BAIRDSVILLE, N. B.

A bright life has passed from earth to heaven. Carrie Baird, aged 17 years and 4 days, daughter of Mr. and Mrs. Benj. Baird, died at her home in Bairdsville, on the morning of June 12th after an illness of three months which she bore with patience and thoughtfulness for those who attended her, often inquiring how her mother was and never uttering a discouraging word in her presence. Being young and unusually bright she naturally wanted to live but yet was reconciled that "His will be Done." She had many friends, and to know her was to love and admire her. Her birthday occurred a few days before her death. She asked to have her young friends come and spend the afternoon with her. The wish was gratified, and as they came and presented some pretty gifts she seemed to be filled with pleasure. The funeral services were conducted by Rev. S. B. Hillock and held in St. George's church. The remains were followed to the cemetery by a group of young ladies dressed in white, and a long procession of relatives and friends.

JACKSONVILLE.

Having not seen any items from Jacksonville for some time, we thought a few would not come amiss.

Jacksonville is still prospering in its slow and steady way, "slow and sure," as the saying is, and we trust before long it will rank as a leading village in our county.

W. Simmonson of New York, is spending the summer with his sisters, Mrs. Harens and Mrs. Judkins, of this place. He has also paid visits to his relatives at Houlton and Bridgewater.

Mrs. J. Dystant, daughter of C. W. Plumer, is home from the Island, on a short visit.

Our store is still doing a flourishing business under the management of Mr. Carr, who also has charge of the post-office. Our daily mail is somewhat of an improvement on the former system, for those sending mail as well as those receiving daily papers.

Miss Harding entertained a number of the young folk on Tuesday last. After the playing of numerous games, ice-cream and cake were served, and at a late hour the guests departed, thanking the hostess for the pleasant time afforded them.

Miss Georgie Burpee of Jacksontown, is attending school here, boarding at Mrs. L. Burpee's, who has reopened her house for the summer.

Rev. J. A. Cahill is improving the appearance of the parsonage, by having the old barn torn down and replacing it with a new one.

Our school still continues to be taught by Mr. Gray and Miss Kinney, who we suppose are waiting patiently for the opening of the holidays, when they can lay by their cares for a short time.

A few of the young people met at the residence of Mrs. Sherwood, last Thursday evening, where her son W. Sherwood entertained them with selections from the phonograph.

Spencer Crisp, who has lately purchased a fine driving horse, is occasionally seen speeding it on our roads.

The bicyclists of this place are enjoying the fine weather and roads for wheeling. We are sorry to hear I. G. Ridley met with an accident while riding to town, puncturing his tire besides other damage.

Miss Emily Crisp who has been attending Normal School, has returned home.

Crops were looking fine despite the long dry spell, when a severe frost a week ago Saturday night destroyed all tender stuff such as beans, squash etc., and potatoes got a bad touch, although the loss of the bean crop is a more serious one, seeing that most of the potatoes may recover from the blow. But as many farmers in this section had planted larger pieces of beans in preference to potatoes the loss will be considerable.

NORTHAMPTON.

People in this parish suffered considerably from the frost; large fields of beans and potatoes, especially suffered. One farmer had a bushel and a half's planting of beans totally destroyed.

Road making is all over for this year, in this parish. We are glad to note that the people of the Grafton district, under the careful supervision of William Olmstead, roadmaster, have at last paid some attention to the road in the lower end of their district. The neglect of this piece of road had become proverbial, and Mr. Olmstead is certainly to be congratulated on the work done, and we trust that the benefits already accrued will be materially added to by his efforts another year.

Mrs. G. E. Shea of Cambridge, Mass., is spending a few weeks with her relatives and friends in this parish, and elsewhere.

Chas. W. Connell has completed the bridge over the Phillips brook, on the old road, in a most satisfactory manner, and this highway is again open to the travelling public.

The Methodists are making extensive alterations here in their church. It is being reeroofed and painted, the old vestry is to be moved away, and a slightly porch and tower is being added to the front. The interior is to be newly sheathed and varnished, while the pews are to be lifted and aisles up the sides created. The horse shed is to be moved up river and the vestry is to take its place as a public hall. The work is being done by Messrs. Will Rolston and Samuel Turney. When completed, this little church will compare most favorably with the most of country churches. It has not been quite decided yet whether a bell will be added or not.

Gibson's mill was compelled to shut down for want of water, last week. They have a good deal of sawing to do yet.

Miss Jennie Kennedy the energetic teacher at Wolverton's Bluff, assisted by the young ladies and gentlemen of the district, held a most successful tea meeting in the grove at that place, on Saturday afternoon. The object of the sale was to procure means to buy a flag for the school house and therefore he in line with the schools in other places. The sale was well attended and the tidy sum of \$34.70 was taken in. The various games, common to picnics were resorted to for amusements, and we might add that the "phantasmagoria" of the only true and original Geo. Rutland, at the end of the entertainment, was highly enjoyed by all. The grounds at the bluff are well adapted for picnics, and probably when better known, will be much oftener resorted to.

The tent in which the meetings are being held is pitched in a beautiful spot on the grounds of Herbert Burnett, Esq.

Quite a ripple of excitement was caused here this morning when it became known that Deputy Sheriff Hawthorne, of Fredericton, had served three summons on the post master of the place for violations of the Canada Temperance Act. A large number of witnesses have been served with subpoenas and are expected to give evidence on the day of trial. The outcome is awaited with interest.

PLASTER ROCK.

The place where mosquitoes are made, where the Tobique Valley Railway terminates, where the Tobique Manufacturing Company has its establishments, is Plaster Rock. The Company has a mill here 200 feet long and sixty feet wide, containing 12 shingle machines, a lath machine, a rotary plant turning out 35,000 per day, and a planer.

The rotary side of the mill came to grief on Saturday. A head block left out came in contact with the saw, and in a good deal less time than it takes to write this, \$200.00 damage was done. But very fortunately no one was injured, though the sawyer, Chip. Giberson had a very narrow escape.
