATER has got no record for the reason he never
started in a race or started for record, but has gone
a mile in 2.18 and another in 2.22 and he is
going to be limited to 40 mares this season and
started in the fall for a record. BARON ALMATER
has got the double cross of the blood that produced
the two champion pacers of 1889, Searchlight 2.03,
and Lady of the Manor 2.04, have the Almonte-
Alcantara cross, which Baron Almater gets direct
from his dam; so has Coney 2.07, the fastest and
most successful of the green pacers out last season,
having won 5 races. A combination of blood which
in one sea on has two champions and carries three
green pacers and a green trotter below the 2.10
limit is worth having, and you can get this winning
combination from Baron Almater.

BARON ALMATER is a horse of rich breeding, for
he has the golden double cross of Wilkes from two
of the best sons of that great progenitor of extreme
speed. Baron Wilkes is admittedly the most popu-
lar stallion of the day, and well he may be—for look
at the race horses he sires, and the speed that is
coming from his sons and daughters. Popular as
Baron Wilkes is—Alcantara being an older horse,
has a much larger list of winners, and more speed
producing sons and daughters. These stallions tie
for honors, as the champion sires of 2.12 performers,
both having the same number; but Alcantara leads
all stallions as the sire of 2.15 race horses. Baron
Wilkes is the paternal and Alcantara the mater-
nal grand sire of Baron Almater; and Baron Almat-
er's sire is from the dam of Alcantara. There can
be no stronger combination of blood lines than
these.

It is well known that the great "nick" for the
Mambrino Patcher mares was George Wilkes.
These mares have more speed producing stallions
sired by other stallions than by Wilkes. But the
sons of George Wilkes from Mambrino Patcher
mares have sired more 2.15 speed than the others
have in 2.30. The Wilkes-Mambrino Patcher strain
is more fruitful of 2.10 speed than all other lines
of blood combined. George Wilkes has 176 descen-
dants in 2.10 and Mambrino Patcher 145. Baron
Almater has the three best lines from a Mambrino
Patcher, including a double cross of Alma Mater,
his most successful daughter, and one of the most
famous of speed perpetuators.

This magnificent inheritance is further strength-
ened by the blood of Allie West, through his per-
forming and great speed producing daughter,
Rachel B. 2.28; the granddam of Baron Almater, Allie
West 2.25 was the champion 5 years old stallion of
his time and considered the best son of Almont,
but died in his sixth year. The few foals he left
were highly prized, and their speed producing
descendants are valued more and more—especially
by Kentucky breeders. Baron Almater has the
best line from Allie West 2.25.

Back of all this Baron Almater has a cross to
William's Mambrino, who sired the dam of that
sterling race horse, and sire of game trotters,
Rachel B. 2.28; Ericsson, sire of William's Mam-
brino, was the champion 4 year old trotter of 1860
and sired the dam of Moquette 2.10 champion 4
years trotter of 1892.

Alcantara it will be remembered was the fastest
4 year old of 1889; and George Wilkes the champion
trotting stallion from 1868 to 1871.

BARON ALMATER'S inheritance is rich as the
richest and strong as the strongest both in performing
and producing blood. For further details call and
get tabulated pedigree and the speed table in cir-
culation.

his horse is Wilkes on both sides.
This fashionably bred Stallion will make the seas-
on of 1900 on owners' Livery stable Woodstock, N.

The Giraffe's Timidity.

A giraffe is very timid on hearing slight
sounds, but is indifferent to loud ones. A
writer in The Leisure Hour says:

Noisy sounds, like a man walking by with
hobnail boots, it does not notice, but a lady
coming in with hardly more sound than the
rustling of her dress makes it start, with
pricked ears and eyes distended.

We remember well, after a terrible ex-
plosion of gunpowder on a barge on the
canal, asking the keeper of the giraffes of
that day how they had taken it, and he said
he was surprised how very little notice they
took. They jumped to their feet, but al-
most at once lay down again when they
found nothing happened.

"But," he added, "if I were at night-
time to creep along that gallery in my socks
they would be so scared that I believe they
would dash themselves to bits."

