On a Watch Face.
"I will wager," said a Broadway watchmaker to a customer the other day, "that you cannot correctly put down the numerals on the dial plate of your watch."
"Done," said the other. And he wrote down I, II, III, IV—
"Wrong," interrupted the watchmaker.
"How wrong?"
"Pull out your watch and look at the figure four."
Sure enough the figure was IIII, not IV.
"Are all clocks and watches made that way?" asked the customer, as he put his watch back in its fob.
"All that have Roman figures on their dial."
"Why?"
"Well, there is a tradition which accounts for the custom. The first clock that resembles the ones now in use was made by a French jeweller named Henry Vick, in 1370. He made a present of it to King Charles V., surnamed the Wise. Now Charles was wise in many ways, but he did not know everything, though having a reputation to sustain he pretended to omniscience. When Vick brought him the clock he examined the works very attentively, seeking a flaw somewhere. 'Yes,' he said, at last, 'the clock works well, but you have got the figures on the dial wrong.' 'Surely not, you majesty,' demurred the jeweller. 'Yes, that four should be four ones.' 'You are wrong, your majesty.' 'I am never wrong,' thundered the King. 'Take it away and correct the mistake.' Vick did as commanded. The fashion was followed by others. And so to this day we have IIII instead of IV."
"But suppose my watch had Arabic and not Roman numerals?"
"I took that chance, of course, because the larger proportion of watches have the Roman numerals. But even then I'd have had you in all probability. For there is another peculiarity about the figures which is almost universal in watches. But I will show you. Go on writing the rest of the figures."
So the customer continued and wrote down V, VI—
"Wrong again," interrupted the watchmaker.
"But—"
"Pull out your watch and see," calmly retorted the other.
Once more the watch dial was exposed to view. There was no six on it. The space where it should have been was occupied by second hand.
"The second hand," continued the jeweller, "is to be found in exactly that place in almost every watch that is made. Whether your dial was registered in Arabic or Roman numerals there would be no six on it. It is only on a few of a very cheap sort of watches that the second hand is omitted and the 6 or the VI stands revealed."

Rheumatic Warped Limbs
Mrs. H. Willis, Chesley, Ont., says:—"My boy was all crippled up with rheumatism. Although we doctored, he was in this way for about one year, and the pain was terrible. Reading of many cases where Dr. Chase's Kidney-Liver Pills had cured rheumatism, we got a box. Before they were half gone he began to improve, and is now quite well. I am very glad to recommend them to others." One pill a dose, 25 cents a box.

Ladner-Duncan
In Easton, March 27, at the residence of Mr. and Mrs. J. Ladner, their daughter Miss Emma Estella, was united in marriage to J. Sherman Duncan of Fairmount, Fort Fairfield.
This was a marriage attended by many difficulties. For several days the warm weather and rain had made the roads almost impassable. Nearly all of the days set, rain had been falling, many times the anxious parties and invited guests had looked out of the windows in search of signs of a sun, but only to be disappointed. At noon the officiating clergyman left home to fill his engagement; by good fortune and undaunted courage reached the home of the bride's parents. More than 150 invitations had been sent out to friends and relatives in the province of New Brunswick, and a number of Aroostook towns and far off Boston. Many friends from Presque Isle and Fort Fairfield that started out were unable to keep their teams on the road and returned home, Boston parties reached Blaine and were detained there. From different points in New Brunswick the friends started and left their teams and made their way on foot. The groom unable to keep his horse in the road reached the point of long and bright anticipation through the rain on foot. Invited friends and neighbors came in the same way until a large number had assembled. At seven o'clock the bridal party while the wedding march was played entered the room where young and old, school-mates, relatives and friends awaited them and the ceremony was performed by Rev. Geo. M. Park of Presque Isle, the best man was Banfield W. Ladner, brother of the bride, with Miss Della Wiggins, of Richmond, N. B., as bridesmaid. After congratulations the party sat down to an elegant turkey supper, such as the bride's mother could serve remembering the real old fashioned Provincial style with good things enough to provide for a royal family. Notwithstanding the rain poured and guests were wondering how they could reach home. The evening was pleasantly spent, good singing being provided by the Union Choir of the neighbor-

Severe Pains in Back and Hips.

