CHARLES APPLEBY, Editor and Proprietor.

WOODSTOCK, SEPT. 25, 1901.

A NECESSARY PRECAUTION.

The bed of the St. John river lying between Bull's Island and Wellington Ward is gradually filling up. In dry weather the waters of the Meduxnakeag can't find a passage out by that channel, but take their sluggish way up around the point of the island.

The outlet of our sewer system on the north side of the creek is just below the river bridge, and when the water is low there is not current enough to carry the sewage away properly, and it lies there to taint the air we breathe with its impurities. This state of things will become worse year by year as the bed of the river at this point fills up. When the sewage is carried up stream on the current of the water from the creek it does not turn the point of the island sharply, but is caught in the back tow of the river and works its way up toward the pumping station until it strikes the main current of the river. In order to prevent this sewage from following the water we drink and the air we breathe it is clearly advisable that the main current of the river be diverted from this present course and brought around on this side of the island. This could be done by a sheer dam running from a point a short distance below the Grafton mill, down toward the bar on the point of the island.

The local authorities should not delay the consideration of necessary move too long.

Feeding Milk to Calves.

Some interesting experiments have been made by the Kan exper sta in feeding milk to calves. Twenty head of Shorthorn and Hereford calves were bought in the spring of 1900 and divided into two lots. One lot was fed on sterilized creamery skimmilk with a grain ration composed of equal parts of corn and Kafir corn meal, with all the alfalfa hay they would eat. The second lot was fed the same as the first, except that fresh whole milk was used instead of skimmilk. In addition to these two lots the station secured the privilege of weighing 12 head of high-grade Hereford calves which was running with their dams in a pasture near the station.

For the 22 weeks under experiment' the 10 calves consumed 24,736 lbs skimmilk, 1430 lbs corn chop, 1430 lbs Kafir corn meal and 641 lbs alfalfa hay. The total grain was 2331 lbs, or a daily average of 1.51 lbs per head. Sterilized skimmilk at 15c. p 100, grain at 50c p 100 lbs and hay at 24 per ton, the total feed cost of raising these calves was 52.68, or 5.27 per head. The feed cost for each 100 lbs of grain was 2.26. Cows that are milked will produce larger yields than when suckling calves. According to the average yield at the station, 10 cows (one for each calf) produced 55,540 lbs of milk testing 3.93% butter fat. With butter fat at 15c p lb, this would amount to 338.52. The value of the skimmilk not needed by the calves would raise this to 374.24. Deduct from this the value of the feed consumed by the calves and there remains 321.56, or 32.15 per calf to pay for the expense of milking, feeding the calves, and hauling the milk to the creamery. At 12c p hour this expense may not be one-half of the above sum, leaving from 15 to 16 clear profit for each calf raised on skimmilk.

During 22 weeks these 10 calves consumed 23,287 lbs fresh milk, 835 lbs corn chop, 835 lbs Kafir corn meal and 835 lbs alfalfa hay. The total grain was 2878 lbs, or a daily average of 1.95 lbs per head. Charging butter fat at creamery prices, the feed cost of raising these calves amount to \$157.19, or 15.75 per head. The feed cost for each 100 lbs of grain amounts to 5.46.

On May 28, 1900, 22 calves that were running with their dams averaged 174 lbs. On Oct. 15, these same calves averaged 422 lbs, or an average daily gain per head of 1.77 lbs. The only expense attached to raising these calves was the keep of the cows, which was estimated by the owner to be \$12 p head. Multiplying the average daily gain of these calves by 154, the number of days in previous experiment, gives a total gain of 272 lbs p head. With 12 as the cost of raising the calf, each 100 lbs of gain cost 4.41.

In the fall all these calves were placed in the feed lot, where they were pushed for baby beef. During the 7 mos under experiment, the skimmilk calves gained 440 lbs p head, the whole milk calves 405 lbs p head, and the calves nursed by the cows 422 lbs p head. This experiment shows that the feed cost of raising a good skimmilk calf need not exceed \$5.25 in contrast to 15.75 for a whole milk calf, and 8 for one nursed by the dam. The skimmilk calf becomes accustomed to eating both grain and roughness early in life, is handled enough to be gentle, and when transferred to the feed lot is ready to make rapid and economical gains.—[Prof D. H. Otis.

What Is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

THE INSURANCE AGENTS' HOLIDAY.

descent to the path from where I lay was so steep as to be nearly impracticable. It would take ten minutes at least to reach the scene of action, and the slightest stumble would send me headlong on to the narrow path, and thence into the sea.

And even if I reached the path in safety, and in time, it was not likely that Querle had come on such an errand unarmed, and there would certainly be two victims instead of one.

