Does your horse "feel his oats"? What a difference between the grain-fed and the grass-fed horse! The first strong and full of ginger, the second flabby, weak and tired out before he begins. The feeding makes the difference.

Children are not alike either. One is rosy, bright-eyed, full of life and laughter, another is pale, weak and dull. The feeding again is responsible.

Sickly children need special feeding. They don't "feel their oats". Scott's Emulsion adds just the right richness to their diet. It is like grain to the horse. The child gets new appetite and strong digestion. Scott's Emulsion is more than food. It is a strong medicine. It rouses up dull children, puts new flesh on thin ones and red blood into pale ones. It makes children grow. Scott's Emulsion makes ordi-

From the Sun, Orangeville, Ont. Hard study at school, coupled with the

lack of attention which every young girl emerging into womanhood should have, is responsible not only for the many pale faces and attenuated forms met with such lamentable frequency, but is responsible also for the loss of many valuable young lives. First there is an occasional headache, and a sallowness of complexion, from which stages, if these early symptoms are neglected, the condition gradually grows worse and worse until decline or consumption sets in and death claims another victim of parental neglect. Upon mothers especially devolves a great responsibility as their daughters approach womanhood. The following truthful story told a reporter of the Sun by Mrs. O. Her-man, of Third Avenue, Orangeville, carries a lesson to other mothers. Mrs. Herman said: "About fifteen months ago my daughter, Kate, while attending the public school studied hard. We noticed that she began to complain of head aches. This was followed by a listlessness and an utter indifference to the things that usually interest young girls. We consulted a doctor, and she took bottle

after bottle of medicine, but with no benefit. Often she would arise in the morning after an almost sleepless night, her limbs all a quiver and her head reeling. She would be attacked with spells of dizziness, and on the least exertion her heart would palpitate violently, and we were really afraid she would not recover. At this stage my husband sug-gested that we should try Dr. Williams' Pink Pills, and he brought home several boxes. Kate had only taken the pills a few weeks when there was a great change for the better. She grew stronger, began to eat better and to have better color, and from this stage it was not long until she was again enjoying the best of health and able to resume her studies at school. I might also tell you that these pills cured my daughter Emma of an attack of rheumatism, so that you see we have much reason to praise them, and I earnestly recommend them to all mothers whose daughters may be suffering as mine

Dr. Williams' Pink Pills cure all diseases that have their origin either in a poor or watery condition of the blood or shattered nerves. It is because they make rich red blood and strengthen the nerves with every dose that they cure such troubles as anaemia, consumption in its early stages, nervous headache, St. Vitus' dance, rheumatism, partial paralysis, kidney trouble, indigestion, etc. Ordinary medicine merely acts upon the symptoms of the trouble, and when such medicines are discontinued the trouble returns often in an aggravated form. Dr. Williams' Pink Pills on the contrary go direct to the root of the trouble and cure to stay cured. See that the full name, "Dr. Williams' Pink Pills for Pale People," is found on the wrapper of every box. If your dealer does not have them send direct and they will be mailed, post paid, at 50 cents a box or six boxes for \$2 50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont,
