

THE DISPATCH.

VOL. 8. NO. 3.

WOODSTOCK, N. B., JUNE 19, 1901.

PRICE TWO CENTS

In Blue

BLUE SERGE season now in full blast. We have many different kinds of this popular hot weather cloth to show you when you come in—all good ones—Blue Serge must be good. There is just a suspicion of the military about the cut of Coats this season, only seen however in tailoring clothes, a forerunner of tall styles, which will be more pronounced. Coats are cut either single or double breasted, with a slight fullness at hips. Striped Worsted Trousers instead of Serge if you prefer. Will send you samples and measuring blanks if you write.

Serge Suiting to Measure, - - \$15
Striped Worsted Trousers to Measure, \$4

Northampton, Carleton County.
May 29th, 41.

TO BUILDERS.

Sealed Tenders marked "Tender for Dwelling House" will be received by the undersigned up to six o'clock p. m. of Saturday June 22nd inst., for the erection and full completion of a Dwelling House near the Pumping Station in the Town of Woodstock, in accordance with Plans and Specifications to be seen at the Office of the Superintendent of Water Works. The right is reserved to reject the lowest or any tender.
Dated Woodstock, N. B. June 10th 1901.
DONALD MUNROE, Supt. W. W.

The Falls at Pokiok.

Among the attractive places to which people from Woodstock go to picnic is the village of Pokiok, situated at the mouth of the stream of that name, twenty five miles south of Woodstock on the river St. John. The Pokiok stream rises in Lake George, within two and a half miles of the St. John river, flows north seventeen miles, at no time in its course getting farther away from the river than seven miles, and after a fall of over seventy feet rushes through a deep gorge into the St. John river. The fall and gorge, which attract large numbers of sight seers every year, is one of the grandest sights in New Brunswick. Pokiok is the headquarters of the milling operations of Gilman Bros., a partnership composed of David and Nehemiah Gilman and George Burden. They own over twenty thousand acres of land in the immediate vicinity and hold about ten thousand acres more from the government. Their cut last season was six million feet. They operate here a saw, shingle and lath mill and a sash and door factory. The fall supplies them with power except in the summer when the water is low, and then they harness up a seventy horse power engine to carry on the good work. They have enough lumber at their mill at present to keep them going till August when they will probably shut down until snow comes and they can haul in from the woods. Their sawn lumber they raft to Fredericton where it is loaded on scows and pulled to St. John; from there it goes to the American market. Their saw mill, which has a capacity of seventy to seventy-five thousand feet a day is equipped with a rotary and a gang. Gilman Bros. have now sixty men at work here and they are keeping fourteen horses busy. In the winter they keep about one hundred and fifty men at work and a very large number of horses.

They treat all visitors with very great courtesy and do what they can to assist strangers in seeing the scenery. Only three quarters of a mile below is the village of Hawkshak where the big tannery gives employment to thirty five or forty men all the year round.

A Growing Industry.

It is interesting to note the increase in the output of any of our local industries. In the first ten days in June 1900 the Carleton Creamery Company received 225,955 lbs. of milk from which they made 9714 lbs. of butter. In the first ten days of June this year they received 294,048 lbs. of milk and made 13,352 lbs. of butter, an increase of 68,093 lbs. of milk received and of 3638 lbs. of butter made or an average daily gain of 6809 lbs. of milk and 363 lbs. of butter. The biggest day's business last year was 1710 lbs. of butter one day in July; already that has been beaten this year, one day's output having been 1911 lbs. The farmers sending the largest day's milk supply from each station during the first ten days of June are:

Name	lbs.
Bob. Kearney, Silverdale,.....	4979
W. N. Raymond, Middle Simonds,....	4365
Mrs. Sharp, Pembroke,.....	3903
Charles F. Rogers, Northampton,....	3881
Charles Giberson, Florenceville,....	2827
Fred Marsten, Meductic,.....	3154
J. J. Hale, Woodstock,.....	3113
E. Everett, Jacksontown,.....	2158

There are no returns from Rockland because that station was not running during all the first ten days of June.

Dr. Harry C. Todd Delivers a Scholarly Oration.

Memorial day was observed at Augusta, Me., on May 31st, by decorating the soldiers' graves in the forenoon with appropriate ceremonies and the usual exercises at the city hall in the evening. Owing to the rain and muddy streets the procession did not form and march to the cemetery, as had been planned.