Mr. James Clark, Consecon, Prince Edward County, Ont., states:—"Eleven years ago I was taken with pains in my back, settling in my hips and extending up my spine. The pain was very severe, and at times almost unendurable, and many days I was not able to do an hour's work. Though I had consulted many first-class physicians and tried several advertised medicines, I could get no relief.
"At this time my father-in-law told me to try Dr. Chase's Kidney-Liver Pills, and said he knew they would cure me. I secured one box and great was my surprise when I began to feel better. I continued their use until I had taken about four boxes, which made me a sound man. I have recommended them to a number of my friends and have never met with one case where they did not meet with good success. My daughter, Mrs. Chas. Phillips, has also been cured of a severe stomach trouble by the use of these pills." One pill a dose. 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto, Ont.

Dr. Chase's Kidney-Liver Pills.

hood of which the bride is the organist. Mr. and Mrs. Duncan are to reside near Fairmount, Fort Fairfield, and their many friends wish them many years of pleasant married life.—Presque Isle Herald.

"One Foot in the Grave."—If the thousands of people who rush to so worthy a remedy as South American Nerve as a last resort would get it as a first resort, how much misery and suffering would be spared. If you have any nerve disorder you needn't suffer a minute longer. A thousand testimonies to prove it.—36
Sold by Garden Bros.

Health and Beauty.
The first step toward clearing the complexion is to see that the health is good, and this can only be when all the functions of the body act freely and properly. The liver is the most important factor in keeping the skin in order, but its activity should not be produced by drugs. The action of the liver is best encouraged by the free use of acid fruits, such as oranges, lemons, grapes and apples. Grapes may be safely eaten in abundance if the skins and seeds are rejected. Lemon juice and hot water taken at night will correct any bilious tendency and purify the skin. The woman who strives after a clear complexion will not eat pastry, fried or greasy food of any description or nuts. When the face lacks color, eat plenty of underdone beef and take a small dose of iron after each meal. When the face is too highly colored, these things should of course be especially avoided.

DR. A. W. CHASE'S CATARRH CURE ... 25c.
Is sent direct to the diseased parts by the Improved Blower. Heals the ulcer, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

They Forgot Their Latin.
Two well-dressed gentlemen visiting London strolled in the vicinity of a handsome new structure.
"Wonder what this is?" queried one, casting his eye about for a corner stone. "Ah! there is an inscription on the wall. Latin. Funny place to put it. 'Post Nobilis.' Let's see. I've forgotten most of my Latin; what do you make out of it?"
The other adjusted his eye-glasses, critically surveyed the inscription, and returned; "Hum! 'Post' means 'after,' of course, but 'nobilis' gets away with me. Nobilis, nobilis, no—I'll have to give it up. Let's inquire next door."
Thereupon they sought the intelligent custodian of the building, and put their question.
"What does that inscription mean?" the man repeated after them, in a pitying tone. "It means exactly what it says, and forty shillings fine into the bargain if you go posting bills about this place."

CHILDREN'S COUGHS.

There's nothing so good for children's coughs and colds, croup, whooping cough or bronchitis as **Dr. Wood's Norway Pine Syrup.**
It's so nice to take that youngsters beg for it, and it cures so quickly that mothers are delighted.
Mrs. R. P. Leonard, Parry Sound, Ont., writes:—"I have used Dr. Wood's Norway Pine Syrup for coughs and colds of myself and baby. I find it cures a cold quicker than any other cough mixture and is nice to take."

St. Gertrude's Parish, Woodstock.

In The Freeman of St. John an article on St. Gertrude's Parish, Woodstock, has the following:—
A man who exercised considerable influence, first in directing the attention of the ecclesiastic authorities to the needs of the Catholic settlers, and afterwards in determining the erection of the first Irish-Catholic Church in Woodstock, was James McGrath. He was a native of the north of Ireland, and after spending some years in service at Fredericton he settled at Jacksontown about 1828. Being a zealous Catholic—although, it must be admitted, he always stood well with his Protestant neighbors—he missed the ministrations of the priest, and felt that an effort should be made to secure regular visits from Father Michael McSweeney, then stationed at Fredericton. On the separation of the New Brunswick Missions from Quebec in 1832, Bishop McEachern of Prince Edward Island, to whose diocese the mainland was at that time appended, visited Fredericton. McGrath, hearing that the Bishop was expected, hastened to Fredericton and there interviewed him in the interests of the straggling Catholics of the Woodstock district. Bishop McEachern then commanded Father McSweeney to visit the up-river Catholics three times a year. This was the beginning of the present parish of Woodstock, which therefore dates from 1832.

