HOME AND CHILD

Does your horse "feel his oats"? What a difference between the grain-fed and the grass-fed horse! The first strong and full of ginger, the second flabby, weak and tired out before he begins. The feeding makes the difference. Children are not alike either. One is rosy, bright-eyed, full of life and laughter, another is pale, weak and dull. The feeding again is responsible.

Sickly children need special feeding. They don't "feel their oats". Scott's Emulsion adds just the right richness to their diet. It is like grain to the horse. The child gets new appetite and strong digestion.

Scott's Emulsion is more than food. It rouses up dull children, puts new flesh on thin ones and red blood into pale ones. It makes children grow. Scott's Emulsion makes ordinary food do its duty.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample.

ANOTHER HAPPY MOTHER.

Tells How Her Baby of Eight Months Profited by Wise Treatment.

Teething time is the critical age in a child's life. Any slight disorder in the stomach or bowels at that time greatly increases the peevishness of the little one and may have serious and even fatal results. It is impossible to take too great care of your baby's health during this period, and no better remedy than Baby's Own Tablets is known for the minor ailments of childhood. Among the mothers who have proved the worth of this medicine is Mrs. R. McMaster, Cookstown, Ont. Her little baby girl was suffering from the combined trials of indigestion, constipation and teething, and the mother's strength was severely taxed by the continuous care the child needed. A box of Baby's Own Tablets, however, made such an improvement that Mrs. McMaster is enthusiastic in their praise. "It gives me great pleasure to testify to the value of Baby's Own Tablets," she writes. "My baby of eight months was much troubled with constipation and indigestion, and was very restless at night. I procured a box of Baby's Own Tablets, and the results were so satisfactory that I have not used any other medicine since. My baby girl is now regular and healthy, and getting her teeth seems much easier, and she rests a great deal better. These Tablets are a great help to little ones when teething."

Baby's Own Tablets are guaranteed to contain no opiate or other harmful drug. They produce natural sleep, because they regulate the stomach, and bowels and comfort the nerves. They promptly cure such troubles as colic, sour stomach, constipation, diarrhoea, worms, indigestion and simple fever. They break up colds, prevent croup and allay the irritation accompanying the cutting of teeth. Dissolved in water, they can be given with absolute safety to the youngest infant. Sold by druggists, or sent postpaid at 25 cents a box, by addressing the Dr. Williams Medicine Co. Brockville, Ont. Free sample sent on application. Mention this paper.
