Without doubt the finest display of

# CARRIAGES

Ever seen in Carleton County, are exhibited in the Chestnut and Hipwell warerooms, Woodstock. The designs comprise:

**Axtell Road Carriage. Business, Handy, Bluenose, Concords, Top Cornings and Stanhope.**

All the latest, neatest patterns that are on the American market. These Carriages were consigned to the Henderson & Gallagher Bros. from the Nova Scotia Carriage Co and every carriage is guaranteed. They will be sold at very small margin to clear. An inspection of these goods will convince you that they cannot be excelled.

**HENDERSON & GALLAGHER BROS.**

**What we make We Guarantee!**  
Britain's motto is:

**What we have we'll hold!**

It is likewise the sentiment of those who patronize our establishment. Many have endeavored to imitate Custom Tailoring, and have filled the market with their goods, but have met the fate of the Boers— A seeming success for a time, then a struggle, and finally are forced to recognize the Superiority of Custom-Made Clothing. It should not require much argument

to convince a man that a garment made from His Measure, taken by an Experienced Tailor, and fitted on in the course of making should fit better and be more stylish than one taken from a pile made 6 to 36 months ago! To say nothing of the Superior Workmanship and goods used. We are showing an Excellent Stock of The Newest Shades and Textures, which we make up in Our Usual Good Style. Radical changes in styles this summer

### The Jack Tars and the Little Cyclist.

A curious instance of the British blue-jacket's generosity and his love of children is just reported at Portsmouth from the China Station. An able seaman, one of the crew of H. M. S. Barfleur, received a newspaper containing the report of a police case at Blackburn in which an eight-year-old girl, named Jenny Field, was fined 10s. for riding a toy tricycle on the footpath. Jack and his messmates were very indignant at what they deemed the harsh action of the magistrates. They opened a subscription for the child among themselves to pay the fine. The contributions were fixed at the lowest amount possible, but the receipts were so numerous that 30s. was raised. This amount was forwarded, in a sympathetic letter to the parents. They were delighted at the spirit of the thing, and gave 10s. out of the gift to the local orphanage, and 20s. to the war funds. In replying to the tars, they sent a portrait of the little girl, which now adorns the Barfleur's lower deck.

#### ORTONVILLE.

This same old story that we have had to tell for the last eight months—it is still very cold, sometimes almost unbearable, but we expect to have a few warm days in July or August. However the ground is thawed and the farmers are ploughing and harrowing their land so as to be ready to sow the seed as soon as it gets warm enough.  
There has been a lot of sickness in this section this season, but we are expecting health and prosperity to return with the warm weather.  
The Stevens Lumber Co. have been loading cars of lumber for the St. John market, and now have their old stock entirely disposed of and are beginning to haul the new. They expect to do a bustling business in lumber this season.  
A. P. Connolly of Woodstock drove through here on Thursday on his way to Grand Falls and he had quite an experience in getting over the river. The water was rising fast and the lumber was running thick in the river, and just as the boat was about midway of the river the lumber running against the boat became entangled with the ropes and the strong current together with the force of the waves was more than the wire could stand and came down with a crash, and just as the boat was about to be drawn under by the strong current the ropes were cut and the boat drifted down river, and they succeeded in landing her at the mouth of the Salmon river where with the help of half a dozen men who were rafting they got the boat through the shore alders (the water being over the flat) and to dry land where the horse could be gotten off, no one being the worse for their experience save the ferryman whose wire now lies at the bottom of the river.

#### Minstrels Coming

Billy Van's minstrels, presenting many new novels and pleasing minstrelsy acts, will hold the boards at The Opera House three nights of this week. This company has been playing over the New England circuit with what is described as financial and artistic results and will no doubt do a good business here. A street parade will be given daily in which "the champion drum-major of the world" will participate. The program given by the organization is continuous; the vaudeville parts are in good hands and the concert orchestra is said to be of a superior nature. Among the artists announced as coming here are such people as Mackay and Gaffey, Chas. Clark, Roberts and Mack, Eddie Horan, Tom Lewis, Frenchville, Billie Lyons, Albert the boneless wonder, and others. The prices for the engagement will be on the same generous scale as the Norombega's attractions always are.

To every person buying a reserved seats one of "Van's Hindoo magic good-Luck boxes" will be given. Readers of the Boston papers will remember the sensation created by these little boxes a few weeks ago. Whether obtained for curiosity or as an omen of good fortune they are certainly interesting, as many people throughout New England have paid, it is said, as high as \$1 for them.
