THE WAR IN SOUTH AFRICA.

LONDON, Sept. 15.—According to the Lourenzo Marquez correspondent of the Daily Telegraph, Mr. Kruger is virtually a prisoner in the residence of the district governor. This is at the instance of the British consul, who protested against Mr. Kruger using Portuguese territory as a base for directing his executive.

The French consul has been forbidden access to Mr. Kruger, as have also the latter's officials. The district governor has notified Herr Pott, the Netherlands' consul that he (Pott) who had acted as the Boer consular agent at Lourenzo Marquez, can no longer be recognized as a representative of the Transvaal, which is now British territory.

"I have had an interview with the American attache, who is homeward bound," says the correspondent, "and he is of opinion that hostilities may drag on for a considerable time, as the Boers in their despair threaten to fight to the death."

"Acting President Schalkbarger arrived here today (Friday) to confer with Mr. Kruger; but he was not permitted to see him, and he returned immediately to the Transvaal." "The Imperial government," says the Cape Town correspondent of the Standard, "intends at an early date to declare a state of peace in South Africa and to issue a proclamation that Boers refusing to lay down their arms will be treated as outlaws."

Toronto, Sept. 16.—The Toronto Evening News publishes an autograph letter received from Col. Stanley, private secretary to Lord Roberts, in reply to a request from that paper asking the field marshal if he would send a message to the Canadian people as to his appreciation of the services of the Canadian contingents operating under him. The letter is dated Pretoria, August 2, and says, in part: "His lordship directs me to say it would be impossible to speak too highly of the work done by the various Canadian contingents. They have had hard work and have suffered many privations, all of which have been gone through with extraordinary cheerfulness, and it has been both a pleasure and an honor to him to have such troops under his command. A fact he thinks the empire will not forget is that the determined advance of the Canadians on the morning of February 27, contributed in no small measure towards forcing the surrender of Cronje."

Ottawa, Sept. 15.—(Special)—In a telegram received at the Militia department yesterday from Cape Town, it was incidentally mentioned that General Baden-Powell, in a lecture given in Cape Town on the war, took occasion, in some remarks he made, to speak in admiration of the good work done by the Canadian Artillery.

London, Sept. 16.—Mrs. Kruger, according to a despatch to the Daily Express, has arrived in Lourenzo Marquez.

The Hague, Sept. 16.—The government of the Netherlands has telegraphed to Lourenzo Marquez offering a Dutch warship to bring Mr. Kruger to Holland.

Lisbon, Sept. 15.—The Portuguese government has telegraphed to the governor of Mozambique authorizing the departure of Mr. Kruger for Europe. The governor, however, must satisfy himself that Mr. Kruger is really going to Europe. Meanwhile he is instructed to take all precautions to safeguard the personal security of Mr. Kruger.

London, Sept. 16.—A special despatch from Naples says an agent of the Transvaal states that the object of Mr. Kruger's visit to Europe is to negotiate a settlement with Great Britain and that he has full power to act to that end.

Lisbon, Sept. 16.—The newspapers here say that Mr. Kruger will take the German steamer Herzog at Lourenzo Marquez, his destination being Holland by way of Marseilles.

Obesity in Policemen.

(Philadelphia Record.)

"Have you ever noticed that nearly all policemen get fat?" asked a man who keeps his eyes opened. "This would seem to disprove the theory that walking in the open air is a means of reducing superfluous weight. I have known new policemen to start on their beats weighing no more than a hundred and twenty-five pounds. In six months they would tip the scales at a hundred and fifty, and in a year reach the two-hundred mark. It must be the slow sauntering in the open air that does it, for I have noticed while policemen grow fat, the house sergeants who are confined to the station are invariably thin. Those who patrol the streets gain the maximum weight in about three years. The muscles then harden, and despite their apparent burden of flesh, the men usually develop great activity. One of the best runners and jumpers I know is a policeman who weighs nearly three hundred pounds."

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample, its agreeable taste will surprise you. SCOTT & BOWNE, Chemists Toronto, Soc. and \$1.00; all druggists.