All this passed through my brain in a flash, and I decided against the fearful odds of a climb down the steep. Querle was silently crawling closer for the spring upon his heedless prey; two seconds would suffice for his purpose. I thrust my head farther over the brink and called out:—

"Mr. Tennant, you seem to be in difficulties. Can I be of any use? I remember your coming to my office last year with Mr. Simon Quarle."

They looked up simultaneously, but it was Querle who caught my eye, as I intended it should be. My bold ruse had this drawback, that he might think I had not recognised him under disguise and still hurl Tennant over the precipice. It was a terrible moment as his cruel eyes gazed up into mine, but the crisis passed. I saw by the contraction of his lips that he knew I had guessed his purpose.

"Thanks, awfully, but my wife has gone for assistance," Tennant called back. "This chap's ill, and—hallo! he's off, by Jove!"

For Querle had risen to his feet and was making good speed along the perilous track away from the man whom he had meant to kill—doubtless to some nook in the lonely headland where he had left his change of garments.

That night I joined the Tennants at dinner, and Lady Grace, after hearing my story, was very kind to me. Querle, we ascertained, had left the place by the afternoon train, and he returned the policy the next day to Percy Tennant's London address.

The only actors in this little drama who are not quite sure of the part they played are the coastguards, who to this day cannot understand why they were summoned to the assistance of one of their messmates when all the men on the station were accounted for as fit and well. The worthy fellows put it down to the vagaries of tourists, but we, who know better, rejoice in Simon Quarle's recent committal to penal servitude for another crime.

ALMOST MIRACULOUS CURE OF MR.

THOS. WARREN,

BY

Paine's Celery Compound

A POPULAR DRUGGIST INDORSSES THE LETTER.

The Wells & Richardson Co., Limited.

Dear Sirs,—Ten years ago I was laid up with a bad cold contracted at the time of the big flood here. The cold developed into inflammatory rheumatism, and I was laid aside for nearly six months. I recovered, and was able to work for a time, when I was again seized with the terrible disease. I kept getting worse, and suffered the most intense agony. My elbows were partially drawn out of place, and my knees were swollen to nearly double their natural size.

Words fail to express what I suffered, and for days at a time I could not get out of bed nor move myself. During all this time I was under the care and treatment of one of our best physicians, but he did not seem to be able to relieve me, and I kept getting worse.

Believing that the doctor's medicine was not producing any good, I decided to give it up and allow the disease to take its course. I grew weaker and weaker every day from the pain, and felt that there was little hope for me.

Having read about Paine's Celery Compound I decided to give it a trial. After the second week I began to improve, and on the 20th May I was able to resume work. I have been working every day since, and am quite well at the present time. I continued the medicine until the middle of August, when I had used in all six bottles. Its effect was magical and permanent, and I consider it a wonderful medicine. I would advise any person who is afflicted with rheumatism to give Paine's Celery Compound a trial.

Yours respectfully,

THOS. WARREN,

Cornwall, Ont.
This is to certify that I have known Mr. Thos. Warren for about thirteen years, and that he has been a great sufferer from rheumatism. In fact on two occasions, when suffering intensely from pain and being so reduced in strength, it hardly seemed possible that he could recover. It is true he began to recover with the first bottle of Paine's Celery Compound, and continued until he seemed perfectly well.

E. H. BROWN, Druggist.

To Lucasta, on Going to the Wars.

Tell me not, Sweet, I am unkind,
That from the nursery
Of thy chaste breast and quiet mind
To war and arms I fly.

True, a new mistress now I chase,
The first foe in the field;
And with a stronger faith embrace
A sword, a horse, a shield.

Yet this inconstancy is such
As you, too, shall adore;
I could not love thee, Dear, so much,
Loved I not Honor more.

—RICHARD LOVELACE.

Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto, Dr. Chase's Ointment

Pimples and Blisters.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, color becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Sold by Garden Bros.

The New Reporter Again.—"Always," said the astute city editor to the new reporter—"always be on the lookout for any little touch of humor that may brighten up our columns." That evening the new reporter turned in a story about a burglary in a butcher's shop, which commenced: "Mr. Hiram Cleaver, the well-known butcher, is losing flesh rapidly these days."—[Baltimore American.

No Home should be without it. Pain-Killer, the best all-round Medicine ever made. Used as a liniment for bruises and swellings. Internally for cramps and diarrhoea. Avoid substitutes, there is but one Pain-Killer, Perry Davis' 25c. and 50c.

"How large a permanent population has Crimson Gulch?" inquired the tourist. "Well," answered Bronco Bob, "we've got about four hundred and seven living here. But with so much hoss stealin' an' brace faro goin' on I wouldn't allude to anybody as bein' particular permanent."—Washington "Star."

THE CLERGY LIKE IT.

Dr. Agnew's Catarrhal Powder Cures all Creeds. It relieves in 10 minutes.

