

Carpenters' Kidneys.

Carpentering is not an easy trade. The constant reaching up and down, the lifting and stooping over are all severe strains on the kidneys. No wonder a carpenter exclaimed, recently, that every time he drove a nail it seemed as though he was piercing his own back. He uses

DOAN'S Kidney Pills

now on the first sign of Backache and is able to follow his trade with comfort and profit.

"I have had kidney and urinary troubles for more than three years with severe pain in the small of my back and in both sides. I could not stoop without difficulty, and I had severe neuralgic pain in both temples. Seeing the advertisement of Doan's Kidney Pills, I got a box. They have given me quick relief, removing the pain from the back and sides and banishing the neuralgic pains from my head. The urinary difficulty is now entirely gone, I feel fresh and vigorous in the mornings, and am much stronger in every way since taking these pills." CLARENCE M. SEEDS, Carpenter and Builder, Trenton, Ont.

The Cow That Pays Best.

The question as to which is the most profitable cow is one that cannot be decided in any arbitrary manner. There are so many circumstances and contingencies to be taken into consideration, that, after all is said and written on the subject, each man must decide the question largely on his own judgment. He will find it necessary to consider the nature of his farm: the suitability of his buildings and implements: the cost of hired help if such is required: the proximity of a good market for his finished products, and many other details. The comparative advantages of beef-growing and dairying would probably be the first point considered by a farmer who was just about to make start in cattle raising. Men who have had long experience in either of these lines, are not likely to change to the other line, involving as it does, changes in farm routine, in variety and management of crops, in buildings and equipments, without a good deal of deliberation. That beef-production can be carried on with a smaller expenditure for labor and utensils is perhaps true, and it certainly does not require the constant attention to business that dairying entails.

Next comes the question of breed. It will, I think, be generally conceded by fair minded men that there is no "best" breed. Everything depends on circumstances. A breed that proves highly satisfactory in one district, may be found entirely unsuited to different environments. Only four breeds of cattle, viz.:—Shorthorns, Herefords, Galloways, and Aberdeen-Angus, have attained popularity in Canada, and only the first mentioned can be said to be generally distributed. The others may equal the Shorthorns for beef production, and even surpass them under certain conditions, but the superior milking qualities of the Shorthorns, and particularly of the grades, have given them an unequalled popularity among our farmers. Where feed is plentiful, and the country not too high or broken, they are likely to prove satisfactory beefers, and in addition will produce a fair amount of milk. The ease with which good bulls of this breed can be procured for grading purposes, is also an argument in its favor. Breeders of the other sorts are comparatively few, and the oppor-

tunity for choice is small when one desires to select a bull. In the colder parts of Canada, and on the bare pastures of the mountainous districts, the Galloways and West Highlanders, should prove serviceable on account of hardiness and activity.

Among the dairy breeds, the Ayrshires, Hoiteins, Jerseys, Guernseys and French Canadians are all held in considerable esteem. The latter have been almost unknown outside of the province of Quebec until the last year or two, but they are now attracting considerable attention. Under adverse circumstances, such as scanty pastures, lack of proper winter feed and care, etc., they will probably yield a greater percentage of profit than those breeds which have for generations been accustomed to good food and care. The Guernseys although highly thought of in the U. S. have never gained sufficient foothold in Canada to enable our farmers to judge their suitability for this country. Both they, and their close relatives the Jerseys, are especially adapted for the production of fancy butter or cream for a high priced city trade, and the majority of Canadian herds of these two breeds, are, I think, used for this purpose. The Ayrshires and Holsteins seem to be gaining in popularity among the general dairy farmers who support the cheese factories and creameries, and with the dairy Shorthorns, are likely to divide the greater part of the dairy field between them. The Holsteins are likely to do better on the level lands, with flush pastures and plenty of winter food, while the Ayrshires should, I think, find more favor on rolling or hilly lands, because of their great activity.

But, while certain well defined differences may characterize the various breeds, yet it may be well to remember that there is much greater difference between individual animals of the same breed than between different breeds. A good cow is a good cow no matter what her breed may be. Therefore let each man select the breed that he considers best suited to his conditions, and stick to it. Let him buy, or breed to, the best available bulls of that breed, and continue to grade up his herd to a higher degree of excellence year by year. The practice followed by some farmers of using bulls first of one breed and then of another, is fatal to all plans of building up a handsome uniform and profitable herd of grade cows, and that is just what most farmers require. The average man does not need pure bred females: in fact will do better with good grades. The breeders of pure bred stock, are, like the poet, born, not made. He must inherit a love for animals and an aptitude for handling them, otherwise his investment will prove unprofitable, and all his efforts a disappointment.

Defeat of a Paternal Purpose.

He had been hanging around my girl for some time, and I saw that unless something was done before long, he would soon become a member of the family. I had frowned upon the matter right from the start, as I didn't think he was good enough for my daughter. But from the beginning I simply constituted a hopeless minority, as my wife thought he was a perfect paragon. I thought I knew better, and when, one Sunday, I saw him at a ball game, I was sure of it.

I am a great lover of the American game, and Sunday is the only day that I have time to attend. I have always been very careful to keep from my wife the fact that I ever attended a game of ball on Sunday, as she is a very strict church member, and views with horror any one who seeks pleasure on the Sabbath. So, when I saw the young man there at the game, I thought I had found a way to bring her over to my side, knowing full well that if I did, his chances of becoming a member of the family were mighty slim. I hadn't the slightest idea that he had seen me there, and I thought I could startle an admission from him that would show him up in his true colors, and without danger to myself. So, when he called the other night, I said suddenly:

"Young man, where were you last Sunday?"

