Two Tenement Houses

situated on Water street, both rented. They will pay good interest on the investment.

One Large House On Main Street South

suitable for a boarding house, or will accommodate three tenants, or is a splendid stand for buying, storing, and shipping country produce.

A Neat, Comfortable Home

for a railway man, or would be a good investment for anyone as it is always rented. Is situated on Broadway near Woodstock yard, in good repair and is not expensive.

MY DWELLING HOUSE, BROADWAY,

on one of the most desirable lots in town 76x200, high and dry, bounded front and rear by a public street, well built and exceptionally warm in winter. No better location in Woodstock.

They are all bargains. I will sell the following valuable properties because my constantly increasing wholesale and retail business prevents me giving them the attention they require.

A Farm Containing 92 Acres

within two miles of the town so situated as to give a fine local market. Everything raised on this farm can be sold at highest prices to supply the demand while the roads are impassable at a greater distance. For a man in the milk business or market gardening this farm is a winner.

BURNT LAND BROOK.

Messrs. Griffith and Hall spent Sunday at Johnston's hotel. Wilson Johnston and family were the guests of his father last Sunday. Miss Sadie Everett has gone to spend a few weeks at Plaster Rock. Several teams passed through here last week and this, from the lumber woods, en route home. Millidge Lockard, who has been quite ill from a severe cold, has somewhat recovered. W. Malaney is unable to work owing to an accident to his knee. Misses Annie Johnson and Susie Watson spent Saturday with friends at Long Island. Charles Simons, of Riley Brook, called on friends here, on his return from Plaster Rock. Mrs. John Jenkins, and Miss Inez Jenkins, have returned to their home in this place.

NORTHAMPTON.

The fine weather and good roads are much appreciated by our farmers. The cut of spruce logs promises to be heavier than any previous winter, and the quality so far is excellent. Offers are good, ranging from \$10.25 to \$10.50 for merchantable, and \$7.65 to \$8.00 for battens. Cordwood is out of the question, and is chiefly confined to those living within two or three miles of the town. As yet a very little green wood has been cut, and as the snow is getting deep, the possibilities are that the cut will be unusually small. Farmers will soon have to resort to winter feeding of stock, and the sooner the better for them. Some are getting a fair start now. The prices paid for pork, butter, eggs, etc., enable them to feed for results. Sickness seems to be on the decline. Mr. and Mrs. Edmon Robinson are overjoyed at the recovery of their little daughter. Much credit is due Miss Ivy Hale, of Grafton, a competent nurse employed upon the case. A great deal of damage was done by dogs in a fine flock of sheep owned by Chas. F.

Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

Rogers, some cases proving fatal. The periodical visits of a popular Southampton bachelor causes some alarm among the boys. Opposition is the life of trade. The funeral of the late Jas. For Art's Sake.

Mr. Boughton, the English artist, while sketching in the Alps, was one day in search of a suitable background of dark pines for a picture he had planned. He found at last the precise situation he was seeking, and best of all, says 'Tit-Bits,' there happened to be a pretty detail in the figure of an old woman in the foreground.

"I asked the old lady," said Mr. Boughton, "to remain seated until I had made a sketch of her. She assented, but in a few minutes asked me how long I should be. 'Only about a quarter of an hour,' I answered, reassuringly.

"Three minutes or so later she again asked me—this time with manifest anxiety—if I should be much longer. 'On, not long,' I answered. 'But why do you ask so anxiously?' 'Oh, it's nothing,' she sadly answered, 'only I'm sitting on an ant hill.'"

Harmony in Colours.

An error which the inexperienced house-furnisher often makes is to put two reds of different tones in rooms that open into each other. A hall, perhaps, will have terra cotta on the walls, and there will be red in the dining-room to which it leads. This is wrong. Put a negative color on the hall, a tone of buff or mastic with a small broken figure in self-tones, that there may be no suggestion or strong contrast to the red of the adjoining room. If blue is to be used in the dining-room, not too light a yellow may be put on the hall. It is these jarring arrangements in adjacent rooms that may destroy wholly an effect in either apartment that by itself or properly complemented would be altogether charming.

Brown:—Did you take any holidays this year Jones?
Jones:—Yes, of course.

Brown:—How did you manage your business while you were away?
Jones:—Oh, I just took my advertisement out of the papers until I returned, so there was no business to manage. Capital idea, wasn't it?—Tit-Bits.