Here are a few names of clergymen of different creeds who are firm believers in Dr. Agnew's Catarrhal Powder to "live up to the preaching" in all it claims: Bishop Sweetman, Rev. Dr. Langtry (Episcopalian); Rev. Dr. Withrow and Rev. Dr. Chambers (Methodist), and Dr. Newman, all of Toronto, Canada. Copies of their personal letters for the asking. 50 cents. 17

Sold by Garden Bros.

All the New and the Beautiful

Patterns in Wall Paper are now on exhibition at our store. We have a greater variety than ever before.

Tenders for a New Station and Freight

House at Trois Pistoles and a 50,000 Gallon Water Tank with Foundation at Chaudiere.

Separate sealed tenders, addressed to the undersigned, and marked on the outside "Tender for Station and Freight House, Trois Pistoles," or "Tender for Tank at Chaudiere," as the case may be, will be received up to

TUESDAY, THE 1ST DAY OF OCTOBER, 1901,

for the construction of the above works. Plans and Specifications may be seen on and after the 18th day of September, 1901: For the Tank at Chaudiere, at the Station Masters' Offices at Chaudiere Curve and at Levis; those for the work at Trois Pistoles, at the Station Masters' Offices at Levis, Riviere du Loup and Trois Pistoles, and for the work at both places, at the Chief Engineer's Office at Moncton, N. B.

Forms of tender may be obtained at all the places named.

All the conditions of the Specifications must be complied with.

D. POTTINGER, General Manager.

Railway Office, Moncton, N. B., Sept. 13th, 1901.

Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY

FOR CHILDREN AND ADULTS

CURES

Diarrhoea, Dysentery, Cholera, Cramps, Colic, Cholera Infantum, Cholera Morbus, Summer Complaint and all Fluxes of the Bowels.

HAS BEEN IN USE FOR HALF A CENTURY.

Harmless, Reliable, Effectual, and should be in every home.

SURE REMEDY.

Mr. F. Churchill, Cornell, Ont., writes: "We have used Dr. Fowler's Extract of Wild Strawberry in the home and always find it a sure remedy for dysentery."

USED 9 YEARS.

Mrs. Jones, Northwood, Ont., writes: "My baby, eight months old, was very bad with dysentery. We gave her Dr. Fowler's Extract of Wild Strawberry and it saved her life. We have used it in our

family for the last nine years and would not be without it."

ACTION WONDERFUL.

Mrs. W. Varner, New Germany, N.S., writes: "I have great confidence in Dr. Fowler's Extract of Wild Strawberry for various diseases in old and young. My little boy had a severe attack of summer complaint and I could get nothing to help him until I gave him Strawberry. The action of this remedy was wonderful and soon had him perfectly well."

Stem Wind. A WATCH FREE. Stem Set.

To introduce DR. PICKARD'S TONIC PILLS, for making blood for pale people, Liver and Kidney Diseases, Nervous Diseases, Nervous Debility, etc., we will give free a Beautiful Open Face Watch, stem wind, stem set. The regular price of these pills is 50c. per box, or 7 boxes for \$3.00. Send this amount and you will receive 7 boxes of the best tonic pills on the market, and this beautiful time piece; or write for particulars.

The Dr. Pickard Pill Co.,

11 and 13 Front Street, East, Toronto, Ont.

This is a genuine offer.

NEW SCHOOL BOOKS HAVE ARRIVED.

We have all the regular books that are in use, including the NEW Fifth Book, the NEW Geography, the NEW Book-Keeping Book. The NEW English and Canadian History expected in a few days. All kinds of Scribblers, Pens, Pencils, and other Writing Materials.

ELECTION OF COUNTY COUNCILLORS! County of Carleton.

The election of County Councillors will be held on Tuesday, the Eighth day of October next.

Fifteen days public notice of the time and place of holding election to be given by Parish Clerks by posting in three of the most public places of the parish. Nomination of candidates to be filed with the Parish Clerk or left at his residence at or before six o'clock p. m. on Monday the 30th day September next. Parish Clerks to post names of candidates in three of the most public places in each polling district on or before Thursday, 3rd October next. Candidates' names also to be posted up at the polling place before the opening of the poll on day of election. The Parish Clerk or District Clerk (as case may be) to act as chairman unless he refuses to serve, or is absent, or not competent by reason of relationship to candidate, when chairman to be chosen by electors present. Assessors are required to furnish Parish Clerks with list of electors. Note that time for holding election has been changed by Bye-Law of County Council passed at January session, 1901. Formerly under Acts of 1890, Chap. 34, it was last Tuesday in October, but now it is the second Tuesday in October. Dated August 25th, 1901. J. C. HARTLEY, Secretary-Treasurer
