A Frederictonian's Experience.

Among the New Brunswickers at the front is Col. W. Allen, grandson of the late Chief Justice. He is with the Toronto corps, and there writes a private letter of his experience at Paardeberg. "On Monday at twelve we went into the trenches before the laager this was another new experience for us having to go about a half a mile to the end of the trench with our heads nearly touching our knees. We were under fire all from their snipers, and we improved our time by broadening and deepening our trenches. That night was the night attack. Our orders were to advance about six hundred yards if we came upon no trenches. The front rank was to cover the rear rank, who were to entrench themselves, and they carried a shovel or pick. We formed up out side the trenches at 3 o'clock. The Gordens were left in the trenches. The regiment advanced slowly, but there was of necessity a good deal of noise. After going about 200 yards some of the men stumbled over some tin biscuit boxes which were set as a mark. The Boers at once opened fire on us at about 50 yards from the trenches. Every flash looked as if it was pointed directly at me. We dropped like one man but as we had strict orders not to fire no reply was made. The order came to retire and for a few minutes we were a regiment of sprinters, and I'll bet all previous records were broken. I sailed off at my very best pace for the trenches and fell into them landing on top of a sleepy Gordon who at once proceeded to bayonet me. I explained hurriedly who I was, and got nothing more than a "gouge" on the back of the hand and side of the leg. My leg did not trouble me and I have the use of my hand again. Next day they surrendered, and General Roberts, in person, thanked us for the part we had taken in it."

A BOON TO HORSEMEN.

English Spavin Liniment removes all hard, or soft or calloused Lumps and Blemishes from horses, Blood spavin, Crabs, Splints, Ring Bone, Sweeney, Stiffes, Sprains, Sore and Swollen Throat, Coughs, etc. The use of one bottle may make you \$50. Warranted the most wonderful Blemish Cure ever known.

Warning to Company Directors.

English papers report that in a recent action of Forster vs Globe Venture Syndicate (Ld) the plaintiff asked a rescission of a contract to take 2000 shares in the defendant company, and claiming damages both against the company and the chairman Sir E. Thornton, ex minister at St. Petersburg, on the ground of misrepresentation in the prospectus, and a non disclosure of material facts. Counsel for Sir E. Thornton said in the third day of trial, that after the evidence which had been given he did not think that he could resist payment against his client of £2000, with interest at 4%. Council on behalf of the plaintiff defendant company also submitted to judgment. His Lordship, Mr. Justice Farwell said it was painful to see a man of the standing, position and career of Sir E. Thornton in the witness box in a case like that. He had no doubt that Sir Edward believed the statements in the prospectus to be true, but if the case had been fought out his Lordship did not think he could have been able to hold that he had reasonable ground for so believing.

IN NEWFOUNDLAND

Great Work on the Island Inaugurated by Dodd's Kidney Pills.

Kidney Disease being Driven from Newfoundland—A more Wonderful Medicine never known here—John Brooks, of Lushes Bight, Cured.

St. JOHN'S N.F.L.D., May 14.—From all parts of the island comes word of the work being done by the great remedy, Dodd's Kidney Pills. Kidney diseases have always been considered the most dangerous ailment to which the people of Newfoundland were subject. No satisfactory or certain treatment had ever been known here, and Dodd's Kidney Pills have proved a blessing of which the whole country is fast availing itself.

The large number of diseases which Dodd's Kidney Pills are known to cure is to be explained only in one way. Bright's Disease and Diabetes are local maladies of the kidneys themselves. Rheumatism, Heart Disease, Dropsy, Sciatic, Lumbago, Neuralgia, Bladder and Urinary Troubles, Women's Weakness and Blood Diseases are all caused by the bad action of the kidneys—a fault Dodd's Kidney Pills promptly correct.

