ALL must admit that any of our "Old Line Canadian Life Companies are perfectly safe. This being true it remains for us when insuring to select the company that will pay us the largest returns for money invested. Profits of insurance companies are received from three sources—Low death rates, economical management and good investment of its funds. As in all these respects the "Temperance and General" stands unexcelled it is evidently to our advantage to place our insurance with this company.

LAST week THE DISPATCH announced, on the authority of Major Good, commanding officer of the 10th Field Battery, that Lieut. Field's of that corps had received the appointment of A. D. C. to the Duke of Cornwall and York, during his trip through Canada. However, the Battery and the Brighton Engineers are ordered to Halifax, to take part in the reception of the Duke and his party.

THERE have been some stories afloat to the effect that Ansley Alorton and his son were at Victor, Col., last winter when small pox was prevalent there and that they evaded the quarantine regulations, made their escape and came home, bringing the disease with them. Mr. Alorton shows THE DISPATCH letters which prove that he was not at Victor at all, but was at Thomasville over 100 miles away and that there was no small pox nor any other epidemic at Thomasville. Mr. Alorton and his son are indignant at being accused of doing so indecent a thing as deliberately coming home from an infected district. They say that if they did bring the disease home they did it quite innocently for they had no suspicion that they were ever in contact with it.

Those wishing Sit-
tings at Keith's Studio
will find him at home

He will return from
the Boston Exhibition
on above date.
