A CHAPTER OF ACCIDENTS.

Gored by a Bull.

One day last week Benjamin Wilson and his brother, Byron, of Hartford, went out to the field to bring in a two year old bull. The bull became enraged and attacked Benjamin Wilson, throwing him in the air several times, twirling him around on his horns and goring him badly. Byron Wilson, though quite unarmed did his best to drive the bull away by kicking him vigorously in the ribs. The affair took place near a fence and in a lucky moment Byron was able to lift his brother over the fence, and the bull made a last dash and put a severe gash in Benjamin's thigh. The wounded man was quite helpless and had to be helped to the house. Dr. Hand was called and dressed his wounds.

Little Boy Run Over.

On Wednesday of last week the nine years old son of Herb Lindsay who lives on the Houlton road fell from a sloven waggon load. ed with logs and the wheel went over his hips. Mr. Lindsay had allowed the little boy to drive the team and when going over a rough place he called out, "take care son" and at that moment the boy fell. Dr. Rankin was summoned and found that though badly bruised there were no bones broken and the boy was not seriously injured.

Struck By Lightning.

During the fierce storm of Tuesday afternoon last week, Moses Mills and William Hill, of Monticello, who had been hoeing potatoes, mounted a horse each and started for home. Both men and horses were struck by lightning. Mr. Hill and his horse were instantly killed, and Mr. Mills and his horse were prostrated on the ground. Mr. Mills was very badly injured, and at last report his life was despaired of.

Death of John Munro.

John Munro, youngest son of the late David Munro, Registrar of Deeds, died at the residence of his mother, Main street, on Friday morning, at the age of thirty years. Mr. Munro had been in Halifax where by his exceptional business ability and energy he had been appointed manager of the branch of G.-J. Hamilton & Sons, of Pictou. About four years ago he came home in poor health Of business enables us to show the and though his family and other friends at people of Woodstock and Carleton first had reason to hope for his recovery he gradually failed in health. Mr. Munro leaves a mother, three brothers, Donald, who is Superintendent of the Water and Sewer System of Woodstock, A. David, Manager of the Bank of Nova Scotia at Pictou and Charles A., of White Horse, Yukon Territory, and three sisters, Mrs. G. W. Slipp, of Woodstock, Mrs. Frank Beveridge, of Union Bay, B. C., and Mrs. H. P. Wetmore, of St. John. The funeral took place on Sunday afternoon and was one of the largest seen in Woodstock. The remains were interred in the cemetery at Upper Woodstock. The service was conducted by the Rev. G. D. Ireland. The pall bearers were two brothers, Donald and A. David, and two brothers-inlaw, H. P. Wetmore and Henry Jamieson. The floral offerings were beautiful, completely covering the casket. Mr. Munro was young man of ability who had a bright future before him and a large circle of friends mourn with the bereaved family his untimely death.

Mrs. John McIninch.

News of the death of Mrs. McIninch, which occurred at the residence of her son, Charles E. McIninch, on Monday morning, was heard with sincere regret by many friends, particularly among our older people.

Miss Jane Armstrong was born at Dorchester, N. B., on September 15th, 1824 In 1844 she was united in marriage to John McIninch, then residing at Sackville. Seven or eight years later they came to St. Stephen where the remainder of her life was passed. Her husband died in 1876.

Mrs. McIninch had been in failing health for two years but the end came quite suddenly. Her surviving children are John Mc-Ininch, of Woodstock, Mrs. Frank Smith, of St. Stephen, Mrs. Charles H. Rose of Calais, Mrs. James Watson, cf Woodstock, Charles E. McIninch, of St. Stephen, but doing business in Calais and Miss Bessie McIninch of

She had been a member of Christ church | eous thick stream down his back. for many years. Her life had been a quiet one of devotion to her family and of kindly duke went on talking and laughing with his and afflicted.

Her funeral was held on Wednesday afternoon, conducted by Rev. Canon Newnham. Beautiful floral tributes testified to the esteem in which she is held. The pall bearers were G. S. Wall, Samuel Topping, Lewis A. Mills, K. C., and James Vroom .-- St. Steph-

Agricultural Notes of the Upper St. John Counties.

A gentleman who travels through this section of the country a great deal and who has an observing eye for crops says that all crops are simply magnificent, on all kinds of land. The hay crop, he says, will be as large as last year and grain will be more than an average crop. It is now up to everyone to look pleasant.

Some farmers are cutting small lots of hay already but as a rule having has not begun. The hay is growing every day.

Yesterday J. F. Tilley, Dairy Superintendent, shipped, 65,000 lbs of cheese from Grand Falls, Glassville, . Jacksonville, Wakefield Centre, Richmond Corner, Ivey's Corner and Lower Southampton factories. At the present time the make of cheese and butter in this section is less than last year, owing to the bad pastures and cold weather early in the season and also to the fact that the cows were poorly fed, a fact due to the high price of hay and its consequently large sales. It is still possible to catch up to last year if the fall make is exceptionally large, which can now be looked for. In any case the dairymen will realize as large a return from their dairy products as they did last year, as the prices have been better, the market has maintained an even tone and the demand for best Canadian cheese and butter has been good, and the New Brunswick factories are second to none in the Dominion.

