Repairing Neatly Done

Never thought of such a
sign for a medicine did you?
Well, it's a good sign for
Scott's Emulsion. The body
has to be repaired like other
things and Scott's Emulsion is
the medicine that does it.

These poor bodies wear out
from worry, from over-work,
from disease. They get thin
and weak. Some of the new
ones are not well made—and
all of the old ones are racked
from long usage.

Scott's Emulsion fixes all
kinds. It does the work both
inside and out. It makes soft
bones hard, thin blood red,
weak lungs strong, hollow
places full. Only the best ma-
terials are used in the patching
and the patches don't show
through the new glow of health.

No one has to wait his turn.
You can do it yourself—you
and the bottle.

This picture represents
the Trade Mark of Scott's
Emulsion and is on the
wrapper of every bottle.

the 4th, and called it a success.

to the house for the winter, is able to be out.

LOWER WINDSOR.

The frequent rains have made the roads
almost useless for the hauling of heavy loads.
This makes it bad for those who have produce
yet to haul to the lumber camps or to the
railway.

Large quantities of hay and oats have been
hailed this winter to Rocky Brook, Mirami-
chi, and there distributed among the different
camps. A return trip takes five days.

William Foster, who was injured some
weeks ago in a runaway accident, is recover-
ing nicely.

The ladies knitting circle, which meets
every fortnight, held its last meeting at the
residence of John B. Craig. It was largely
attended by people of the surrounding
settlements.

The telephone line which runs through
here would be an excellent convenience for
this settlement, if we had a pay station here.
When the residents here got out the poles
for the line, it was on the understanding that
an instrument would be placed here; but as
yet none has been placed here, and there is
a good deal of disappointment over the fact.
There is some talk of another line being run
through here by another company, who may
treat us with more consideration.

RED BRIDGE.

The hills surrounding us here are bare as
summer, a rather remarkable case for so early
in the season. We have not enjoyed seeing
the ice run out of the stream here yet, al-
though it was expected to go at any time a
week or so ago; and for a few days it was
closely watched by many, but all they had
for it was a little start it made one afternoon,
enough to make those watching it think they
were going to see a big run of ice, as it would
have been had it gone just then. Now it is
not likely to amount to very much.

Hauling to and from the mill on both
sides of our stream, also to town, has been
well attended to of late, all trying to get
such work completed on the snow. A little
snow storm occasionally would tend to keep
times lively for a month or so longer.

Mrs. J. R. Dalling spent a few days with
her relatives in Greenville recently.

Mr. Queen, of Woodstock, passed through
here last week, on a business trip connected
with insurance.

London's, started for Butte, Mont., March
17th, where her husband is at present.

in Hodgdon, Me., returned home last week.

Mr. Chas. Brown spent a few days here
the guest of his sister, Mrs. Allen Wilson,
before returning to Boston.

Mr. John Vandine is home for a few days
from Tobique lumber woods, where he is
boss for Mr. Hale.

Ross Currie and sister, and T. W. Dalling
and sister drove to Long Settlement and
Centreville, Sat., March 8th.

Our place here is beginning to assume its
former aspect, of late, since Mr. Woodman
commenced business.

ARTHURETTE.

The Presbyterian supper held at Mr. R.
H. Beveridge's, Wednesday night, was
largely attended.

Mrs. Wesley Sisson, of Three Brooks, is
very ill with lumbago.

Murdock McKenzie, of Plaster Rock, made
a business trip through this place, Tuesday.

Miss Cassie Camber has gone to Hartland.

E. Turner made a flying trip to Plaster Rock,
Tuesday, accompanied by Allie Turner.

ill with La Grippe.

place to-day, en route to Woodstock.

There is talk of an Easter ball at Red
Rapids, on Easter Monday.

Fowler officiating clergyman. Mr. Givan was

sons and two daughters to mourn.

improving. Lila, his daughter is also doing
well. She hopes to be able to be around
soon.

Mrs. M. Carpenter is at her parents, Rich-
mond Corner, her Mother, Mrs. Geo. Parks
being quite ill.

Mrs. B. F. Chase's only brother Emmer-
son Shephard, and her sister Mrs. Duncan,
from Boston Mass, are at present visiting
her.