John Brooks, of Lushes Bight, Little Bay Island, writes as follows:—

"I have been a sufferer this ten or twelve years. I have used lots of different medicines such as used for pain in the stomach, pain in the back, pain in the side, but all to no effect. I do not know what was the matter. There was no doctor here to tell any one. I got an account of Dodd's Kidney Pills from a lady friend of mine and a sample of them and they did me so much good that as soon as I could I bought a box, and before I used one box I was cured, and I can say it was Dodd's Kidney Pills I owe my health to."

Not a Question of Ownership.

President Eliot of Harvard told this story at the Cornell Club dinner the other evening: "A friend of mine, a college professor,

How to Find Out

If Your Kidneys Are Deranged and the System Poisoned by Uric Acid.

It is the peculiar mission of the kidneys to filter the blood, to separate the poisonous impurities from the pure blood, allowing the blood to go on its way, while the poison—uric acid—is sent through the ureters to the bladder and hence out of the body.

The importance of this work is emphasized by the fact that all the most painful and most fatal diseases—such as Bright's disease, diabetes, dropsy, rheumatism and lumbago—arise from kidney disorders and the presence of poisons in the blood.

Three of the most distinct symptoms of kidney disease are: Backache, or lame back; deposits in the urine, seen after it stands for twenty-four hours; and difficulty or too great frequency in urinating.

The remarkable efficiency of Dr. Chase's Kidney-Liver Pills as a prompt cure for kidney ailments is well known. They act naturally, give quick relief and permanently cure backaches, lame backs, and kidney aches and disorders. One pill a dose, 25c. a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Everybody is coughing except those who use Dr. Chase's Syrup of Linseed and Turpentine. 25c. a bottle. 19

went into a crowded restaurant in New York city for luncheon one hot day last summer. The negro in charge of the big corridor where the hat shelves stood was an intelligent looking fellow, and his bow and smile were not of the obsequious, stupid kind so often affected by colored waiters and doormen in hotels. He took my friend's hat and gave no check for it in return. An hour later, when the professor came out of the dining room, the negro glanced at him in a comprehensive way, turned to the shelves and handed him his hat.

"My friend is a man who prides himself on his powers of observation, and the negro's ability to remember to whom each article of clothing belonged struck him as being something very wonderful.

"How did you know this was my hat?" he asked.

"I didn't know it, sah," was the reply.

"Then why did you give it to me?" the professor insisted.

"Because you gave it to me, sah."—Boston Journal.

A CARD.

We, the undersigned, do hereby agree to refund the money on a twenty-five cent bottle of Dr. Wills' English Pills, if, after using three-fourths of contents of bottle, they do not relieve Constipation and Headache. We also warrant that four bottles will permanently cure the most obstinate case of Constipation. Satisfaction or no pay when Wills' English Pills are used.

"It's the devil for any one to tell me a secret, for it is sure to come out in print."—HAZLITT.

This journal is conducting a sort of single-handed fight. It is holding up the town, metaphorically speaking, and I propose to join with the staff. I, hereby, request any citizen, not dyed in blue ruin, to hand in the names of families and individuals moving into town. I know of quite a few families myself, and I know that there are more coming in than I am aware of. Now, our town council, and many of our citizens seem anxious to publish abroad that there is a tremendous exodus from Woodstock. Probably they include in the exodus, the boys who went to South Africa. People are going from, and coming to every healthy place. Such has always been the case in Woodstock and probably will continue to be. I also have a new proposition to make. There is a great time made over every young man who leaves, a collection is taken up, he is tendered a supper, and given a present. Now, why not give a bonus to some of us, who stay. I have nothing but good will to all the boys who have left us during the past six or seven years, but I candidly believe someone should get up a benefit to welcome some of the newcomers. This, by way of digression. What I am in earnest about is getting the names of those who move into Woodstock, so I can give the croakers a set back.

