GLASSVILLE.

This part of the country has the appearance of prosperity on every hand. The farmers have good comfortable houses and large barns; the greater number have two and three, some five. The crops are so abundant this year that a number will not be able to get them all housed for want of room. A great deal of building is going on. The most important new building is the new church at the village. It is to be one of the most substantial and beautifully finished buildings in the county. They expect to have it finished and open for public worship next month. The next important building is the new school house. Sandy Scott is the contractor. He is now putting on some of the finishing touches which show a master hand. This school is being built near the village on Frank Homes farm which will in a few years no doubt be included in the town. The school is not in the center of the district but the ratepayers have agreed to haul the children from the outlying districts with horses, waggons and sleds for the present but the day is not far distant when the automobile will be the machine used. The people here believe in keeping up with the times, they are all great readers. I suppose your paper THE DISPATCH has a large circulation here.

I notice when the Colporteur of the British American Book and Tract Society comes around he does a big trade here. This is one of the best places he has in all his large field which includes Charlotte, York, Carleton and Victoria counties. In any district where the people are readers you never see them far behind the times but generally a little ahead as they are here. Another proof of this—not long ago a man from some part came here and set up a beer shop. He soon found out that he had struck the wrong place. The people here believe so much in good cold water and they gave him such a cold reception that he had to start one morning with all his stuff because he could not dispose of it. He went to Woodstock. No doubt he and his stuff got buried in some of the streets there because the Scott Act Inspector was after him. We never want to hear of his resurrection. Should he ever appear again we trust he will be following some lawful industry like the rest of the people in this settlement and neighborhood then he may depend on receiving a hearty welcome. The people here always extend a hearty welcome to all who are seeking to advance the interest of the country. They are firm believers in the truth that righteousness exalteth the people and the nation.

BABY'S OWN TABLETS.

Make Children Well and Keep Them Well.

For sick, weak, nervous, fretful children, there is nothing so good as Baby's Own Tablets. They promptly relieve and cure all the stomach and bowel troubles that afflict little ones, break up cold, reduce fever and allay the irritation accompanying the cutting of teeth.

The Tablets can be given with perfect safety to the youngest, feeblest baby, as they are guaranteed to contain no opiate or harmful drug. For very small children crush the Tablets to a powder.

Mrs. L. Axford, St. Thomas, Ont., says: "Before giving my little girl Baby's Own Tablets she suffered from a disordered stomach. She vomited a good deal, and was very constipated, and pale and delicate looking. She was always a nervous child and did not sleep well. After giving her the Tablets there was a great change. Her stomach got better, she retained her food, her bowels became regular, and she has grown much fatter and looks the picture of health. I also give the Tablets to my baby when his stomach is sour, or when he has colic, and they always do him good. I keep the Tablets in the house and would not be without them."

Baby's Own Tablets are sold by all druggists or will be sent post paid at 25 cents a box by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.
