

## 13 Running Sores.

Mr. Stephen Wescott, Freeport, N.S., gives the following experience with Burdock Blood Bitters.

"I was very much run down in health and employed our local physician who attended me three months; finally my leg broke out in running sores with fearful burning. I had thirteen running sores at one time from my knees to the top of my foot. All the medicine I took did me no good, so I threw it aside and tried B.B.B. When one-half the bottle was gone I noticed a change for the better and by the time I had finished two bottles my leg was perfectly healed and my health greatly improved."

## POND'S EXTRACT

Soothes tired muscles, removes soreness and stiffness and gives the body a feeling of comfort and strength.

Don't take the weak, watery witch hazel preparations represented to be "the same as" Pond's Extract, which easily sour and generally contain "wood alcohol," a deadly poison.

## NOTICE TO FARMERS.

Farmers having wheat to grind, who live a long distance from this mill, can take advantage of our Special Freight Rate. They will find the cost by Special Rate less than sending team a long distance. We take all grists to and from station FREE OF CHARGE. Take your grist to nearest station and ask the agent for Special Rate (pre pay) to Woodstock.

Thanking you for your liberal patronage in the past, and hoping to merit a continuance of the same,

I remain yours,

Goldwin Smith on Immigration and War.

The number of Canadians in the United States, according to the last census, was 1,181,778, a large proportion of our total number, while Americans not a few are settling in the Yukon and in our North-West. This surely is a sufficient answer to Senator Power's alarmist calls to arms. A war with the United States is about as likely as collision with another planet. It is needless to ask how in that impossible event we could defend a line of Provinces straggling from the Atlantic to the Pacific, garrisoned by a population of five millions and a half, and that population in the North-West consisting largely of foreign and anti-military elements, not to mention the American immigration. Nobody has a word to say against the maintenance of our militia on a liberal footing, rifle clubs, school drill, or any other reasonable measures for keeping up the military and manly character of our people; but some of us demur to turning the present war fever into the permanent policy of the country, as well as to the excessive cultivation of a military spirit, and the exaltation of everything military over all services to the community, and over all other callings in life.

Again, nobody objects to reasonable pensions or indemnities for genuine veterans, or to any who have been wounded or disabled while serving in defence of the country. But there is a manifest danger of being drawn by political influence far beyond this reasonable line. In 1873, Garfield, pleading in the House of Representatives for pensions for old soldiers, said that the high-water mark had been reached, and placed the maximum at about thirty millions. The sum now to be voted is a hundred and forty millions, more than any European country except Russia pays for its standing army. This is thirty-three years after the close of the War of Secession. Since that epoch the cost of the pension list has been over two and a half billion dollars, and one million names, being one for every seventy-five of the population, are borne upon the pension roll. Let us be cautious how we allow the politicians in quest of military votes to get us on that slide.

## Notwithstanding the Introduction of Imitations and Counterfeits

the Sales of  
**PAINE'S CELERY  
COMPOUND**  
Have Vastly Increased.

The Great Medical Prescription of  
Professor Phelps, M. D., is the  
Only Medicine That Truly  
Banishes Disease and  
Sickness.

Shortly after the greatest of modern physicians Professor Phelps, M. D., gave to the science of medicine the most wonderful remedy of the present day—Paine's Celery Compound—a host of imitators sprung up. As the great public demand for Paine's Celery Compound increases in every section of Canada, imitators become bolder, and as a consequence, the public in many quarters are suffering from these vile deceptions. Today, no other medicine is so largely imitated as Paine's Celery Compound; this is due to its immense popularity.

Notwithstanding the introduction of imitations of Paine's Celery Compound in Canada, the sales of the great disease-banisher increase from week to week and far exceed the combined output of all other medicines. People insist upon having the one remedy that makes them strong, repairs their shattered strength, and that frees them from disease. Only a truly great and effective remedy could continue as Paine's Celery Compound has done, to hold its unrivalled place in the estimation of able physicians, discerning professional men and the best people of the land.

If you value life and health, do not hesitate to refuse the "Something Just As Good" and vile imitations when dealers present them to you. See that you get the kind with the name PAINE'S on wrapper and bottle.

## What the Nation Needs.

Great Britain had still a great deal to learn, so the lecturer said, before she could command the undivided admiration and respect of the whole world, and he was the man to show her how it was to be done. "What does this nation require if she steps proudly across the broad Atlantic—if she strides boldly across the mighty ocean in her march of trade and freedom? I repeat, what does she need?" "Rubber boots!" suggested the grossly materialistic person in a rear seat.—Chicago Journal.

In the centre of Africa the fame of Pain-Killer has spread. The natives use it to cure cuts, wounds and sprains, as well as bowel complaints. Avoid substitutes, there's only one Pain-Killer, Perry Davis'. 25c. and 50c.

