FLORENCEVILLE.

Mrs. C. E. Stephenson of Florenceville who was operated on for cancer, by Dr. Brown of Centreville, assisted by Dr. Bearisto of Lakeville, and Dr. Commins of Bath, had her entire left breast removed. She is doing well and is now able to be up a good part of the time, although only ten days have elapsed since the operation was performed.

The stitches have all been removed and not the least symptoms of fever have set in. It is safe to say that no operation has ever been done in this province outside of a hospital as was done in this case. Dr. Brown deserves credit for the very skillful operation he performed on the patient. It was only about two hours and forty minutes from the time he began until he finished. Miss Lydia Merritt, of Centreville, a professional nurse, also lent him invaluable aid.

CANTERBURY STATION.

Consumption

is destruction of lung by a growing germ, precisely as mouldy cheese is destruction of cheese by a growing germ.

If you kill the germ, you stop the consumption. You can or can't, according to when you begin.

Take Scott's Emulsion of Cod Liver Oil: take a little at first.

The genuine has this picture on it, take no other.

It acts as a food; it is the easiest food. Seems not to be food; makes you hungry; eating is comfortable. You grow stronger. Take more; not too much; enough is as much as you like and agrees with you. Satisfy hunger with usual food; whatever you like and agrees with you.

When you are strong again, have recovered your strength—the germs are dead; you have killed them.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

A Tonic for Mothers.

The happiness that comes to a home with baby's advent is too frequently shadowed by the ill health or weakness of the mother. To restore the mother's strength, to bring back vigor and energy, and to sustain her during the nursing period, Dr. Chase's Nerve Food is undoubtedly the most effective preparation obtainable. It makes the blood rich, revitalizes the nerves, and has a wonderful restorative influence on the whole system. 50 cents a box, all dealers.

Mining News.

George Bailey of Beaufort, who has spent many years in the study of geology and who recently put in four years on the Tobique in search of the famous Giberson gold, has for the past twelve months been working on Biggar Ridge in Carleton County, looking for mineral deposits. He has located a vein of metal bearing quartz thirty feet wide and he does not know how deep, running North East and South West. It assays \$16.80 to the ton and Mr. Bailey says that with a crusher and smelter costing \$15,000 this vein could be worked to pay.

J. W. Miller and George McPhail of Munia have been furnishing the money for his work at Biggar Ridge and they have given him authority to go ahead and follow the vein down to a depth of twenty-five feet. The metals he has found in the vein are copper, lead and silver and he has every reason to believe that there is gold below.

Mr. Bailey studied chemistry, mineralogy and geology with Dr. W. F. Best of St. John and he brings to his work a competent knowledge of his profession.

It is earnestly to be hoped that he is on the eve of a rich find, and that in the near future Bristol will be the shipping port of a large and paying mining operation.

Mr. Bailey says that with one more summer's work on the Tobique he can locate the Giberson gold.

Discouraged Stomachs.—Could you wonder at the delicate organs of digestion refusing to be helped and comforted when day after day they are literally "drowned out" by strong tonics, bitters and hurtful nostrums. Common sense came into Medical Science when it evolved the tasty tablet dose and discovered a God-send to humanity in Dr. Von Stan's pineapple tablets formula. 35 cents.—144 Sold by Garden Bros.
