Only a Little Backache.

That is the most unmistakable symptom of disease kidneys, an ailment which no one can neglect without inviting Bright's disease, diabetes, rheumatism and the most painful and fatal maladies. At the first sign of backache and urinary disorders use Dr. Chase's Kidney-Liver Pills and you can be certain of prompt relief and cure. One pill a dose, 25 cents a box.

Profit in Cabbage.

The cabbage crop can be made a profitable one on the farm, as all heads not sold in market may be used as green food in winter for cattle, sheep, swine, and poultry. Beginning with the early varieties, and following with intermediate and late kinds, one crop may mature after another, while the ground from which the early heads are sold may be planted to turnips. It is possible to have cabbage nearly all the year round by proper methods of growing and storage. The very early heads are grown in cold frames. Cabbages thrive on rich soil that has been heavily manured, and as the crop is one that draws largely on the soil, and the plants are also gross feeders, there is no risk of giving too much manure. It is a crop that thrives with frequent hoeing or cultivation, every working of the soil seeming to benefit the plants. To make them start off in growth rapidly scatter a tablespoonful of nitrate of soda around each plant and hoe it into the soil. A little later, just as the plants are beginning to head, repeat the application of nitrate of soda.—Philadelphia Record.

Arthur Gordon Tupper.

Dr. Arthur Gordon Tupper died at the home of his parents Thursday morning, June 27th, after a brief illness, aged 24 years, 11 months.

He was born in this town, (Rockport Mass.) the son of Dr. Augustus M. and Fanny G. Tupper and has lived here all his life except the time spent at Harvard University from which he was graduated two years ago. Since that time he has practised with his father and has won a most enviable reputation as a skillful physician. He has built up for himself quite a large practise which has been constantly growing in the two years. It is not improbable that he would have become eminent in his profession in the years to come and acquired more than a local reputation. Adapted to his life work by natural inclination and together with his education and the invaluable opportunity of association with his father, his career was unusually promising.

Dr. Arthur went to Harvard to some of the functions on Saturday of last week and returned on Tuesday night on the late train. He was seen by a number of people who remarked nothing special in his condition. In the morning at 7 o'clock he was found unconscious lying on a couch in the office of his home. His last acts showed remarkable kindness and consideration lest he should disturb the sleeping family on his arrival. Everything possible was done to restore him to consciousness and after many hours he slightly rallied giving the physicians hope of recovery.

Dr. A. M. Tupper was assisted by Dr. Everett Garland and Dr. Philip Moore, of Gloucester.

In the short interval of consciousness he greeted the family with a warm hand clasp, recognizing each member of the household. From this interval of consciousness he slowly weakened until death came at a few minutes before five Thursday morning.

It is thought that being of delicate constitution he became overheated and exhausted in the city, developing into the illness which caused his death.

The town has been very sad these last few days. Everyone has listened to the story of his death with a sad face and heavy heart. He was dear to everyone in the community. Respected, admired and really loved his death means a loss hard to estimate. No word of reproach has been spoken, no thought of unconcern been expressed, but each feels in his heart that he has lost someone who was very dear to him and some one of whom the community might well be proud.

We can but wish that we could speak some word of sympathy to the father and mother and the family to whom his death means even very much more than to his friends. His life had been lived simply, kindly, quietly with much thought for the unfortunate and friendless, loving and loved of all men. This must be a greater comfort to the bereaved ones than any eulogy of press or pulpit.

His life is gone out from us but his influence remains to live after him in the hearts of the community.—Rockport, Mass., Review.

[Dr. Tupper was a nephew of Mrs. Wm. M. Connell, of Woodstock, and a grandson of the late Col. Tupper.]

Queer Adventure of a Reporter.

An enterprising reporter for a New York paper posed recently as a lunatic in order to gain admittance to Bellevue Hospital for the purpose of obtaining facts for a sensational "exposure."

