

DR. WOOD'S

NORWAY PINE SYRUP.

A positive cure for all Throat, Lung and Bronchial diseases.

Healing and soothing in its action. Pleasant to take, prompt and effectual in its results.

Mr. Chas. Johnson, Bear River, N.S., writes: "I was troubled with hoarseness and sore throat, which the doctor pronounced Bronchitis and recommended me to try Dr. Wood's Norway Pine Syrup. I did so, and after using three bottles I was entirely cured."

Take a laxative before retiring. It will work while you sleep without a gripe or pain, cure a biliousness, constipation, sick headache and dyspepsia and make you feel better in the morning. Price 25c.

Strange Coincidences.

We have laughed at the story of the man in Maine who declined an invitation to take a drink of whiskey on the plea that he had promised his dying mother that he would never taste alcohol, "and, besides, it was a prohibition town and he had just tried everywhere in vain to get a drink and was certain one could not be got."

In the Herald's letter from Paris this morning it is stated that M. Maurice Barres, the former Boulangist deputy, has just retired from politics. "His mother," we are told, "always feared he would lose his life in politics and his retirement is in obedience to her deathbed injunction."

Incidentally, it may be noted that the electors at Nancy the other day mobbed him and threw him into a pond.—New York Herald.

When the Baby Cries at Night

there is a cause for it. Perhaps it is gas on the stomach, may be cramps or diarrhoea. Don't lose sleep, anticipate such contingencies by always keeping handy a bottle of Polson's Nerviline. Just a few drops in water given inwardly, then rub the little one's stomach with a small quantity of Nerviline, and perfect rest is assured for the night for both mother and baby. You may not need Nerviline often, but when you do need it you need it badly. Get a 25c bottle to-day.—Sold by Garden Bros.

Horse Meat in Vienna.

The comparatively high prices obtaining in Vienna for beef, mutton, and pork have, says a U. S. consular report, put these meats beyond the daily reach of the poorer classes, who are most taxed by hard labor, and are obviously in need of strength-giving food. Nearly half a century ago, the experiment of putting horse meat on the market was made for the first time in Austria. A governmental decree of April 20, 1854, gave legal permission to cut up and sell horse meat as an article of food. During the rest of that year and in 1855, 943 horses were slaughtered for food in Vienna; the number rose in 1899—the last year for which statistics are obtainable—to 25,640 head. The price of horse meat ranges, per pound of forequarter, from 5 to 8 cents; hind quarter 6 to 9 cents; choice cuts for steak and roast, 5 to 11 cents; the same cuts in beef averaging from 20 to 24 cents a pound. The horse meat is also worked up into sausages, and as such sells at correspondingly low prices. The horse-meat butcher shops, of which there are now no less than 185 in Vienna, present a clean and attractive appearance, and are in no way distinguishable from the shops where the usual kinds of meat are sold, save by the sign announcing their specialty. Restaurant-keepers who serve horse meat must designate this fact in a special column on the bill-offered to patrons. The regulations as to the proper condition of the horses slaughtered are very stringent and carefully en-

forced. The special inspectors appointed are, in the main, veterinary surgeons, and those intrusted with the microscopical examination of the meat must be able to show a certificate of having graduated from a course of study in this line at a veterinary or similar institution, and are sworn to the faithful performance of their duties. The horses to be slaughtered are inspected both before and after slaughtering. The many diseases of which the symptoms are easily overlooked in the living animal are readily recognized by the experts after the animals have been slaughtered. The inspection of the living animals must be as complete as possible, and the inspector is given the opportunity of observing them closely in and out of the stall. The inspector, notified twenty-four hours previously, must be present at the slaughtering, which should take place by daylight. If the slightest trace of tubercles or ulcers be found on the nasal mucous membrane, or any disease of the glands or throat, the meat of the animal is forbidden for use as food, and due report is made immediately to the proper local authorities. In the shops where the horse meat is sold a certificate of inspection must lie open for all to read. As in other butcher shops, the prices of the various cuts per kilogram must be stated on a signboard. In some of these shops donkey meat is also offered for sale, and this fact must be announced in a similar manner.

One 25 cent box of this great Kidney medicine will do you a world of good.

The Professor's Story.

(Evening Sun.)

