### FOR EVERY MOTHER.

A Manitoba Mother Gives Practical Advice on the Care of Babies.

It is well known that nearly all infant troubles spring from a disordered stomach. Indigestion in a child will cause at first peevishness and sleeplessness, but other more serious troubles will follow fast, such as colic or cramps, constipation in some cases diarrhoea in others, with fatal results in many cases. The mother who neglects having constantly at hand the means of treating these ills takes an awful risk. Mrs. R. L. McMillan, Logoch, Man., is one mother who is particularly well fitted to give advice on the care of babies. Her standard medicine for the minor ailment of her little ones is Baby's Own Tablets, and she says:—"They are the best medicine I have ever used for infant ailments. I have given them to my baby for indigestion and stomach trouble and they are prompt and thorough in making a cure. No mother should be a single day without the tablets in the house."

Baby's Own Tablets are for children of all ages, and will cure such troubles as constipation, colic, sour stomach, diarrhoea and simple fevers. They are invaluable for teething children and will break up colds and prevent croup. Guaranteed to contain no opiate or other harmful drug. Dissolved in water they can be given with perfect safety to a new-born babe. Sold by all dealers in medicine or sent post paid at 25 cents a box by addressing the Dr. Williams' Medicine Co., Brockville, Ont.
