KNOXFORD.

Owing to the unsettled state of the weather, harvesting has been a big drag as haying.

A good quantity still remains outdoors, but if fine weather should favour us for a few

days, next week would see about the last of the grain in. Help is very scarce, both in-

doors and outside; almost impossible to get help of any sort. Very little fall ploughing

has been done except by men who had plenty of help in their own families. The apple

crop was a bountiful one but much of the early fruit wasted for want of fine weather to

pick them in. Pigs and cows got many a treat. Rust struck potatoes early and some

varieties give very poor yield. Many are rotting in the ground. Hay and grains of all

kinds are abundant and of good quality, but garden stuff is almost a failure.

On Saturday evening nearly fifty relatives and friends assembled at the home of Mr. and Mrs. Edgar Bartley to congratulate them

on the twentieth anniversary of wedded bliss. A bountiful supper was enjoyed and an ex-

amination of the gifts showed the wisdom of the selections in which were combined both

beauty and usefulness. The following is a list with the names of the donors:—Mr and

Mrs Harding Fulton, cold water sett; Mrs. Samuel Fulton, large pitcher; Mr Harvey

Fulton, glass butter dish; Mr and Mrs Cyrus Kinney, china sauce set; Melvin Kinney,

china cake plate; Mr and Mrs Wm Margison, large pitcher and bowl; Mr and Mrs David

Kilpatrick, china centre sett; Mr and Mrs Haines and Mrs Boone, cake plate and

pitcher; Mr and Mrs Wm. Reid, silver butter dish; Mr and Mrs Fred Williams \$1.00; Mr

and Mrs Jas Gallupe, Mr and Mrs Whitfield Gallupe, and Miss Florence Gallupe, silver

pickle dish and pitcher; Douglas Jenkins, glass centre sett; Mrs Douglas Margison,

fruit dish; Mrs Joseph Margison, souvenir; Wills Burke and Miss Luella Hovey, glass

berry sett; Frank Esty and Miss Annie Margison, silver pickle dish; Stanley Burke

and Miss Beatrice Burke, linen table cloth; Robert Margison, chocolate pot; Miss Alma

year, has been a great sufferer from rheumatism. He is sincerely mourned by a wife and

quinsy but is now convalescent.

Mrs. Robt. Jones. Chester Wallace of the same place is also a guest of Mrs. Knox, his

cousin.

BENTON.

Wedding bells were heard again last week here when Louise daughter of S. Anderson,

and Fred Leighton were wedded by The Rev. C. N. Barton at the residence of the bride's grandmother. The presents were numerous and handsome. Mr. and Mrs. Leighton will make their future home in Benton.

The thanksgiving service was held in the Episcopal church on Sunday last. The church was tastefully decorated with the fruits of harvest.

schools here.

A MOTHER'S PRAISE

FOR THE MEDICINE THAT RESTORED HER DAUGHTER'S HEALTH.

She Had Suffered from Severe Headaches, Vomiting and Extreme Nervousness, and Feared She Would Not Regain Her Strength.

Every prudent mother will watch carefully the health of her young daughter at the

period when she is passing from girlhood to womanhood. This period is the most critical

in the young girl's life. It is then that she becomes pale, easily tired and troubled with

headaches, without apparent cause. The blood becomes thin and watery, and unless

prompt steps are taken to restore it to its rich, red health giving condition, decline, and

perhaps consumption will follow. Dr. Williams' Pink Pills have cured more pale,

anaemic, easily tired girls than any other medicine, and mothers will make no mistake

if they insist upon their growing daughters taking these pills from time to time. Mrs.

P. Gage, a lady well known in Rowanston, Que., tells what these pills have done for her

daughter. She says:—"My daughter, Catherine, aged fourteen years, was suffering

greatly with severe headaches, vomiting and nervousness. She was so completely run

down that we feared that she would not recover her strength. We tried several medi-

cines, but they did not seem to do her any good. I then thought we would try Dr.

Williams' Pink Pills, and the result has been up to our fondest hopes. She has fully re-

covered her health and strength, and I shall be very glad if this experience will help some

other suffering girl regain her health."

Dr. Williams' Pink Pills make rich, red blood and give new strength with every dose.

They cure anaemia, headache, heart palpitation, dizziness and bring the glow of health

to pale and sallow cheeks. These pills are also a certain cure for the ailments that make

the lives of so many women a burden. Be sure you get the genuine with the full name

"Dr. Williams' Pink Pills for Pale People," on the wrapper around every box. Sold by

all medicine dealers or sent post paid at 50c. per box or six boxes for \$2.50, by addressing The Dr. Williams Medicine Co., Brockville,

"Jumped" by a Moose.

What it did was easy enough for the moose, but a little bit hard for the city man.

The moose, perhaps driven down by the storm, seemed bound to get into the cedar

thickets, like the white-tailed deer, and it led us a merry chase, worming in and out

among the snow-covered trees. Needless to say, we were soon thoroughly wetted with the

snow, which fell from the trees on our necks and shoulders, but, of course, one does not

mind a little thing like that. The interest of the chase kept us warm. We could see that

we were getting closer and closer to our game. Presently we could see that we were

getting very close. At last we saw where we had gotten within 100 yards of it. There was

the story. A deep pit, as though a great horse had lain there.

"Jumped," said Adam.

"Sure," said I.

Then we sat down and thought it over for a while. We went on some more, and

presently we came across two more moose tracks, a big one and a little one, probably a cow

and a calf, as Adam thought. We were then three miles from the camp, and it was not

too late in the day, so we thought we would follow on and see what this bunch would do

to us. They did pretty much the same as the young bull had done. We followed these

tracks through all kinds of country, saw where the animals had fed in among the wil-

lows and alders, and on the roundwood, and finally puzzled out their trail until we knew

that we were getting very close. This time we were near indeed to seeing our moose.

We were perhaps not fifty yards away when we came to a couple more big holes in the

snow, and some more regular holes beyond. Jumped again! There was the story, plain

enough. This time we might almost have heard the bushes rattle as we went out. As

we stood there we heard a hoarse, harsh, curious kind of coughing-bark. Adam laugh-

ed.

"That old lady is just wondering what in the world it was that scared her," said he.

"She is frightened, but is not exactly sure what it is that frightened her. Just listen to

her." Once, twice, and again that same coughing bark came back to us. Then all

was still, and we were again all alone in the white wilderness. We concluded that we

would go home after that.—[Forest and Stream.

The Other Fellows CAN'T Do It

I sell the only cream separator with the supply can down where you can see into it and where you can pour the milk in without lifting it up over your head. The other fellows can't make that kind of a separator, because the

is protected by a patent that shuts them out. The Tubular is not a back number machine, but the most desirable separator built today.