The Pain of Sore Feet.
Just about the most tantalizing of all pains comes from sore feet. To get relief bathe the feet in warm water and then rub them with Polson's Nerve-line. It penetrates through the pores of the skin, takes out the soreness, reduces swellings, invigorates the tired muscles, tones up the circulation, and prevents the feet from becoming sore again. Nerve-line is a protection and safe-guard against the pains and aches of the entire family and cures rheumatism, neuralgia, toothache, &c. 25 cents.

The Golfer's Pun.
At a recent auction sale one of the paintings had for a subject a gayly attired golf girl making a long drive. The bidding on this opened very brisk—\$60, \$65, \$70 and finally \$72.
"Seventy-two, two, two, two!" cried the auctioneer.
"Fore!" shouted some one in the rear.

With the exception of the golfer in the front row, who immediately "ducked," the joke passed unnoticed.
"Four," repeated the auctioneer. "Do I hear five?"
He did not hear "five," and a cold sweat broke out on the brow of the last bidder as now, for the first time, the possibility of having to buy that picture occurred to him. Seventy-four dollars for making a pun! He made a solemn vow then and there that he would never attempt another as with a sickly grin he thought of unpaid bills. The attendant was standing at his elbow; the auctioneer had raised his hammer. "One—two—th—"
"Five!"

The ordeal was past. The auction proceeded, with the crowd unaware that the punster had received proper punishment.
For the benefit of those who do not play golf a diagram of the pun is furnished. "Fore" is the warning shouted by the player when about to drive.

Jealous Rivals cannot turn back the tide. The demand for Dr. Agnew's little Pills is a marvel. Cheap to buy, but diamonds in quality—banish nausea, coated tongue, water brash, pain after eating, sick headache, never gripe, operate pleasantly, 10 cents.—37
Sold by Garden Bros.

Balancing Rations.
There are a good many men who do not believe in balanced rations, yet are quite careful to balance their own rations. A meal of crackers or bread alone would not last, as they say, but add some cheese to it, and butter their bread or crackers, they might make a lunch that they could work on a good many hours. The crackers or bread alone supplied carbohydrates, but add cheese and butter, and we come near balancing it, as the cheese supplies protein and the butter fat. We noticed a stonemason's dinner pail. Probably he had never heard of balanced rations, but either he or his wife had quite happily balanced it. It contained a large piece of meat, a large chunk of cheese, bread, pie, cake, and a quart of milk.—Rural New Yorker.

Now I Feel Real Well
Mr. W. H. LaBlanc, Bonfield, Ont., writes:—"I was once a sufferer from catarrh, and while using Dr. Chase's Catarrh Cure I was recommended to use also Dr. Chase's Nerve Food to build up the system. My nerves were exhausted and I was too weak to do a day's work when I began using it, and now am strong and healthy, and feel real well. I am perfectly sure that anyone who uses Dr. Chase's Nerve Food will believe as I do, that it is the best strengthener and restorative obtainable."

A Nice Family Mix Up.
A widower with a number of small children married a widow who was similarly blessed. In due time the newly married couple added to the number. Hearing a voice in the yard one day, the father went out to see what was the matter.
"Well, what was it?" asked his wife as he returned out of breath.
"Your children and my children were quarreling with our children," was the reply.—London Answers.

No Trifling With the Nerves.

When you can't sleep at nights and toss in misery longing for daybreak to come, do not yield to the temptation to use morphine, cocaine or other opiates. They only hasten decay.
Let reason rule. Get right down to the foundation of the trouble and build up the system by using Dr. Chase's Nerve Food.
This great restorative is in pill form and contains the very elements of nature, which go to form new red corpuscles in the blood and create new nerve cells.
It is worth while to remember that Dr. Chase's Nerve Food is not a patent medicine, but the greatest prescription of Dr. A. W. Chase, author of the famous receipt book.
Dr. Chase's Nerve Food is an up-to-date, scientific preparation which has proven itself to be specific for all nervous diseases. It cannot fail, if used persistently, because it actually rebuilds and revitalizes the wasted nerves. It is especially recommended for ill peculiar to women, because they almost invariably arise from exhausted nerves. Dr. Chase's Nerve Food, 50 cents a box at all dealers, or by mail.