In the evening at 7.30, the members of John B. Hubbard Post, No. 20, with the Relief Corps marched from G. A. R. hall to city hall, where the exercises began at 8 o'clock with music by Carey's orchestra. The hall was filled and the programme was unusually interesting.

Dr. Harry C. Todd, of Brunswick, delivered the oration, which was one of the most eloquent and scholarly delivered there for many years.

The feature of the evening was the oration by Dr. Todd. Dr. Todd is no stranger to Hallowell people and the committee on arrangements were well aware what they were doing when they asked him to give the oration, that evening. He is an easy, graceful speaker and his oration, did not follow the lines of the every-day Memorial orator, but it was full of life and he seemed to take the audience with him, and will be remembered for a long time by those who had the privilege of listening to it. The benediction was offered by Rev. C. A. Wight.

COUNTY COUNCIL.

More Outsiders Heard.—The Jail Discussed. The Scott Act Inspector's Report.

The regular June meeting of the Carleton County Council opened at the Court House yesterday at ten o'clock. The warden, all the councillors, the secretary treasurer and five representatives of the press were present.

The warden, addressing the members of the council referred to the death of the late British sovereign and the accession of His Majesty King Edward VII. Since the last meeting of this council a sad event has occurred. After a long and glorious reign Queen Victoria has gone to her rest, venerated by her subjects, lamented by all the different peoples under her sceptre and regretted by the entire civilized world. The admirable manner in which she discharged her public duties and her respect for the constitution and the laws of the realm gained for her the esteem of all within and without the vast Empire over which she ruled and made her the type of the constitutional sovereign. Her reign has been beneficial to the whole of the vast British Empire, but we in Canada have special reason to cherish its beneficial effects, for it was under her reign that we acquired the full measure we now enjoy of constitutional liberty and our autonomy, while at the same time forming a part of the Empire, bearing true allegiance to its sovereign and enjoying the protection of its power. In no part therefore of her broad dominions has her death been more regretted and mourned than in our vast dominion. Her reign will be known as the Victorian age and be ever memorable in history. The Prince of Wales under the title of Edward VII. has succeeded her on the throne and is now our king and he has promised to follow in the footsteps of his revered mother in governing the peoples under his sway.

I know that you will join me in sorrow for the death of our good and great queen and in loyalty to His Gracious Majesty Edward VII. who has sworn to protect and maintain the free constitution under which we live and the constitutional liberty which we enjoy.

J. R. Murphy, C. L. Smith and James Watts were heard on behalf of the committee of the Exhibition to be held in Woodstock this fall. They asked the members of the council to give the exhibition their support, to exhibit their stock and produce and attend the show. Outsiders would be present and as so much was expected from this county we should not disappoint visitors.

On motion of Coun. Gilmore it was resolved that the council express its sympathy with the exhibition.

On motion of Coun. David Phillips the Scott Act Inspector was asked to report, which he did as follows:—
To the Warden and Councillors of the County of Carleton,

Gentlemen,—I, Banfred Colpitts, Scott Act Inspector for the County of Carleton, present my half yearly report. Since last session of the Council I have paid all costs, charges and expenses incurred in enforcing the Act. I have retained my half year's salary, \$150.00, and I have paid into the hands of the Secretary Treasurer the sum of \$240.00. I have received over and above all charges, costs and expenses, the sum of \$176.70.
Respectfully submitted, June 18th, 1901.
B. COLPITTS.

G. Phillips moved, seconded by Coun. Richardson, the report of the committee on care of the poor, which was read at the January session, and the discussion of which was postponed to this session, be adopted.

Coun. Caldwell wanted to know what this resolution pledged the council to.

Coun. Kearney said the report of that committee recommended the poor farm system and he wanted to see the recommendation adopted.

On motion of Coun. Saunders the discussion was postponed till afternoon.

Couns. Saunders, Shaw, and Carvell, were appointed a committee to prepare a resolution expressing the feeling of the council at the announcement made by the warden and Coun. Caldwell that they would not be candidates for re-election to the Council.

Couns. Saunders, Bailey and Carvell, were made a committee to prepare a resolution of condolence with the King on the death of the late Queen.

The same gentlemen were made a committee to prepare a resolution regarding the death of the late lamented Sheriff Balloch.

