The Boer Outlook.

New York Press: Just what amount of truth is there in the insistent howl that England is about to deprive the Boers of their liberty? One would think that the Transvaal and the Free State were to be made Poland or Finland or Alsace-Lorraines. These make believe republics will fail—there is not a shadow of a doubt about that—but England is not in the business of absorbing lands for revenues. What she takes she makes self-supporting and free. Where she goes she carries constitutional privileges, trial by jury, habeas corpus, free speech, free press, religious toleration and unbarred and honest suffrage. These things she will carry into South Africa.

The Boers will remain self-respecting freemen. They will not be robbed of a just share in the government. They will be able to write or speak as they please without lese majeste. They will not be put under abhorrent police supervision. Their personal land holdings will not be confiscated. They will suffer no conscription. There will be no compulsory military service for them, either in regular army or in Landwehr. They can stay if they choose or trek whithersoever they will. The things they cannot do under England's rule are the things no enlightened free people could wish to do—to enslave the blacks, monopolize franchises, persecute particular sects and deny his natural rights to the Outlander.

This is what the Boers have to expect from defeat at the hands of England. This is all. The riches of the Boer government will suffer; the riches of the individual Boer not at all. It is to England's interest to win. It is to the world's interest and to our interest that England win. Most of all, it is to the interest of the Boers. As a self-respecting colony they have a future. As the misled tools of a bigoted and oppressed oligarchy centred at Pretoria they have nothing before them in the world. The world—the free part of it—has done with such things.

Catarrh of the Stomach—Could often be prevented had the patient with a stomach and digestive organs predisposed to weakness, been stimulated by some such pure, wholesome power as contained in the vegetable pepsin out of which Dr. Von Stan's Pineapple Tablets are prepared. But the world is finding it out—medical science is making rapid strides—and the sufferers are not having their pockets "bled" for a cure. 60 tablets 35 cents. Sold by Garden Bro.

Honey for Scholars.

Honey and bread was a great meat with Pythagoras and his scholars, and counted a sufficient food for a temperate life, says an old writer. For bread strengthens the body, and honey both nourishes much and also cleanseth away superfluities. Pollio Romulus being asked by Augustus the Emperor how he lived so long: "By nourishing (saith he) my inward with honey, and my outward part with ayle." The like answer likewise made Democritus, being demanded the like question. Furthermore, it is so general a meat through Russia, that the children eat it on their bread every morning as ours do butter to their breakfast; with whom and with old men it agreeth exceedingly well, cleansing their breasts, opening their pipes, warning their stomachs, resisting putrefaction, and engendering sweet and commendable blood; raw honey is never good, therefore clarify it thoroughly at the fire; also let it be honey that run and was never puffed out of the combs, and of young bees rather than old, feeding upon thyme, rosemary, flowers, and such sweet and wholesome herbs. Then may you boldly give it as meat to young children, to cold and moist complexions, and to rheumatic old men, especially in northern countries, and cold climates, and in the winter months.

A CARD.

We, the undersigned, do hereby agree to refund the money on a twenty-five cent bottle of Dr. Wills' English Pills, if, after using three-fourths of contents of bottle, they do not relieve Constipation and Headache. We also warrant that four bottles will permanently cure the most obstinate case of Constipation. Satisfaction or no pay when Wills' English Pills are used.

Success Commandments.

(New York World.) Before your son is fitted for business he should be able to— Write a good, legible hand. Speak and write good English. Draw an ordinary bank cheque. Take it to the proper place in the bank to get it cashed. Add a column of figures rapidly and accurately. Make out an ordinary account. Write an ordinary promissory note. Spell all the words he knows how to use. Make neat and correct entries in daybook and ledger.

The worst kind of splitting headaches can be relieved in five minutes by Milburn's Sterling Headache Powders. They don't depress the heart. Price 10c. and 25c.

His Opinion of Canadians.

The following statement by the Boer Envoy Wessels, published in the Buffalo Inqui-

He Walked The Floor

In Agony With Pains in the Back—Sleep Impossible—Medicine of no Avail Until He got Dr. Chase's Kidney-Liver Pills.

Mr. Patrick J. McLaughlin, Beauharnois, Que., states:—"I was troubled with Kidney Disease and Dyspepsia for 20 years and have been so bad that I could not sleep at nights on account of pains in the back, but would walk the floor all night and suffered terrible agony. I tried all sorts of medicines but got no relief until I began using Dr. Chase's Kidney-Liver Pills. They made a new man of me, and the old troubles seem to be driven out of my system."

Dr. Chase's Kidney-Liver Pills have an enormous sale and owe their popularity to the fact that they can be absolutely relied upon to cure all ailments of the kidneys, liver, and stomach. They are purely vegetable in composition, prompt and effective in action, and cure permanently. One pill a day, 25 cents a box, at all dealers, or Edmanson, Bates and Co, Toronto.

irer, is refreshing:—"We did not visit Canada this forenoon. We were not afraid to do so, but there were nothing to call us there. We could see all the magnificent scenery from this side. We don't believe they would attempt to arrest and hold us over there, though the Canadians do queer things. The Canadians who came into South Africa to fight for England would have fought on our side if we had given them twopence more they are expecting to realize great wealth in the Transvaal."