"Yes," said Mrs. Sliptung, "it's true. Aunt Ann insisted that her remains should be cremated, and we're going to have it done if we can find a crematory."—Chicago Tribune.

Slightly Sarcastic.

The New York Post believes in talking back to anyone, even heroes, when they get foolish. This is the way the Post talks to Hobson:—

"Hobson Fears the Slav." This is the most startling announcement in the Tribune this morning, for it was generally believed that "the hero of the Merrimac" feared nothing. It seems, however, that this great mind has been projecting itself far into the future, and that it perceives clearly that some day the United States navy, and the navy alone, will have to keep the wily and relentless Slav away, not only from England, but from all Europe. Hitherto we had trembled at thought of the Oriental danger, and dreamed our ships of war blazing away at the junks of some future Dowager Empress of all the Chinas, in the last desperate struggle for survival of the Anglo-Saxon race. But we confess that this new picture of the American navy tearing through the fields of Bohemia, and laying its courses over the plains of Hungary, or guarding the Austrian frontier with its mighty Oregons, is infinitely more thrilling and touching. Capt. Hobson sees, too, the perils of an anti-English European coalition, and the opportunities which it would offer for our beneficent navy. This would be a time, he remarked, with his extraordinary eloquence and generosity of metaphor, "when the hand of the United States, thrown into the balance, might turn the tide." Of course, the hand to do the trick would be the navy. For this Hobson asks only \$25,000,000 a year. "Don't be afraid of militarism," he cries; "fear the Slav." After this we hope that the Navy Department will retire Capt. Hobson, before his approaching thirty-second birthday, with that pension of \$1,500 or more a year for which he longs. He has earned it. And if he should not find his way into Congress after retirement, there are other fields open to him. As a humorist he will yet outshine Mark Twain.

## What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, backache, lumbago, pains in the sides and limbs accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney-Liver Pills act directly and specifically on the kidneys, make them active, vigorous and thoroughly cure these ailments. One 25-cent box of this great Kidney medicine will do you a world of good.

## Reform of Common Tools.

A Germantown man has recently invented an instrument for affixing stamps on envelopes. Into this machine fifty or a hundred stamps are put, and by a simple movement of the hand each envelope is made ready for mailing, and the nuisance of either licking the stamp or else of wetting it upon a sponge is done away with altogether. The inventor proposes now to turn his attention to tools of every sort—to shovels, picks, carpenters' planes, ploughs, brooms, and what not. "Every instrument of labor," he said yesterday, "is built on unhygienic principles, and is a relic of barbarism. To use these tools requires an attitude in which the shoulders are bent and the chest contracted—an attitude that deforms and stiffens the figure. Now I am going to invent a lot of tools that will be used so that each stroke of work will be a benefit to the health. The chest will be broadened, the shoulders will be kept erect, the lung power will be increased. In other words, by my invention labor will become a gymnastic exercise, and will beautify instead of disfiguring the human form. It will be hard to make such tools as I have in mind, but I have my principle to work on, and I have faith. So, I am sure to succeed in time." —[Philadelphia Record.

## Refreshing Modesty.

Friend—Well, how do you like the nominations?  
Rejected Candidate—Excuse me, but I take no interest whatever in this election.

## A Terrible Cough.

If people would only treat coughs and colds in time with Dr. Wood's Norway Pine Syrup, there would be fewer homes desolate.

The severest coughs and colds, bronchitis and croup, and the first stages of consumption yield readily to this powerful, lung-healing remedy.  
Read what Mrs. Thos. Carter, Northport, Ont., says: "I caught a severe cold, which settled on my throat and lungs, so that I could scarcely speak above a whisper. I also had a terrible cough which my friends thought would send me to my grave. I tried different remedies but all failed to do me any good until I took Dr. Wood's Norway Pine Syrup, and the contents of one bottle completely cured me."

## Canadians in the United States.

A return prepared by Mr. George Johnson, the Dominion statistician, from United States census returns, shows that there were 1,181,778 Canadians in that country in 1900. Of these 786,581 were English-speaking and 395,197 French-speaking. In 1890 there were 980,938. The increase from 1880 to 1890 was 263,781, and from 1890 to 1900 was 200,840. Of the Canadians, 786,581 were English-speaking Canadians and 395,197 French-speaking.

A piece of velveteen—say, a quarter-yard—makes the best of all brushes for silk. Use it on a black silk petticoat, and see how perfectly it wipes away all the dust that gathers so vexatiously in the ruffles and pleatings. Any brush, no matter how soft, acts as an irritant to a silken surface, but the velveteen entirely removes the dust without any injury to the fabric.
