

### The Baby Sick?

Then probably it's a cold. Babies catch cold so easily and recover so slowly. Not slowly, however, when you use Vapo-Cresolene. Then a single night is all that is necessary for a cure. You just put some Cresolene in the vaporizer, light the lamp beneath, and place near the crib. While baby sleeps he breathes in the healing vapor. Cold loosens, inflamed membranes heal, and all trouble ceases. It's a perfect specific for whooping-cough and croup.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, \$1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

#### Mr. Doyle on The Boers.

Dr. A. Conan Doyle, in his recent book on the 'War in South Africa; its cause and conduct,' suggests an explanation for the long delays which Mr. Kruger interposed in the negotiations just before the war broke out.

'Those preparations for war which had been quietly going on even before the Jameson raid, were now being hurriedly perfected. For so small a state enormous sums were being spent upon military equipment. Cases of rifles and boxes of cartridges streamed into the arsenal, not only from Delagoa Bay, but even, to the indignation of the English colonists, through Capetown and Port Elizabeth. Huge packing-cases, marked 'Agricultural Instruments' and 'Mining Machinery,' arrived from Germany and France, to find their places in the forts of Johannesburg or Pretoria. As early as May the Orange Free State President, who was looked upon by the simple and trustful British as the honest leader who was about to arrange a peace, was writing to Grobler, the Transvaal official, claiming his share of the twenty-five million cartridges which had then been imported. This was the man who was posing as mediator between the two parties a fortnight later at Bloemfontein. . . . For three weeks and more, during which Mr. Kruger was silent, these preparations went on more energetically and more openly.

In reviewing the book the London 'Chronicle' says: In view of Botha's intimation to Lord Kitchener that the families of surrendered burghers would be left on the veldt, and their houses burnt over them, we can better realize the attacks to which the British government would have been subjected had they not formed the camps of refuge. Dr. Doyle's summary of the actual conduct of the camps is excellent, and his concluding words on the subject are remarkable:

The portrait of an emaciated child has been circulated upon the Continent and in the United States as a proof positive of the horrors of the concentration system. It is only too probable that there are many emaciated children in the camps, for they usually arrive in that condition. This particular portrait, however, was, as I am credibly informed, taken by the British authorities on the occasion of the criminal trial of the mother for the ill-usage of the child. The incident is characteristic of the unscrupulous tactics which have been used from the beginning to poison the mind of the world against Great Britain.

Dr. Doyle's concluding chapters on the good discipline of the British soldiers and the

absence of any ruthless rigor on the part of the military authorities ought to carry conviction, for he fortifies himself at every point with the testimony of military attaches and other independent witnesses. He carries the war, like Lord Rosebery, into the enemy's camp, and if there is to be talk about atrocities, turns his attention to the other side. The chapter in which he marshals the evidence on this point is very forcible and very painful. It ought to warn some of our revilers against the danger of using two-edged weapons. Dr. Doyle ends upon a note of confidence, such as his careful consideration of the facts may well have inspired:

'Surely the day will come when truth will prevail, if only for the reason that the sources of corruption will run dry. It is difficult to imagine that any permanent policy can ever be upheld by falsehood. When that day does come, and the nations of Europe see how they have been hoodwinked and made tools of by a few artful and unscrupulous men, it is possible that a tardy justice will be done to the dignity and inflexible resolution which Great Britain has shown throughout. Until the dawn breaks we can but go upon our way, looking neither to the right nor to the left, but keeping our eyes fixed ever upon one great object—a South Africa in which there shall never again be strife, and in which Boer and Briton shall enjoy the same rights and the same liberties, with a common law to shield them and a common love of their own fatherland to weld them into one united nation.'

### Ten Years of Blessed Work and Glorious Victories.

### Paine's Celery Compound

Has Brought Health and New Life to the Sick and Diseased in Every Part of the Civilized World.

For the last ten years the work of Paine's Celery Compound has been a blessed and cheering one to men and women of every rank in society. In no one case has the great medicine failed to benefit, an where it has been used promptly, it has in every case brought a cure.

The blessed results that spring from the use of Paine's Celery Compound are not confined to this Canada of ours. The great life-giving medicine has been sent to every quarter of the civilized world, and has cured the sick, restored the weak and depressed to health and strength, and caused tens of thousands to live who failed to find health in worthless prescriptions, sarsaparillas, nerve and pills. Paine's Celery Compound has cured when all other remedies failed.

It is to this best of all medicines, Paine's Celery Compound, that we would direct the attention to every man and woman suffering from weakness, general debility, rheumatism, neuralgia, heart trouble, dyspepsia, anemia, blood diseases, liver complaint and kidney trouble. Thousands of grateful letters have poured in testifying to wonderful and permanent cures.