PICKING THE NOSE

It is a common symptom of worms in children. Mothers who suspect their child is troubled with worms should administer Dr. Low's Pleasant Worm Syrup. It is simple, safe and effectual. Price 25c.

Dr. Drummond's Poems.

Dr. Drummond's French Canadian Poems have become very popular. The June CASADIAN MAGAZINE contains his latest, entitled "Ma Oud Cabane," with illustrations by D. F. Thomson. Among the others contributors to this issue are Robert Barr, Bleasdel Walter, P. Y. Black, Frederic Villiers and Cameron C. Nichol.

Baron Almater 32913.

THE fashionably bred Wilkes-Mambriino Patchen Stallion, Standard Breed, Rule 1, American Trotting Register, Vol. 15, with the Double Wilkes cross, three crosses of Mambriino Patchen and double cross of the great brood mare Alma Mater, with 8 in the 2.30 list—5 producing sons and 3 producing daughters; being sired by Baron Alexander 2836 (who was destroyed by fire when young), a full brother to Alfonso, with 11 in the 2.30 list at 9 years of age, son of Baron Wilkes 2.18, and Alma Mater; dam, RACHEL, dam of Blackbird 2.26, at 5 yrs., and a full sister to Raven 2.19 and Edna Cook 2.12, by Alcantara 2.25, son of George Wilkes and Alma Mater; granddam, Rachel B. 2.28, by Alcantara 2.25—was the champion 5 year old stallion of his time and considered the best son of Almont. BARON ALMATER is a young horse, his oldest colts were only 3 years old last season, and in October last one of his colts trialed a mile in 2.18 and sold for \$1500.00, and another trialed a mile in 2.22 and sold for \$750.00, and a pair of his colts took first prize at Long Island horse show last fall and sold for \$1300.00, for a gentleman's double hitch.—BARON ALMATER has got no record for the reason he never started in a race or started for record, but has gone a mile in his work in 2.23 as a 4 year old. But he is going to be limited to 40 mares this season and started in the fall for a record. BARON ALMATER has got the double cross of the blood of the produced the two champion pacers of 1899. Searchlight 2.03, and Lady of the Manor 2.04, have the Alcyone-Alcantara cross, which Baron Almater gets direct from his dam; so has Coney 2.07, the fastest and most successful of the green pacers out last season, being won 5 races. A combination of blood which in one sea-on has two champions and carries three green pacers and a green trotter below the 2.10 limit is worth having, and you can get this winning combination from Baron Almater.

BARON ALMATER is a horse of rich breeding, for he has the golden double cross of Wilkes from two of the best sons of that great progenitor of extreme speed. Baron Wilkes is admittedly the most popular stallion of the day, and well he may be—for look at the race horses he sires, and the speed that is coming from his sons and daughters. Popular as Baron Wilkes is—Alcantara being an older horse, has a much larger list of winners, and more speed producing sons and daughters. These stallions tie for honors, as the champion sires of 2.12 performers, both having the same number; but Alcantara leads all stallions as the sire of 2.15 race horses. Baron Wilkes is the paternal, and Alcantara the maternal grandsire of Baron Almater; and Baron Almater's sire is from the dam of Alcantara. There can be no stronger combination of blood lines than these.

It is well known that the great "nick" for the Mambriino Patchen mares was George Wilkes.—These mares have more speed producing stallions sired by George Wilkes than by Wilkes. But the sons of George Wilkes from Mambriino Patchen mares have sired more 2.15 speed than the others have in 2.30. The Wilkes-Mambriino Patchen union is more fruitful of 2.10 speed than all other lines of blood combined. George Wilkes has 176 descendants in 2.10 and Mambriino Patchen 145. Baron Almater has the three best lines from Mambriino Patchen, including a double cross of Alma Mater, his most successful daughter, and one of the most famous of speed perpetuators.

This magnificent inheritance is further strengthened by the blood of Allie West, through his performing and great speed producing daughter, Rachel B 2.28; the granddam of Baron Almater, Allie West 2.25 was the champion 5 years old stallion of his time and considered the best son of Almont, but died in his sixth year. The few foals he left were highly prized,—and their speed producing descendants are valued more and more—especially by Kentucky breeders. Baron Almater has the best line from Allie West 2.25. Back of all this Baron Almater has a cross to William's Mambriino, who sired the dam of that sterling race horse, and sire of game trotters, Santa Claus 2.17; Ericsson, sire of William's Mambriino, was the champion 4 year old trotter of 1890 and sired the dam of Moquette 2.10 champion 4 years trotter of 1892. Alcantara it will be remembered was the fastest 4 year old of 1888; and George Wilkes the champion trotting stallion from 1893 to 1871.

