Golf Club Meeting.

The regular annual meeting of the Woodstock Golf Club was held in the opera house building, on Monday evening last.

The minutes of the last meeting were read and approved, and the financial standing of the club was found to be in a satisfactory condition.

A pleasant feature of the meeting was the presentation of the Dalling cup to B. M. Macleod, the winner this year. The presentation was made by Rev. G. D. Ireland, who won the cup the year previous.

The retiring president, H. P. Baird, made a few remarks bearing on the past year's history of the club. He said a stranger had spoken to him of the excellent links we had here, superior to any in the province for beauty and situation. The people of the town did not realize the value of such a place of amusement. The past year had been a pleasant one, and he hoped the coming season would be fully as prosperous. He thanked the ladies for the able assistance they had given in all matters in connection with the club.

Wm. Dibblee, the newly elected president, took the chair, and thanked those present for the honor they had conferred on him, and while he did not have much time to devote to an office of this kind, he felt that with the able assistance he would receive from the club members everything would run along smoothly as in the past.

The following officers were elected for the ensuing year:—

President—William Dibblee, Vice-President—Mrs. A. D. Holyoke, Sec. Treas.—B. M. Macleod, Gen. Com.—Dr. T. F. Sprague, W. P. Jones, J. S. Creighton, Mrs. R. V. Dimock, Miss A. G. Connell, Miss Blanch Dibblee, Greens Com.—Dr. Sprague, N. R. Loane, J. S. Creighton, House Com.—Miss Marion Rankin, A. H. M. Hay, Geo. Mitchell.

The Festival Chorus.

Everything is looking most favorable for a large audience at the coming concert on March 18th. Persons wishing seats should not wait until the last moment, but secure them early and avoid the rush. The artists which Prof. Chapman will bring here are professional musicians, such as have never been heard in this town. This part of the concert will alone be worth the price of admission.

Looking at the concert from another standpoint, it is going to be of great benefit to the church choir and musical people of the town; and the larger the audience the better will be the prospects for the continuation of the local chorus. The chorus music is of a high order, and will, no doubt, be much enjoyed by those who patronize the concert. Don't forget the date—March 18th.

To the Public:

There is no profession or occupation, excepting perhaps that of a doctor, where knowledge, skill and experience count for more than they do in that of the compounding pharmacist. The simplest mistake—the taking up of the wrong weight, or the taking down of the wrong bottle—may be followed by the most serious, and even fatal, results. It is therefore, that we wish to call particular attention to the Prescription Department in our establishment. Our laboratory is exceptionally appointed for this kind of work, and under no circumstances is an inexperienced person allowed to put up a prescription. Anyone sending us a prescription to be compounded may rest assured that only the purest of drugs will be used and the most exacting care exercised in its preparation.

A MOTHER'S ADVICE.

She Tells How Little Ones Can be Kept Well, Contented and Happy.

When baby is cross and irritable you may rest assured he is not well, even if you are unable to see any symptoms of his illness other than fretfulness. It is not natural for a baby to be cross and he is not so without reason. He has no other way of telling his troubles than by crossness and crying. When baby is cross give him Baby's Own Tablets, and they will soon make him good-natured and happy, because they will cool his hot little mouth, ease his sour little stomach, and help his obstinate little teeth through painlessly. These Tablets are just what every mother needs for her little ones—and for her older children too.

Mrs. Clarence McKay, Roseway, N. S., says:—"I find Baby's Own Tablets the best medicine I have ever used for my little ones. When my baby was four months old he was very much troubled with indigestion. He would vomit his food as soon as he took it, no matter what I gave him and he seemed to be always hungry and kept thin and delicate. He also suffered from constipation. After giving him the Tablets a few days the vomiting ceased and his bowels became regular, and I must say that since I began the use of the Tablets I have had less trouble with this baby than I had with any of the rest of my children." Every mother should keep Baby's Own Tablets in the house at all times—there is no telling when an emergency may arise.

These Tablets are a certain cure for all the minor ailments of little ones such as constipation, indigestion, colic, diarrhoea, sour stomach, and simple fever. They break up colds, prevent croup, and allay the irritation accompanying the cutting of teeth. They are sold under a guarantee to contain no opiate or other harmful drug, and dissolved in water may be given with absolute safety to the youngest infant. Sold by all druggists at 25 cents a box, or sent post paid on receipt of price by addressing the Dr. Williams' Medicine Co., Brockville, Ont.
