Perished in Burning House

EDMUNDSTON, N. B., April 22.—A sad and fatal accident occurred here this afternoon by which William Doustou lost his three-year old son and his dwelling house. Doustou lived in a small house on the east side of the Madawaska river here, near the Temiscouata railway bridge, and at half-past two this afternoon the house was seen to be on fire. When noticed the fire had gained such headway that nothing could be done towards saving the building. The child was upstairs alone at the time, and although every possible effort was made by those who first arrived to save him, the boy, who was about three years old, perished in the flames. Mrs. Doustou was in the lower part of the house, but did not notice the fire until too late to save even the child. The remains of the boy were found in the ruins badly charred and burned, except his face and the upper part of the trunk, which were little marked. It is believed that the fire was started by the child in some way. There was no insurance.—Globe.

What we make We Guarantee!

Britain's motto is:

What we have we'll hold!

It is likewise the sentiment of those who patronize our establishment. Many have endeavored to imitate Custom Tailoring, and have filled the market with their goods, but have met the fate of the Boers—A seeming success for a time, then a struggle, and finally are forced to recognize the Superiority of Custom-Made Clothing. It should not require much argument

to convince a man that a garment made from His Measure, taken by an Experienced Tailor, and fitted on in the course of making should fit better and be more stylish than one taken from a pile made 6 to 36 months ago! To say nothing of the Superior Workmanship and goods used. We are showing an Excellent Stock of The Newest Shades and Textures, which we make up in Our Usual Good Style. Radical changes in styles this summer
