Miss Ruth Brooks, who has been visiting her uncle, Allen Brooks at Crystall Falls, Me., returned home on Saturday.

Rev. G. E. Orser spent a few days in the village this week, calling on friends.

HOT WEATHER AILMENTS.

More Little Ones Die During Hot Weather Months Than at Any Other Season.

It is a lamentable fact that thousands of little ones die from hot weather ailments, whose lives might be spared if mothers had at hand the proper remedy to administer promptly. Hot weather ailments come suddenly, and unless promptly treated, a precious little life may be lost in a few hours. Baby's Own Tablets promptly check and cure diarrhoea, stomach troubles, cholera infantum and other hot weather ailments. They also give relief to teething troubles, and prevent the ailments that come at this period. Every prudent mother should keep a box of Baby's Own Tablets in the house at all times. No other medicine acts so promptly and so surely, and the Tablets are guaranteed to contain no opiate or harmful drug. They always do good and cannot possibly do harm, and crushed to a powder you can give them to the smallest, sickliest infant. Mrs. Geo. Foote, St. Thomas, Ont., says: "My baby was troubled with diarrhoea and was very cross and restless, and got so little sleep I hardly knew what to do with her. I got a box of Baby's Own Tablets and after giving her some her bowels became regular and she could sleep well. I think the Tablets a splendid medicine."

You can get the Tablets at any drug store or by mail post paid at 25 cents a box by writing to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

TEACHER WANTED.

A first or second class teacher at Mount Pleasant District No. 4, to take school at beginning of term. Apply stating salary to SAMUEL CRANDALL, MRE, secretary to Trustees, Mount Pleasant, Car. Co., N. B., July 21st, 1902.

The Growing Popularity of the Farmers' Institute.

In view of the great success of the Farmers' Institute as a means of education in Ontario the Dominion Department of Agriculture has endeavored to co-operate with the various local departments in establishing and improving similar systems in their respective provinces. Trained speakers have been sent to assist in the work in other provinces, and the best available men in these provinces have been pressed into service, not only in their own province, but in others as well. By sending able and observant men from one province to another in this way we hope to get together a thoroughly capable corps of Institute workers, familiar with the agricultural situation and requirements in all parts of Canada.

Prof. E. J. McMillan, of Charlottetown, P. E. I., Superintendent of Farmers' Institutes, etc., has prepared a sketch of the work already accomplished in Prince Edward Island, which may be of interest and benefit to those interested in agricultural education in other provinces. According to Prof. McMillan:—"The organization of Farmers' Institutes in Prince Edward Island was first undertaken in June, 1901. At that time the Hon. Benjamin Rogers, Commissioner of Agriculture, assisted by the writer and two experienced Institute workers supplied by the Department of Agriculture at Ottawa, held meetings of farmers in the different sections of the province, for the purpose of discussing the advantages of the Institute system. As a result of these meetings the organization of twenty Institutes was completed before the end of the year."

The Farmers' Institute system of Prince Edward Island is twofold in its aims. It seeks to combine the educational features of the Ontario system with the facilities for dealing in live stock afforded by the old agricultural societies plan. Each organization is a Farmers' Institute and Agricultural Society combined. A government grant of \$50.00 is paid annually to each society, which has at least fifty members enrolled, and collects \$40.00 per year in membership fees. A sum amounting to \$1,000.00 was expended in this way last year. The total membership up to December 31st, 1901, was 1624, and the amount subscribed in fees was \$911.50. The receipts of the Institutes from all sources amounted to nearly \$2,000. This money was expended in the purchase of pure bred stock and in defraying the expenses of lecturers. Thirty three meetings, chiefly for purposes of organization were held during the first year. At the beginning of the present year a regular series of institute meetings was arranged and carried out successfully. Several speakers were employed and various agricultural topics were brought up for discussion, chief among which were, Dairying, Hog-raising and chicken-fattening. As all of these are live industries at present, the interest manifested in the meetings was great. The attendance throughout was good, fully 2,000 people being brought in contact with the lecturers, who were not slow to take every opportunity to impart lessons of practical value. Already the influence of this public discussion of agricultural questions is shown in an increased interest in everything which makes for the advancement of the calling. The demand for pure bred stock for breeding purposes, which has more than doubled during the past year, may be cited as one instance of a benefit already derived from the Institutes. It may also be shown that an advancement has taken place along other lines. The people realize this and are anxious that more educational meetings should be held."