On motion of Coun. Saunders, the council went into a committee of the whole on the accounts, with Dr. Atkinson in the chair.

Coun. Saunders, on behalf of the Finance Committee, reported that the debentures directed to be sold had been sold to G. H. Stinson of Montreal. They were sold at par, payable in Woodstock, but with a discount of \$50.00, to cover the cost of sending the payments to Montreal.

Coun. Saunders, on behalf of the Jail Committee, said the Committee, as authorized, had advertised for tenders for plans and specifications, and had accepted those furnished by Mr. Mott of St. John. They had then advertised for tenders for construction and these tenders would be opened on June 21st.

THE RAILWAY STRIKE.

The brotherhood of Railway trackmen of the C. P. R., went out on strike Monday morning at six o'clock. It appears that most of the men, numbering about 4000 obeyed the call to strike. It is the duty of these men to patrol the track every day and see that it is in fit condition for the passage of trains. It is rumored that if experienced track men are not provided by the company at once to look after the track, the engineers will refuse to drive their engines over it. The railway authorities and the track men are both reticent and it is almost impossible to learn anything definite about the state of affairs.

THE CABINET MEMBERS

Enjoy Their Trip up the St. John.

The Hon. C. H. LaBillois and the Hon. L. P. Farris were highly pleased with their trip up the St. John river. At Andover, after hearing the report of Mr. Haines on the condition of the old highway bridge it was decided to place bents under all the spans to keep it up and open for traffic until the new steel structure shall be ready for use.

At Edmundston they inspected the roller mill which they found to be one of the finest in the province second only to Senator Pourier's mill. On visiting the superior school there they were presented with an address by the five teachers and one hundred and fifty pupils. They attended a meeting of the Madawaska Agricultural Society and discussed plans for the county exhibition and they visited the race course where the exhibition buildings are to be erected. In the evening they attended a meeting in the Madawaska town hall, where over five hundred people were present including a great many ladies. Here they were presented with a very appreciative address. Speeches were made by Hon. Messrs. Farris and LaBillois in which they touched on the questions of education and agriculture, good roads and other timely questions. The meeting was also addressed by Messrs. W. A. Gagon, M. P. P., and Fred LaForest, M. P. P.

The New Jail.

From looking over the plans of the new jail, it would appear that the new building would be a good looking building and excellently adapted to the purposes for which it is intended. It is to be 40ft. wide and 68ft. long, and the height to the peak of the roof will be 44ft. The front, which is 40ft., faces on Maple Street. A tower adorns the front on the corner next Main Street. There is a good basement with a ceiling 7ft. 8in. high. The height of the ceiling on the first floor, is 12ft. 2in. and that of the second floor is 11ft. The building is to be of pressed brick with freestone trimmings. There will be four entrances, two on the front, one on the east and one on the north side. The first floor contains a reception room, halls, ten cells, and three bath-rooms. In one of these cells the windows open on a hall and not on the outdoor world. One cell on the south west corner has a window opening on the landscape.

The second floor, being the residence of the janitor, contains a parlor, three bedrooms dining room, kitchen, pantry, bathroom, fuel room, store room and closet. The parlor is a pleasant room on the south east corner and includes the tower.

Over the tower entrance, the words "Erected 1901," and underneath, the word "Jail" are placed in raised letters. To judge from the drawings it will be a building, of which the county need not be ashamed.

Arrested for Stealing.

Deputy Sheriff Foster landed a young man named Elwood Hawkins, last Friday for bicycle stealing. The young man was wanted by the Fredericton police for stealing a wheel at Burr's Corner. Deputy Sheriff Foster got on his track and located him on a tow boat at Bath on his way north. He had sold the wheel to Edward Waugh at Florenceville. Sheriff Foster took him to Fredericton and turned him over to Deputy Sheriff Hawthorne. He was taken before Judge Marsh on Saturday and pleaded guilty. He will receive his sentence today.

Death of Augustus Doherty.

Mr. Augustus Doherty died on Wednesday last, at the residence of his sister, Mrs. William Brown, West Glassville, Carleton Co., after an illness of only five days. He was about sixty years old, and was unmarried. He leaves two brothers and three sisters. The funeral took place on Friday at the Presbyterian church, Glassville, Rev. J. K. Bearisto conducting the services.

People do not lack strength; they lack will.—Victor Hugo.