BARON ALMATER'S inheritance is rich as the richest and strong as the strongest both in performing and producing blood. For further details call and get tabulated pedigree and the speed table in circular.

This horse is Wilkes on both sides. This remarkably bred Stallion will make the season of 1900 at owners' Livery Stable Woodstock, N. B. Service Fee, \$20.00.

District Passenger Agent's Office, St. John, N. B., May 9, 1900.

"It's the devil for any one to tell me a secret, for it is sure to come out in print."—HAZLITT.

That certain peddlers should be made pay a license for selling their wares in Woodstock is good sense. The rest of the so-called license business is more or less of a humbug, and no people know it better than the councillors. It surely is in the interest of the town to have as much of a population both permanent and transitory as possible. We will probably next hear of "summer visitors being taxed." They walk on the sidewalks, breathe the air of Woodstock etc., and yet don't pay taxes. St. John appears to be equally as fussy as Woodstock in this regard. Note this extract from the Globe:—"The law providing that persons living in this city and doing business here must either have a license, or be ratepayers, was probably never intended to apply to baseball players. Nothing was probably further from the minds of the learned men who drew up such a far-reaching piece of legislation. Yet in the Police Court today Thomas Howe and Harry Jope, of the Alerts, were reported by Officer White for doing business without license. The Magistrate enquired of them if they were junk dealers, to which they replied in the negative. They said they came here for the summer to play ball and were not doing any business. The policeman stated these men were brought to the city and were being paid by the week and thought they should pay licenses or taxes as well as anyone. There was a hurried consultation of the by-laws to see if they could be made apply to baseball and an impromptu argument arose among the lawyers as to whether or not baseball was a profession, a business, or a sport. The Magistrate told the catcher and third baseman that they had better go and consult the Mayor, and they retired looking rather puzzled at the whole proceeding. Just to show the officer is not prejudiced against the Alerts he will also report McLean and Sexton, of the Roses, and may also go after the professional golfer who is just now sojourning here. There are great possibilities for such wide constructions of the law. Professional musicians who come here to give concert engagements may be dealt with, ministers supplying local pulpits, theatrical people and so forth. Such proceedings as the above are simply ridiculous."

Some of our American contemporaries have a peculiar way of twisting things, and I will give an instance. Some time ago I happened to see in the Graphic a very interesting sketch of a British soldier driving away a couple of immense vultures preying on the carcase of his dead horse. The picture was called "Defending a Dead Comrade." Now, the New York Journal has reproduced this picture only it makes it "Boer soldier" trying to protect his wounded horse from vultures. The "Boer soldier" is evidently arrayed in khaki uniform with puttees and the general make up of the English soldier. That excellent philanthropic paper, Our Dumb Animals, copies this picture from the New York Journal. I daresay there are lots of Boers who would defend their horses, but in this particular instance the Graphic was the origin of the story and the sketch. It may please some of our American contemporaries to substitute "Boer" for British, but in this instance they are found out. * * *

A leading journal of the province had a rather sensational article a few issues ago, derived from an American source about the frequency of people being buried alive. It is rather gruesome to think that one in every ten persons are buried before they die. Perhaps some consolation may be derived from the fact that in no case in our experience has a person been pronounced dead, and has animation returned before burial. Now, if there are so many cases of suspended animation, for which death is mistaken, how is it that we know not of one in which animation has returned between the time of death and burial. But, to take another view of the matter, there are some communities where a great many people die before their time comes. I have heard of the death of people in this town, who are now alive and quite hearty. Some people do so heartily delight to spread abroad doleful news. "Rumor is but a lying jade," in many cases, most certainly.

THE IMP.

PAIN-KILLER cures all sorts of cuts, bruises, burns and strains. Take internally it cures diarrhoea and dysentery. Avoid substitutes, there is but one Pain-Killer, Perry Davis, 25c. and 50c.

Publisher: In the past year hardly 10 copies of your novel have been sold. You must get yourself talked about in some way—get run over by an electric car, for instance!

Nervous and Debilitated.

Almost a Victim of Nervous Prostration—Was Restored to Health and Strength by Dr. Chase's Nerve Food.

Mrs. D. W. Crowsberry, 158 Richmond street west, Toronto, Ont., states:—"My daughter, who sews in a white goods manufactory, got completely run down by the steady confinement and close attention required at her work. Her nerves were so exhausted, and she was so weak and debilitated, that she had to give up work entirely, and was almost a victim of nervous prostration."

"Hearing of Dr. Chase's Nerve Food, she began to use it, and was benefited from the very first. It proved an excellent remedy in restoring her to health and strength. After having used four boxes she is now at work again, healthy and happy, and attributes her recovery to the use of Dr. Chase's Nerve Food."

As a blood builder and nerve restorative, Dr. Chase's Nerve Food is of inestimable value. It makes the blood red, the nerves strong, and the whole system healthy and vigorous. 50c a box—at all dealers, or Edmanson, Bates & Co., Toronto.