At a recent dinner given in honor of a certain man of letters Mr. Hamilton Wright Mable, who was one of the speakers of the evening, said, in the course of his remarks, that a pessimist might be defined as a person who has the choice between two evils, and selects both. A Columbia student who happened to attend the dinner sat, the next morning, under Prof. Brander Matthews, who delivered a characteristic lecture, with statistics, on everything in general. During the lecture Mr. Matthews remarked, with the air of a man conscious of tossing off an original jewel of epigrammatic wisdom. "You know, gentleman, we may define a pessimist as a man who has the choice between two evils and takes both."

The student, who was certain that Mr. Matthews had not been present the evening before, looked the professor up at the conclusion of the lecture, saying: "Your definition of a pessimist struck me forcibly, but I heard Mr. Mable give the same one last night."

"Is that so?" replied Mr. Matthews suavely. "He forestalled me by half a day then. We both heard it from Mark Twain two evenings ago."

St. John Booms.

According to present expectations, St. John will be a busy place this winter. It will be the terminal of the Allan Line under the new mail contract with the Government; the Elder-Dempster Company will run a fortnightly service from there to Liverpool, the Donaldsons a similar service to Glasgow, the Manchester liners a fortnightly service to Manchester, and the Head Line a fortnightly service to Dublin and Belfast. The Franco-Canadian Line are also debating whether they will sail from this port, and as the Furness Line steamers sail from St. John via Halifax, the Canadian Pacific Railway is building covered cattle yards capable of holding 1,800 head, extending its sidings, and laying down additional tracks, while the Dominion Government has completed a large immigration shed with sleeping and eating accommodation for 1,200 persons.

The White Invasion of China.

Honorable Albert J. Beveridge, United States Senator from Indiana, has spent the past five months in the Far East investigating commercial and political conditions, studying international relations, appraising National resources, and conferring with the men who are establishing the Eastern policy of the European powers. The vast amount of information thus secured at first hand Senator Beveridge will embody in a series of noteworthy papers, the first of which will appear November 16 in THE SATURDAY EVENING POST, of Philadelphia.

Senator Beveridge is a trained writer and a trained observer, and he has infused extraordinary interest into subjects that might make dull reading if less brilliantly handled.

The Pulpit Versus the Bar.

An eminent American lawyer now deceased was sadly given to intoxication. On one occasion he entered a church while a minister was holding forth on the future punishment of the wicked.

Fixing his eye upon the lawyer, who was reeling near the door, the preacher exclaimed: "There stands a sinner against whom I will bear witness in the day of judgement."

At this the lawyer folded his arms, planted himself as firmly as he could, and addressing the man in the pulpit, electrified the whole congregation after this fashion:

"Sir, I have been practising in the criminal courts for twenty years, and I have always found that the greatest rascal is the first to give State's evidence."—[The Scotsman.]

"JUST AS GOOD"

Has no glimmer of truth in it when it means a substitute for Dr. Agnew's Ointment.

There are cases on record where men and women too have suffered unspeakable torture from piles; where all kinds of remedies have been applied; where the surgeon's knife has been resorted to as the only hope; where electricity has tried its good offices, but without any permanent cure; and Dr. Agnew's Ointment, as the last resort, has proved its magic—one application has given relief. There is no other "just as good." Don't take chances. 55 Sold by Garden Bros.

The Largest School in Existence.

Mrs. S. T. Rorer's name has become a household word in American homes though her famous Cooking School in Philadelphia, and her equally famous contribution to the domestic literature of the times, The Ladies' Home Journal, which for some years has been the medium through which Mrs. Rorer has talked to American women, has conceived a clever idea, incidentally something new. It is to put Mrs. Rorer's Cooking School on paper, at it were, giving from month to month exactly the same lessons to its readers as Mrs. Rorer gives to her pupils. In this day, when so much is said about pure food and the value of correct methods of preparing them, the value of such a feature should be great.

CHAINED FOR TEN YEARS

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,

Rabbi of the Cong. Bnai Israel, New York, Jan 3, 1901.

DRS. TAFT BROS. MEDICINE CO., Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours, REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., Feb. 1, 1901

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO.

Feb. 5, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

White Watery Pimples.

Five years ago my body broke out in white watery pimples, which grew so bad that the suffering was almost unbearable.

I took doctors' medicine and various remedies for two years but they were of little benefit, whenever I got warmed up or sweat the pimples would come out again.

A neighbor advised Burdock Blood Bitters, and I am glad I followed his advice, for four bottles completely cured me.

That was three years ago and there has never been a spot or pimple on me since.