It is foolish and criminal to delay the use of such a disease banisher when others have so clearly demonstrated its value; when many of your friends and neighbors have been made well by its use. The health-giving virtues are so eminently great that the ablest physicians are prescribing Paine's Celery Compound daily for the sick.

If you are weak physically, in the grasp of disease, or simply feeling out-of-sorts, irritable, sleepless or despondent, try one bottle of Paine's Celery Compound, and note well the magical effects.

#### Lord Roberts's Curiosity.

(New York 'Times'.)

Richard Harding Davis relates this incident which happened while he was acting as correspondent during the English-Boer war:

A regiment of Scottish Highlanders, noted for their bravery in action, during the heat of one scrap, were suddenly seen to break ranks and run in all directions. The officers as well shared in the stampede, and apparently made no attempts to urge the men under them into line. Their behavior was a surprise to everybody on the field, and after the fight was over the colonel of the regiment was summoned before Lord Roberts.

'What the deuce was the matter with your regiment?' asked 'Bobs.'

'Well,' replied the colonel, 'we are wearing kilts, you know, and we steered ourselves into a field full of wasps' nests.'

#### Comes That Way.

A young minister, who was naturally of a shy disposition, was rather embarrassed at his first marriage ceremony, and unwittingly reversed the usual order of the service, thus making the bridegroom promise to love and obey his blushing bride. The error passed unnoticed at the time, but shortly afterward it dawned upon the father of the bride that a mistake had occurred, and he said to the minister—

'I believe, Mr. —, you have made John promise to love and obey my daughter. Ah, well,' he added, after a pause, and with a shy look at his better half, 'I suppose it won't matter much; it generally comes to that, any way.'

Butter Paper, printed and unprinted, in one and two pound wrappers, at this office.

## DEXTER PUNG.

100 IN STOCK AND TO ARRIVE.

This splendid Dexter Pung has been built specially to our order. The wood work, the iron work, the trimming, the painting, the style and general make-up are of the very best and quite up-to-date.

If you will look it over you will soon be convinced these goods are just as represented.

The prices are right, too. Also, other styles of pungs, both one and two-seated, and Sleighs and Robes.

Balmain Bros., Woodstock, Nov. 20, 1901.

## More Home Knitters Wanted

THE HOME MONEY MAKER

Machine weighs 17 pounds. It is more wonderful than a sewing machine, just as durable, and higher speed.

To Work at Their Homes Under the Direction of The GLASGOW WOOLLEN CO. 37 MELINDA ST., TORONTO, To Fill Large Contracts—Good Wages Easily Earned.

A Pair in 30 Minutes

We want a few more workers in this locality, at once, and in order to secure your co-operation without the delay of correspondence, we herewith explain our full plan in this advertisement. The work is simple, and the Machine is easily operated, and with the Guide, requires no teacher. If you wish to join our staff of Workers let us hear from you promptly with the Contract, order form, and remittance, as a guarantee, and we will send machine and outfit to begin work at once.

### OUR METHOD OF DOING BUSINESS

We wish to secure the services of families to do knitting for us in their homes. Our method is the same as adopted in England. We are the introducers of this plan and the largest knitting concern in Canada.

After long experience, we have been able to produce an Automatic Machine by which all kinds of seamless knitting is now done by our Family Machine, thereby enabling anyone of ordinary intelligence to quickly learn to do the work from the instruction Guide. All we require is that you use the machine according to directions. The Machine being made expressly for this purpose, and the operation so simple, it cannot possibly make a mistake in its work.

The great demand now is for Bicycle Stockings, Woodmen's Socks, and Motormen's Mittens, and as we are unable to supply the demand, have taken this method of advertising for more help.

The large export trade to the North-west Territories, British Columbia, and the British Colonies, furnishes an unlimited demand for our goods, and, with the combined co-operation of the many families we are employing, together with the large amount of knitting we are able to turn out, by which we save rents, insurance, interest on capital, etc., enables us to undersell any manufacturers of this class of goods, and we have said for all the knitting we can have turned out.

The price we pay for finished bicycle stockings is \$10.00 per hundred, or at the rate of 10c per pair; woodmen's socks, 5c and motormen's mittens, 12c a pair. All other work in proportion to size.

The machine can be operated by any one of a family, and at our prices any energetic family should be able to sustain themselves comfortably, and in time be a source of independent comfort.