"Oh, I just sat two rows ahead of you," he answered easily.

That threw explanations back on me, and left me gasping for breath.

That Whoop!

Have you had it in your house? It's cough and cough and cough, and then that terrible whoop! Don't upset the stomach more by giving nauseous medicine.

Just let the child breathe-in the soothing vapor of Vapo-Cresolene. It goes right to the spot that's diseased. Relief is immediate, and in a very few days the cure is complete. You can't say the same of any other treatment. For asthma, catarrh, and colds it's equally good.

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, \$1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPOR-CRESOLENE CO., 180 Fulton St., New York, U.S.A.

"Fine sermon, wasn't it?" he added a moment later, coming to my rescue like the trump he is.

"Oh, you dear fellow, did you go to church and say nothing to me about it?" cried my wife. "How lovely! What was the text?"

I was simply incapable of answering, and again that young man filled the breach.

"Ninety and nine," said he.

The score wasn't quite as bad as that—almost, though. Say! he's the finest young man that ever drew breath, and he can have anything that belongs to me.—[Detroit Free Press.

Depressed and Discouraged

It is remarkable how thoroughly the whole system is thrown out of order when the nerves become weak and exhausted. All energy and ambition seems to disappear, the mind wanders, memory fails and despondency reigns supreme. Dr. Chase's Nerve Food puts new vim and energy into the brain, nerves and body, builds up the system and prevents paralysis, prostration and insanity.

Parson v. Lawyer.

A case was being tried recently respecting the soundness of a horse, in which a clergyman, not educated in the school of Tattersall, appeared as chief witness.

He was a bit confused in giving his evidence, and a blustering barrister, who examined him exclaimed:—

"Pray, sir, do you know the difference between a horse and a cow?"

"I acknowledge my ignorance," replied the clergyman; "I hardly know the difference between a horse and a cow, or a bull and a bully; only that a bull, I am told, has horns, and a bully"—bowing to the counsellor—"has none."

Dr. Parker to The King.

There was a striking scene in the City Temple a few days ago when, during the course of his sermon, the Rev. Joseph Parker, D. D., the well known Non-conformist minister, made a pointed reference to King Edward, which was loudly applauded by the congregation. Having alluded to public houses as "trap doors of hell," Dr. Parker referred to the King's recent brewing of beer while visiting Lord Burton.

"Pray for me," said the divine, "that I may speak delicately, loyally. If the King brews beer, what can be wrong in the subject drinking it? What the King does is likely to be imitated by others. His Majesty is more than a man, and must regard all questions from a Kingly viewpoint. If the King goes to a Sunday concert, as he did recently, he deals a deadly blow to the Englishman's Sunday. The King cannot attend a Nonconformist place of worship, but he can go to a Sunday concert." This remark called forth cries of "Shame," and Dr. Parker continued:—"If the King, who is the head of the church and defender of the faith, can violate the English Sunday, what can the people do but follow in his steps? I would rather give a great sum in gold than appear to be disloyal; but I cannot be disloyal to Christ, and it is better that these things should be said."

Loss of Flesh.

If you find yourself falling below normal weight there is danger. The use of fish oils can temporarily add fat, but will never build up healthy tissues. Dr. Chase's Nerve Food acts through the blood and nervous system and carries new life and energy to every nook and corner of the body. It regulates the various organs of the body, makes the appetite good, adds healthy flesh, and replaces the tissues wasted by disease. Naturally and gradually this food cure restores color to the cheeks, increases the weight of the body and thoroughly overcomes disease.

Mazzantini, the well-known Spanish bull-fighter, was a railway porter before he found his present occupation. Growing weary of his humble work he said: "I must make money. In Spain there are only two ways—to be a tenor or a bull-fighter. I can't sing, but I know I can kill a bull." He began in a small way, and soon became the greatest bull-killing artist in Spain.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY. F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

F. A. WERMAN, 736 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free. YOU CAN CURE YOURSELF AT HOME at a nominal cost. INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL.

March 4th, 1902.

Our life is too short to serve the ambition of a haughty prince of an usurping rebel; too little time to purchase great wealth to satisfy the pride of a vain-glorious fool, to trample upon all the enemies of our just or unjust interest; but for the obtaining of virtue, for the purchase of sobriety and modesty, for the actions of religion, God gives us time sufficient.—Jeremy Taylor.

"I see that Mrs. Updendight is addressing the Mothers' Scientific Club this afternoon on The Care of Children." "Speaking of children, who was that youngster that broke into Snoop's candy store last night and robbed the till?" "That—why, that was Mrs. Updendight's youngest."—Baltimore News.

"What does the M. D. after your name stand for, doctor?" asked young Mr. Toofunny, at the reception.

"Many debts," replied the physician, with a look that made Toofunny forget his venerable little joke, and feel that the doctor's bill had entered his soul.

Burdock BLOOD BITTERS.

Turns Bad Blood into Rich Red Blood.

This spring you will need something to take away that tired, listless feeling brought on by the system being clogged with impurities which have accumulated during the winter.

Burdock Blood Bitters is the remedy you require.

It has no equal as a spring medicine. It has been used by thousands for a quarter of a century with unequalled success.

HERE IS PROOF.

Mrs. J. T. Skine of Shigawake, Que., writes: "I have used Burdock Blood Bitters as a spring medicine for the past four years and don't think there is its equal. When I feel drowsy, tired and have no desire to eat I get a bottle of B.B.B. It purifies the blood and builds up the constitution better than any other remedy."
