THAT the insuring public recognize that "The Temperance and General" is the best company for the best risks—is evidenced by the fact that, in the Maritime Provinces in 1899, more insurance was placed with the "T. and G." than any other company.

THE game of hockey to be played in the Victoria Ice Rink next Thursday night between the Utopias and Wellingtons is already causing a good deal of excitement among the admirers of a swift game. Those who are competent of judging say that it is going to be a very hot game.

SAYS a Philadelphia paper:—The club house of the Saint David's Golf Club will shortly be enriched by the addition of a large photograph of Dr. G. L. S. Jameson, the president of the club. The picture was presented by several of the members and is a gratifying tribute to Dr. Jameson. The Saint David's Golf Club is one of the most progressive and enterprising club along the main line and it has promise of a great future. Dr. Jameson is a Richmond boy, and is well known in the county.

THE LONDON TIMES SAYS:—Miss Mary Cholmondeley's novels have the rare quality—rare nowadays—of being thoroughly interesting. "The one and only demand poor wearied humanity has ever made or ever will make of the story-teller" is as Mr. Birrell says in one of his delightful essays, "to be made self forgetful for a season". Most people would admit at once that Red Pottage fulfils this requirement. All through one is anxious to know what will happen next. This is what makes Miss Cholmondeley's novels popular with all kinds of novel-readers. We all like a good story and "Red Pottage," which is by this time in its third edition is certainly that. It is so good as almost to persuade one to say it is more than that. The characters are sketched effectively, their conversation is witty and yet natural and tone of their words is skilfully suggested. This novel is for sale by W. H. Everett, Woodstock.

It is supposed that George Glew who went with the quota to Halifax, has secured a position as orderly to Lieut. Good.

By some mistake the good work of the Woodstock band was not mentioned in last week's DISPATCH. Just the same they did honour to the town, and the band played the "Soldiers of the Queen" all right.

TOMORROW evening at the roller rink, the patrons of that popular resort will witness two or three races—two of one mile each between the fastest skaters who frequent the rink, and one half mile between the midgets. No extra admission will be charged and, as the band will be in attendance, a full house is bespoken the lessees.

THE executive committee of the send off thank all who assisted them in making the affair a success. It was only by the hearty good will and co-operation of every one that the affair was such a credit to the place. The ladies sincerely out did themselves in their work in the good cause. However it was only the duty of everyone.

TITUS GRANT, the man who lost his legs by being run over by a B. & A. engine last fall, has enjoyed a sensation not uncommon in the annals of surgery. After the legs were amputated they were given a burial not very far under the ground. After a time Mr. Grant began to feel a sensation akin to that of cold feet. As the weather grew colder he began to suffer more. The sensation of cold finally became unendurable. It was finally decided to dig up the feet and legs and give them a more careful burial. They were accordingly taken to the cemetery where they were consigned to a depth of about six feet. The unfortunate man now rests free from cold and pain serenely enjoying his "T. D." happy in his anticipation of the artificial limbs which are to be procured for him.—Houlton Times.

Why is a newspaper like an army?
Because it has leaders, columns and reviews.
Why is a manuscript called M.S.?
Because that is the state in which editors most frequently find it.—Witness.