What is true loyalty? It is to stand by your country. It is to believe in her, and to show your belief by helping to build her up. I have known loud professors of loyalty, who would not tolerate any different view of politics from their own, who rush off to the States on the first provocation. And then when they become residents in "Boston," that Mecca of the blue-nose (though why for the life of me I could never see) they continue to prate loyalty. I can quite sympathize with the American distrust and perhaps contempt for such. If I went to the States to live, and brought up a family there, I should feel in duty bound to become a citizen, unless I was determined to get back to Canada in the near future. Nay, it would be better for the Empire if all our men who go there to live would become naturalized. Then, might the same do something to counteract the anti-British sentiment which finds expression on the eve of every election, and which we will presently hear of in a loud voiced welcome to the Boer emissaries. Better still, however, if our young people would remain in this country. There is room and a living for everybody, and he is, in my opinion a poor Britisher, who goes in ecstasies over the old flag and God Save the Queen, while he is only waiting the first opportunity to ask Uncle Sam to be good and kind enough to give him work and a daily wage.

The politicians are always after the reporters, and it don't matter whether it be a town, a provincial or a dominion politician. It is the fashion, now, to make a speech for immediate effect on the audience, and next day, when a report appears in the paper, to say that the reporter did not give the facts. It used to be the way to go to some out of the way place, trusting that the reporter would not be there, but the reporter is now everywhere, and the latest dodge is to say he did not give a correct impression. I am reminded of a story of Sir John Macdonald. In his palmy days, he got decidedly over the sea on one occasion, anyway, when he was to make an important speech. He made the speech. A friendly reporter was present and took it down. The next day he went to Sir John and read over his notes. The great man had said many things which, had he confined himself to coffee, he might have left unsaid. "Oo, that won't do," he said. "Now, here is what I did say." And he dictated an entirely new speech to the reporter. "Young man," remarked Sir John most gravely, as he hid him good by, "next time you undertake to report a great statesman, don't get drunk." Never mind, there will be a day of reckoning between the politicians and the reporters, and the latter won't come off second best.

THE IMP.

A Cheap Medicine Chest.

Mrs. D. Williams, Gooderham P. O., Ont., writes: "I have used Hayward's Yellow Oil for Burns, Scalds, Sprains, Bruises, Sore Throat and Pains in the Stomach and Bowels, and it has always given relief. My mother says it is a regular medicine chest in itself."

He Was Thoughtful.

M. M. Clark, Esq., passed a most creditable examination before Justice Wiswell, Saturday. Mr. Clark was admitted to practice in the Courts of Monie. He very thoughtfully treated the other members of the bar to cigars.—Times, Hulton.

Wild with Piles...

A Torturing Disease for which Dr. Chase's Ointment is a Positive Cure.

"I was wild with piles when I began to use Dr. Chase's Ointment. It has completely cured me."

This is the substance of scores and hundreds of letters received at these offices from every nook and corner of Canada.

If you could only look over these letters you would be sure to find the evidence of your friends and neighbors. You could not then be skeptical of the merits of Dr. Chase's Ointment, the only guaranteed cure for piles.

Ask your neighbor about it; ask your druggist or dealer what he knows about Dr. Chase's Ointment. If you prefer, send a two cent stamp to these offices to pay postage on a free sample, which will be sent by return mail if you mention this paper.

Dr. Chase's Ointment has never been known to fail to cure piles. It will not fail in your case. It matters not what kind of piles you have or of how long standing, if you use Dr. Chase's Ointment freely and regularly it will cure you.

For women suffering from itching, Dr. Chase's Ointment is a prompt relief. It also cures pimples, blackheads, eczema, salt rheum and all itching skin diseases. It is of inestimable worth in every case. See a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Baron Almater 32913,