Ed. Ross, of Florenceville, left for the
west Monday. He will be much missed by
everybody, especially the base ball team, of
which Ed was the pitcher. He always did
his share in the game. We wish him good
luck.

CAREFUL MOTHERS.

Should Always be Prepared to Promptly
Treat the Minor Ailments of Their
Little Ones.

No mother can hope that her children will
escape all the minor ailments that afflict little
ones, and she should be prepared to treat
these ills instantly when the emergency
arises. At the same time mothers cannot be
too careful what they give their little ones in
the way of medicine. Doctors have long
protested against the use of the so-called
"soothing" preparations and they are still
used and with alarming frequency by moth-
ers. These preparations invariably contain
opiates which drug and stupefy the little
one into temporary quiet or sleep. For all
the minor ills of little ones there is no medi-
cine acts so speedily as Baby's Own Tablets
and they are sold under a guarantee to con-
tain no opiate or other harmful drugs. Thou-
sands of mothers now use no other medicine
for their little ones, and all who have tested
it speak of its prompt and safe action in the
warmest terms. Mrs. Geo. B. Kilgore, Well-
wood, Ont., says: "I have used Baby's Own
Tablets in my house for some time and I can
sincerely say that they are the best medicine
I have ever used for my little ones. The act
promptly and the results are always beneficial.
I think mothers should keep these Tablets
constantly in the house."

Baby's Own Tablets are a positive cure
for such troubles as colic, sour stomach, indi-
gestion, constipation, simple fevers, diarrhoea
and worms. They break up colds, prevent
croup, and allay the irritation accompanying
the cutting of teeth. Sold by druggists at
25 cents a box, or sent post paid on receipts
of price by addressing The Dr. Williams
Medicine Co., Brockville, Ont.

A Feat of Memory.

During a debate in the House, between
Gladstone and Disraeli, when the latter in
the course of his remarks had occasion to
quote from a recent speech made by his rival
upon some platform in the country, a dra-
matic scene was enacted, and is described by
Harry Furniss in his recent book, "Confes-
sions of a Cariatist."

Suddenly Mr. Gladstone started up and ex-
claimed: "I never said that in my life!"

Disraeli was silent, and putting his hands
behind his back, gazed apparently in blank
astonishment at the box in front of him.
Several seconds went by, but he never moved.
The members in the House looked from one
to the other, and many imagined that Dis-
raeli was merely waiting for his opponent to
apologize. But Mr Gladstone, who had a
habit, which he developed in later years, of
chattering volubly to his neighbor during any
interruption of this kind in which he was con-
cerned, made no sign. A minute passed, but
the sphinx did not move.

A minute and a quarter, but he was still
motionless.

A minute and a half of this silence seemed
as if it was an hour.

When the second minute was completed
the excitement in the House began to grow in-
tense. Disraeli seemed to be transfixed.

The branding of price--acts in the form of
a trust 'twixt buyer and seller--benefit is
mutual--it gives to the buyer an assurance
of value--to the seller the lever which en-
ables "FIT-REFORM" to be recognized
as the original Standard brand--tailor-
made garments ready to wear.

Branding of price originated

Dr. Chase's Ointment

Was he ill? Was the great man sulking?
What could this strange silence portend?
Two minutes and a half!

Some member rose and approached him,
but Disraeli raised his hands as if to deprecate
their interference, and they stole back
to their places, conscious that they were for-
bidden to interrupt. Then at last, when the
minute-hand of the clock had passed three
times round its course, the most remarkable
silence which the House had ever experienced
within living memory was broken as the
Tory leader slowly began once more to speak.

"Mr. Chairman," he said "and gentle-
man," and then word by word he repeated
the whole speech of Mr. Gladstone from
which he had made his quotation, duly intro-
ducing the particular passage which the
Liberal leader had denied. Then he paused
and looked across at his rival. The challenge
was not to be avoided, and Mr. Gladstone
bowed—he would have raised his hat did he
wear one in the House, which, in the phrase-
ology of the ring, was equivalent to throwing
up the sponge. Mr. Disraeli afterward in-
formed a friend that, working backward, he
had recalled the whole of Mr. Gladstone's
speech to his mind. Beginning at the dis-
puted quotation, he recovered the context
which led up to it, and so, step by step, the
entire oration. Then he was enabled to re-
peat it from the outset exactly as he had
read it.