They fear the lurking foe, and a bang bang
scares them less than a faint, rustling sound.
They are in that respect very deerlike.

Where are the Skeptics?

In spite of all the evidences published in the
daily press and even in spite of the testimony of
your best friends you may still be skeptical regard-
ing the unusual virtues of Dr. Chase's Ointment.
Nothing short of an actual trial will prove to you
beyond the possibility of doubt that Dr. Chase's
Ointment is an absolute cure for piles, A single
box will be sufficient to make you as enthusiastic
as your neighbor in praising Dr. Chase's Ointment,
for it is certain to cure you.

Wonderful.

Two sailors noticed that a shark was follow-
ing their ship. Not knowing how to get rid
of it, they threw a chair overboard.

The shark swallowed this, but still follow-
ed.

Two sailors then threw a box of oranges
overboard to it.

The shark swallowed this and still followed.
The men seemed completely beaten for a
moment what to do until one of them said
that those on board should draw lots for who
had to satisfy the shark.

It fell to an old woman. So the sailors
tossed her overboard, and the shark ate her
at one bite.

This did not content the fish, which still
followed. So the sailors harpooned it and
dragged it on board.

On opening it they found, to their surprise,
the old woman sitting on the chair selling
oranges "three a penny."—Pearson's Weekly.

Some Useful Measures.

An experienced cook tells me that these
are the measures indicated in the books:
Two cups mean one pint; one cup of butter
is half a pound; butter size of an egg is two
ounces; one cup of granulated sugar is half a
pound; two tablespoons (liquid) are equal
to one fluid ounce; two wineglassfuls are one
gill; one teaspoonful of salt is a level tea-
spoonful; one teaspoonful of sugar is a round-
ed teaspoonful; four teaspoonfuls (liquid) are
equal to one tablespoonful; one heaping
tablespoonful of butter is one ounce; two
heaping tablespoonfuls of flour are one ounce;
two and one-half cupfuls of pulverized sugar
are one pound.—New York Press.

"Henry," she said, "did you get those
shoe but'ons for me to lay?"

"Yes," he replied.

"What did you do with them?"
He felt in his pocket and presently fished
out a little round box. Then a scared look
overspread his countenance, and the lady
wanted to know what was the matter.

"Did you take any of those complexion
pills you asked me to bring home for you?"
he asked.

"Yes, one," she answered. "Why?"
"That was a shoe button. Here are the
pills."—Chicago Times-Herald.

Let It Go at That.

One day, in advocating a more liberal
loosening of the purse strings at a Metho-
dist conference in Washington, Bishop W. A.
Candler said that several years ago he sent an
article to a paper in which he wrote that "we
pray too loud and work too little."

The intelligent compositor got in his fine
Italian hand, and when the article appeared it
read, "We pray too loud and work too little"

"I let it go at that," said the bishop. "The
fact is, I believe the printer was right, and I
never attempted to correct it."

The following appears in the Japan Her-
ald, after the style of Runyard Kipling's
"Bobs" it is headed "Our Joe":—

'E's a sort o' god proteen,
Our Joe;
Comes from busy Brummagem,
Our Joe;
'E's a fortune made by seravs,
And a varied set o' views,
And a fund o' choice abuz,
Good old Joe!

Made Bright, and Health and Vigour Re-
stored by the Use of Dr. Chase's Nerve
Food.

Headache, backache, sleeplessness,
despondency, and irregularities are the
result of an exhausted condition of the
body and nervous system.

No treatment was ever so efficacious
in restoring health, strength, vigour,
and vitality as Dr. Chase's Nerve
Food, the great blood builder.

Mrs. J. M. Bradley, 100 Jane street,
Ottawa, states:—"For several years I
have been gradually running down in
health. I became nervous and weak,
and worried greatly over my future."

"Hearing of Dr. Chase's Nerve Food
and the wonderful results it has ac-
complished in others, I obtained a box
and began using it as directed. I be-
gan to improve immediately, and am
now restored to full health and vigour."

"Dr. Chase's Nerve Food is an excel-
lent remedy, and I can recommend
it to all who are weak, nervous, or run
down in health."