He started by rushing into the corridor of the Fifth-avenue Hotel, howling like a der- vish. He was promptly arrested and clubbed by a policeman. Then he was taken to Bellevue, where the alert medical man lost no time in discovering the sham. This is what he did to the alleged lunatic:

- Gave him a powerful emetic.
- Put him on a milk diet.
- Administered ice-cold showerbaths.
- Gave him injections of morphine.
- Would not let him sleep.
- Gave him stomach-pump treatment.
- Vaccinated him.
- Gave him an electric bath.
- Pulled out two teeth.
- Told him he had a cancer on his brain, and that his head there would have to be cut open.

Thereupon the "lunatic" gave a yell of terror and confessed:

He was taken to a police station, and was severely lectured by the magistrate. Then he returned to the editor and was promptly dismissed for incompetence.

Miss Anna Cooke.

The Champion Four and Six-Horse Equestrienne, whose fame is boundless in five continents will at each performance of The Great Pan-American Shows ride, drive, manage and handle her spirited team with dash, grace and skill that has never had an equal. Miss Cooke also introduces her diverting burlesque act of impersonating a country girl performing an equestrian bare-back act on a mule, always received with hilarious applause.

This clever equestrienne will be seen at Woodstock, on Monday, July 22nd.

A Blacklist of Drinkers.

The handling of the liquor question here, has brought to light a new phase of the State Mule Law, or one that seems new because not often brought into use. Mayor Martin has circulated a blacklist on which are recorded the names of the habitual drunkards of the city. He has warned the vendors in intoxicating drinks not to sell these parties any refreshments. The drinkers are incensed at the action of the Mayor, and have signified their intention of taking the matter to the courts. They claim the law is unconstitutional, because their personal liberties have been trampled down, and they have been injured by being publicly branded as drunkards.—[Waterloo (Iowa) Correspondence Omaha Bee.

A NEW SWINDLE.

Peddlers Offering Spurious Pills Representing Them to be the Same as Dr. Williams' Pink Pills—A Reward for Such Evidence as Will Lead to Conviction.

The latest device for swindling the pub- lic is now being operated in various parts of the Maritime Provinces, where a couple of peddlers are going from door to door selling a pink colored pill which they represent to be the same as Dr. Williams' Pink Pills for Pale People. It is needless to say that this claim constitutes a swindle, as Dr. Williams' Pink Pills are made from a secret formula known only to the proprietors. We strongly advise readers of the DISPATCH not to be duped by peddlers of this class, no matter what representations they may make, also to remember that medicines of such sterling reputation Dr. Williams' Pink Pills, are never hawked from door to door by peddlers, are never sold in any other form except in the Company's boxes, wrapped around which will be found directions for use, the whole enclosed in a wrapper bearing the full name "Dr. Williams' Pink Pills for Pale People." It ought also to be borne in mind that imitations are a always worthless, and in many cases positively harmful to those taking them. Your health is too precious to experiment with and peddlers of medicine should be promptly shown the door.

Offering an imitation pill and representing it to be the same as Dr. Williams' Pink Pills constitutes a felony under the Criminal Code and the seller can be prosecuted for obtaining money under false pretenses. The Dr. Williams' Medicine Co. have a standing offer of \$50.00 reward for such information as will lead to the conviction of persons who infringe their registered trade mark in any form. Such information can be addressed to the Company at Brockville, Ont.

Loss of Flesh.

If you find yourself falling below normal weight there is danger. The use of fish oils can temporarily add fat, but will never build up healthy tissues. Dr. Chase's Nerve Food acts through the blood and nervous system and carries new life and energy to every nook and corner of the body. It regulates the various organs of the body, makes the appetite good, adds healthy flesh, and replaces the tissues wasted by disease. Naturally and gradually this food cure restores color to the cheeks, increases the weight of the body and thoroughly overcomes disease.

A Gentle Thrust.
A story related by Correspondent McDonald was of the discovery of a Boer who had received a terrible bayonet wound through the ribs. As the man was being carried into the British lines at London "Tommy" who was watching him asked if he was badly hurt.
"Yes," said the doctor; "do you know him?"
"Course I do," said the soldier; he's one o' mine. I giv' it 'im, but I did it as gentle as I could. It wasn't the shovin' in—it was the pullin' out. Lucky for 'im he met me!"
