APPROACHES TO TOWN.

The Board of Trade has suggested and accomplished many good things for Woodstock but there are many things yet to which it might turn its attention for the benefit of

The Board might properly devote its energies to improving the present avenues of approach to the town and to opening up new

us from Hartland, Waterville, Temperance Vale and Millville in York County. The people from these places now have to get to town by a round about way, coming in by the Lower Newburg road. Their way could be materially shortened if a road were made from Grafton, up the gulch near Chesley Estey's place, through to Round Pond, then to the South Branch of Gibson Creek, on to Hartfield, Temperance Vale and Millville.

The present road to Temperance Vale is seventeen miles, a new road up the gulch would be only twelve miles. Such a road would shorten the distance to Millville over six miles. The road would not be hard to build; the grades are much easier than are usually found in travelling from the river back on the watershed; and it would be not only shorter but easier to travel than the road by which these people now get to

Not only would such a new road bring us more trade from this large and well settled country but it would open up a block of Government land on the rear of the river lots about four miles from the river.

If the Board of Trade would agitate the construction of such a new road it would without doubt be able to get it built, and would thereby confer a lasting benefit not only on the town of Woodstock but on the inhabitants of a large and valuable tract of farming country.

Leon F. Czolgoz, alias Fred Nieman was on Tuesday of last week found guilty of having on September 6th shot and killed President McKinley. The verdict was murder in the first degree. On Thursday he was sentenced to be electrocuted during the week beginning October 28th.

The first heat in the race between the Shamrock and the Columbia for the America's cup was raced on Saturday and resulted in a narrow victory for the Columbia by 39 seconds. As the Columbia has a handicap of 43 seconds the official record gives her the victory by 1 minute and 22 seconds.

On Wednesday, Sept. 25th the home of Mr. and Mrs. G. W. Lawson, St. Almo, was the scene of a very beautiful ceremony, when Arthur J. Reformed Baptist Quarterly Meeting.

The twenty-first session of the above named Quarterly Meeting of District No. 1. was held with the church at Middle Southampton, York Co., beginning with Thursday evening the 26th inst. and closing Sunday evening the 29th. Nearly all of the twenty churches embraced in the district were represented by delegates or letter or both. The weather was delightful and there was a good attendance and the services were very helpful. All the services, of which there were three daily, were religious except Saturday afternoon when the business session took place. The reports from the churches were very encouraging as there was a tone of advancement manifest; and in one a gracious revival was going on. There were twenty-five delegates present and A considerable amount of trade comes to seven ministers. The Sabbath services embraced, a love feast in the early morning led by Rev. J. Gravinor, preaching at 10.30 by Rev. W. B. Wiggins, of Woodstock, Sabbath school at 2 p. m. addressed by S. Hayden Shaw, of Hartland, preaching at 3 by Rev. G. W. Macdonald of Hartland. At 7 in the evening Evangelist G. B. Macdonald preached. All these services were well attended, and in the afternoon the capacity of the church was not sufficient to hold the large congregation that assembled. The spiritual interest was brought me a box of Dr. Williams' Pink Pills excellent all day and much good must re-

Willing to Oblige.

An Englishman at a dinner once told a tale of a tiger he had shot which measured twenty-four feet from snout to tail-tip. Everyone was astonished, but no one ventured to insinuate a doubt of the truth of the

Presently a Scotchman told his tale. He had once caught a fish which he said he was unable to pull in alone, managing only to land it at last with the aid of six friends. "It was a skate, and it covered two acres."

Silence followed this recital, during which the offer.ded Englishman left the table. The host followed. After returning, he said to the Scotchman: "Sir, you have insulted my friend. You must apologize."

"I dinna insoolt him," said the Scot.

"Yes, you did, with your two acre fish stery. You must apologize."

"Well," said the offender, slowly, with the air of one making a great concession, "tell him if he will take ten feet off that tiger I will see what I can do with the fish.

Her Stipulation.

That there are still people unfamiliar with the telephone is proved by the recent experi-

The old lady gave her consent, but made a firm stipulation at the same time.

"I'm willing you should run wires over my roof and hitch 'em wherever you see fit," she said, pleasantly, "provided you don't use 'em after nine o'clock at night. That's my bedtime, and I'm a light sleeper at best, and the noise of folks talking overhead would be sure to keep me awake."

RHEUMATIC PAINS.

CAUSED BY AN IMPURE CONDITION OF THE BLOOD.

If Neglected They will Grow Worse and Serious Results will Follow-Rheumatism Can be Permanently Cured.

From the Telegraph, Quebec. Rheumatism is one of the most common and at the same time one of the most painful affections from which humanity suffers. It affects the joints and muscles, and is characterized, even in its simplest form, by a dull constant pain. While it remains in the joints and muscles, it is sufficently painful and distressing, but as it is liable to attack the vital organs, such as the heart, the disease becomes o source of danger, and in many instances it has proved fatal. Dr. Williams' Pink Pills possess qualities for the cure of this disease which are unequalled by any other medicine. Mr. Cyrus Lamond, a well known resident of Stadacona, Que., bears testimony to the wonderful curative powers of these pills. To a reporter of the Telegraph, he gave the following story:-Until some three years ago I always enboyed the best of health, but about that time I was attacked with what proved from the outset to be a severe case of rheumatism, from which I suffered great torture. I tried a number of the supposed cures for this disease, but none of them benefited me. I seemed to be constantly growing worse, so I called in a physician, but as his treatment did not give me relief' I sought the assistance of two other doctors, but they also failed to help me. My appetite left me; my strength gradually ebbed away; one of my legs was drawn out of shape, and I was never free from pain. I was in despair of ever being well again, when one day a relative and urged me to take them. He seemed to have such great confidence in the pills that I determined to follow his advice. To-day I am happy that I did so, for with the use of less than a dozen boxes of these pills the pain from which I suffered so much is all gone, and I feel stronger and healthier than I did before. This I owe to Dr. Williams' Pink Pills, and I would strongly urge similar sufferers to give them a trial.

Experience has proved Dr. Williams' Pink Pills to be without an equal as a blood builder and nerve restorer. It is this power of acting directly on the blood and nerves that enables these pills to cure such diseases as rheumatism, sciatica, neuralgia, locomotr ataxia, paralysis, and all the ordinary diseases of the blood rnd nerves. These pills are sold by all dealers in medicine, or can be had by mail, postyaid, at 50c, a box, or six boxes for \$2.50, by addressing the Dr. Willaims Medicine Co., Brockville, Ont.