THE fashionably line bred Wilkes-Mambrino Patchen Stallion, Standard Bred, Rule 1, American Trotting Register, Vol. 15, with the Double Wilkes cross, three crosses of Mambrino Patchen and double cross of the great brood mare Alma Mater, with 8 in the 230 list—5 producing sons and 3 producing daughters; being sired by Baron Alexander 2338 (who was destroyed by fire when young) a full brother to Alfonso, with 11 in the 230 list at 9 years of age, son of Baron Wilkes 218, and Alma Mater; dam, RACHEL, dam of Blackbird 2261, at 5 yrs., and a full sister to Raven 219 and Edna Cook 212, by Alcantara 223, son of George Wilkes and Alma Mater; grandam, Rachel B. 223, by Allie West 225—was the champion 5 year old stallion of his time and considered the best son of Almont. BARON ALMATER is a young horse, his oldest colts were only 3 years old last season, and the fastest and last one of his colts trialed a mile in 2:18 and sold for \$1500.00, and another trialed a mile in 2:22 and sold for \$750.00, and a pair of his colts took first prize at Long Island horse show last fall and sold for \$1300.00, for a gentleman's double hitch.—BARON ALMATER has got no record for the reason he never started in a race or started for record, but has gone a mile in his work in 2:23 as a 4-year old. But he is going to be limited to 40 mares this season and started in the fall for a record. BARON ALMATER has got the double cross of the blood that produced the two champion pacers of 1899, Searchlight 2031, and Lady of the Manor 2044, have the Alcyon-Alcantara cross, which Baron Almater gets direct from his dam; so has Coney 2071, the fastest and most successful of the green pacers out last season, having won 5 races. A combination of blood which in one sea on has two champions and carries three green pacers and a green trotter below the 2:10 limit is worth having, and you can get this winning combination from Baron Almater.

BARON ALMATER is a horse of rich breeding, for he has the golden double cross of Wilkes from two of the best sons of that great mare and of extreme speed. Baron Wilkes is admittedly the most popular stallion of the day, and well he may be—for look at the race horses he sires, and the speed that is coming from his sons and daughters. Popular as Baron Wilkes is—Alcantara being an older horse, has a much larger list of winners, and more speed producing sons and daughters. These stallions tie for honors, as the champion sires of 2:12 performers, both having the same number; but Alcantara leads all stallions as the sire of 2:15 race horses. Baron Wilkes is the paternal, and Alcantara the maternal grandsire of Baron Almater; and Baron Almater's sire is from the dam of Alcantara. There can be no stronger combination of blood lines than these.

It is well known that the great "nick" for the Mambrino Patchen mares was George Wilkes.—These mares have more speed producing stallions than any other stallions than by Wilkes. But the sons of George Wilkes from Mambrino Patchen mares have sired more 2:15 speed than the others have in 2:30. The Wilkes-Mambrino Patchen union is more fruitful of 2:10 speed than all other lines of blood combined. George Wilkes has 176 descendants in 2:10 and Mambrino Patchen 145. Baron Almater has the three best lines from Mambrino Patchen, including a double cross of Alma Mater, his most successful daughter, and one of the most famous of speed perpetuators.

This magnificent inheritance is further strengthened by the blood of Allie West, through his performing and great speed producing daughter, Rachel B. 223 the grandam of Baron Almater, Allie West 225 was the champion 5 years old stallion of his time and considered the best son of Almont, but died in his sixth year. The few foals he left were highly prized,—and their speed producing descendants a valuable more and more—especially by Kentucky breeders. Baron Almater has the best line from Allie West 225.

Back of all this Baron Almater has a cross to William's Mambrino, who sired the dam of that sterling race horse, and sire of game trotters, Santa Claus 2171; Ericsson, sire of William's Mambrino, was the champion 4 year old trotter of 1890 and sired the dam of Moquette 210 champion 4 years trotter of 1892.

Alcantara it will be remembered was the fastest 4 year old of 1890; and George Wilkes the champion trotting stallion from 1868 to 1871.

BARON ALMATER'S inheritance is rich as the richest and strong as the strongest both in performing and producing blood. For further details call and get tabulated pedigree and the speed table in circular.

This horse is Wilkes on both sides.

This fashionably bred Stallion will make the season of 1900 at owner's Livery Stable Woodstock, N. B. Service Fee, \$20.00.

H. E. & J. W. GALLAGHER, Owners.