During the month of July a series of mid-summer lectures were given before the Institutes by Prof. H. H. Dean and Mr. D. Drummond, representing the Dominion Department of Agriculture, besides several local speakers. With one or two exceptions where the advertising failed, they were a grand success. The farmers turned out well and manifested a deep interest in the meetings. Twenty-seven Institutes were visited, and an afternoon and evening meeting held at each. The average attendance at the afternoon meeting was between 50 and 60, while in some instances there were over 100 people present. The illustrated lectures on dairy cattle which formed the chief feature of these meetings were entirely new to our farmers and were very well received. The average attendance at the evening meetings was fully 100. In these too, a marked interest was taken, and free discussion indulged in, until in many instances it was 11 o'clock before the meeting could be brought to a close. Prof. Dean, as was expected, has done excellent work. It seems to me that we were very fortunate in securing his services just at this time, as the dairying business has not been growing much of late, and I feel sure that we may have a revival of the industry wherever he has gone. Mr. Drummond, too, has given excellent satisfaction. The people were very favorably impressed with his work in live stock, and in other lines. We should like to have both gentlemen again. The impressions created by these meetings has been very favorable and I am confident that the Institutes here have been much strengthened as a

result. That the close of the present year will witness a considerable growth in the Institute system is already assured. Six new organizations have been completed thus far this year, and it is probable that more will be added before it closes. With an increasing membership and a lively interest manifested in the work by its members, the Farmers' Institute system should soon become a factor in the progress of Agriculture in this province."

F. W. HODSON,  
Live Stock Commissioner.

ALMOST IN DESPAIR

THE CONDITION OF MRS. JOHN SHOTT, OF ORANGEVILLE.

Suffered From a Burning Sensation in the Stomach—Food Becomes Distasteful and She Grew Weak and Despondent.

From the Sun, Orangeville, Ont.

The Sun is enabled this week through the courtesy of Mrs. John Shott, a lady well known and much esteemed by many of the residents of Orangeville, to give the particulars of another of those cures that have made Dr. Williams' Pink Pills a household remedy throughout the civilized world. Mrs. Shott, in conversation with our reporter, said:—"About three years ago, while living in Ingersoll, I was a great sufferer from dyspepsia. The trouble first began with severe headaches, dizziness and sometimes vomiting. Next I suffered continually from a burning sensation in my stomach; food distressed me; I did not sleep well at night; lost flesh and became very weak. I was continually doctoring but it did me no good. In fact I was gradually growing worse and despaired of ever being well again. One day a friend who called to see me strongly advised me to try Dr. Williams' Pink Pills. She spoke so highly of them that I decided to take her advice, and I soon discovered that they were not like the other medicines I had been taking and that I had at last found something to help me. I continued using the pills for perhaps a couple of months, when I found myself fully restored to health. I have always since enjoyed my meals with relish and have had no return of the trouble. With my experience I feel certain that if other sufferers will give Dr. Williams' Pink Pills a fair trial they will find a certain cure."

Dr. Williams' Pink Pills enrich and nourish the blood and strengthen the nerves. It is thus that they cure such troubles as dyspepsia, kidney ailments, rheumatism, partial paralysis, heart troubles, 'St. Vitus' dance and the ailments that make the lives of so many women a source of misery. These pills never fail to drive away pain, bring a glow of health to the whole body and make despondent men and women bright, active and strong. Do not take any pills without the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around the box. Sold by all medicine dealers or sent post paid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams Medicine Co., Brockville, Ont.

A Close Call.

On Wednesday Evening, last, at the College Grounds, the Druggists Base Ball Team had a close call from a shut out, while playing against the Grammar School Team. For four innings not a Druggist crossed home plate for a score, while the College boys ran in 10 scores. By an error, a stolen base, and a hit the Druggists obtained their only score in the fifth. The Grammar School boys obtained one more score in their part of the fifth making a total of 11 to the Druggists' 1. Gordon Connell and Will Cortney, were in the points for the Druggists, Connell striking out 6 men. Lewis Milmore pitched for the Grammar School and struck out 12 men. Geo. Mercer, the regular Grammar School catcher, was behind the bat.

The score by innings was as follows:—  
Grammar School:.....2 0 3 5 1—11.  
Druggists:.....0 0 0 1—1.

The Druggists and Bankers will play at the College Grounds this evening, weather permitting.