Our plan is to send out each machine to beginners with a sock or stocking partially knitted, and remaining in the machine ready to be continued, and also enough yarn to knit one pair of sample socks or stockings, and a simple and complete instruction Guide, showing how the work is to be done. When the samples have been finished and returned to us satisfactory, we send a quantity of yarn, which you knit and return likewise when finished. We prepay charges on our work one way, and our workers pay return charges. The work, as we have stated, is simple and readily done, the machine having a capacity of ten thousand stitches a minute. We have many persons now in our employ who can knit from twenty-five to thirty pairs of socks or stockings a day, and where the time of a family is devoted to the work, you can readily see that \$15.00 or \$20.00 per week can be easily earned.

We furnish our workers all the materials, yarn, etc., free, and everything that is necessary for the work. We are furnishing the machines only for the exclusive use of those desiring to take employment with us, who must, in order to become a member, send us this Contract Order Form, properly signed by them, and at least one good reference, and remittance accordingly, to give us the necessary assurance that the quantities of valuable yarn we may send from time to time will not be wasted or misappropriated. Our interests are mutual, and this confidence must be established and maintained for work, so do not ask us to deviate from our terms, as we cannot make a distinction with one and not another; besides, we are doing an extensive business, and must be governed by business principles.

The money value of the machine is \$15, and positively will not be sold to any others than those who will agree to do knitting for us.

If at any time after you commence, and have done an amount of work equal to the purchase price, and wish to discontinue, we will take back machine and refund the amount paid for same, after deducting cost of our expense only.

There is a Large Demand by the Trade for this class of work. Our workers can depend upon it year after year, and if you engage with us (whole or spare time) we will keep you supplied with work as long as you do it satisfactorily for us and return it promptly. We entrust our workers with large quantities of valuable yarn, and as we give

references as to our honesty and integrity, we must ask you to do the same, in order that we may know with whom we are dealing.

We have, in as brief a manner as possible, endeavored to show you what our work is, and we simply say as to the machine, it is just what we represent it to be, and will positively do everything we claim for it, or refund the money. Each machine, securely packed with an outfit, is set up for work, thoroughly tested, and a sock or stocking partially engaged with us, it will be necessary to send us Cash Contract Order Form, properly signed by you, and at least one good reference, together with the remittance, accordingly, upon receipt of which we will forward machine and outfit ready to commence. Respectfully yours,

GLASGOW WOOLLEN CO., 37 Melinda Street, Toronto

Our References—Express Companies, Banks, or Toronto Business Houses.

If you wish to examine the machine and see the material before undertaking the work, you can do so by sending \$2.00 as a guarantee of good faith, and to defray expense of shipping, and we will send everything to your nearest express company, leaving a balance of twelve dollars to pay the agent and 25 cents for the return charges on the money to us.

We are so frequently and unnecessarily asked if one can learn to knit without a teacher. We say, Yes; it requires no teacher; any person of ordinary intelligence who can read the instruction Guide can learn to knit at once.

#### ORDER FORM

\$15.00 Cash Contract Order Form.

To the Glasgow Woollen Co., 37 Melinda St., Toronto. Gentlemen—I desire to do the work as described in this advertisement, and enclose \$15 to pay for one Automatic Knitting Machine, together with material, instructions, and everything necessary for the work, the same to be sent to me by Express, CHARGES PREPAID.

It is understood and agreed that any time after I have done an amount of work equal to the purchase price, \$15, and wish to discontinue, that the Glasgow Woollen Co. will take back the machine and outfit, and after deducting their expense, refund me the amount paid for same.

Sender or head of family (if possible) must sign here:

### PEOPLE RECOVERING

From Pneumonia, Typhoid or Scarlet Fever, Diphtheria, La Grippe or any Serious Sickness

Require the Nerve Toning, Blood Enriching, Heart Sustaining Action of Milburn's Heart and Nerve Pills.

It is well known that after any serious illness the heart and nerves are extremely weak and the blood greatly impoverished. For these conditions there is no remedy equals Milburn's Heart and Nerve Pills. It restores all the vital forces of the body which disease has impaired and weakened.

Mr. T. Barnicott, Aylmer, Ont., says: "About a year ago I had a severe attack of La Grippe which left my system in an exhausted condition. I could not regain strength and was very nervous and sleepless at night, and got up in the morning as tired as when I went to bed."

"I had no energy and was in a miserable state of health. "Milburn's Heart and Nerve Pills, which I got at Richard's Drug Store here, changed me from a condition of misery to good health. They built up my system, strengthened my nerves, restored brisk circulation of my blood, and made a new man of me."

"I heartily recommend them to any one suffering from the after effects of Grippe, or any other severe illness."