Mr. Gilman, manager of the canning factory gives equally favourable reports. Some farmers plowed their corn under early in the season, its case looked so hopeless, but such as was left will pan out a fair crop if the weather keeps good. Peas will be an excellent crop though a trifle later than last year. New Brunswick apples are a grand crop and Mr. Gilman has already sold of goods to be canned this season three times as many as the whole pack at the factory last year and he is just now hesitating as to whether or not he will sell another thousand cases. The fair. Beets and carrots are coming along

The factory will handle blueberries if Mr. Gilman can get them. He will go to Nackawick this week to learn if any can be got from that vicinity.

The factory will put up a large quantity of apple, plum, raspberry and strawberry jelly in fifty lb pails for use by lumbermen, who now sometimes use it instead of butter.

After the season for green stuff the factory will can roast beef and mutton if it can be procured. They will can the edible parts and ship the bone to the fertilizer factories and the tallow to the soap factories.

The factory will commence work the first of next week and they are ready to employ about thirty girls at once.

The Duke and the Soup.

Here is an episode related by M. Jacques Kraemar, now maitre d'hotel at the Carlton, respecting his experience at the Savoy:

I was waiting on the Duke of Fife one night when his grace was giving a small private dinner party in the Patience Room. There was hardly room to pass behind each guest. The soups were Bortch-a costly Russian "potage," made from beiled duck, and served with sorrel, vegetables and cream, and, just as I was serving it round, an accident happened. In one hand I had a plate of soup and in the other my cream. The duke was talking earnestly to me, and so intently did I listen to him that I did not know that I was dropping all the cream in a hid-

I made no fuss, I gave no alarm. The ministrations to her friends and to the sick guests, with the back of his exquisite-fitting dress one mass of thick cream. I got two or three soft serviettes, and as I served his grace with each course I gave him a rub. By the time we had come to the ice there was nothing left of the cream except certain faint traces, for which I fear, his grace's valet was unjustly blamed.-London Daily

THE CORONATION CELEBRATION.

Preparations Made in a Spirit of Enthusiasm.

There was an enthusiastic meeting in the council chamber on Monday evening of men interested in the Coronation Celebration of August 13th and 14th. All the men present were members of some of the committees. To the Fire Works Committee were added the names of U.S. Consul F. C. Denison, J. J. Tattersall, Chief of the Fire Department, and E. R. Teed. To the Reception Committee were added the names of Consul Denison, Charles Appleby and R. E. Holyoke.

B. B. Manzer reported that already \$486. 00 had been collected. The sum of \$500 00 could be relied on for the expenses of the celebration. Excursions will probably be run from Presque Isle and St. John on the first day, with stop over privileges, each excursion bringing a band.

C. B. Foster, District Passenger Agent of the C. P. R., will meet the railway committee and the executive here this week to make arrangements for the excursions.

The program for the two days will include music, horse races, torchlight processions, fire works, illuminated display on the river and sports of various kinds. As the plans of the various committees mature further announcements will be made.

The races arranged for the two days are as

follows: WEDNESDAY, Aug. 13. 2.21 Class, trot or pace, Purse \$300.00 Farmers' Race, " record no bar.

THURSDAY, Aug. 14. Free-for-all, trot or pace,Purse \$300.00

without record Classes No. 3 and 6 horses to be owned and driven by Farmers.

Literary Premiers.

The retirement of Lord Salisbury directs attention to the fact that nearly all the British Prime Ministers of the century have been book-writers. Lord Salisbury himself is an exception to the rule, but there is ample material in his early essays for The Saturday Review and public addresses to the British Association and other learned bodies, for a noble volume. An autobiography of Lord Salisbury will probably be written in due time by some member of the Cecil family, but there have been rumors that one of the motives for his retirement was his own desire to leave a permanent record of his impressions of Queen Victoria, Bismarck, Gladstone. Beaconsfield, and other great men of his time. Lord Salisbury, when offered a Dukedom by the King, asked permission to consult his eldest son, and finally declined the honor. Mr. Balfour starts his career as Prime Minister with a substantial literary bean crop is good and squash and pumpkins reputotion, eight editions of his "Foundation of Belief" having already been sold in England and Scotland.

Baking Soda as a Disinfectant.

In dairy work where there is a large number of cans, buckets and strainers to wash it requires considerable time and work to thoroughly scald them all with boiling water and be sure that all have been rendered sterile. The ordinary baking soda is often recommended for washing purposes. It is claimed by many writers to be especially valuable for cleaning children's nursing bottles after the milk has been allowed to sour in it. It is rather hard to understand just why baking soda should be considered a good cleansing agent. It could not have any of the properties of soap and very few of those of free alkali. It has the power of combining with the lactic acid which gives a dirty bottle its sour odor and would destroy this odor. This quality is objectionable, however, as it would lead one to believe the bottle clean when it was not clean, in much the same way as perfume makes an unwashed person less objectionable. A small quantity of washing powder would be more efficient in cleaning the dirt from the bottle and would thoroughly sterilize it at the same time .- Maryland

The Ernest Elton Co.

The above company that made such a decided hit here some six weeks ago will play a return engagement on Thursday July 24th with an entire change of programme. Mr. Elton and his company will surely receive a heary welcome.

The St. Sohn Globe of June 14th says:-The Ernest Elton Company gave a double bill at the Opera House Friday night, and pleased a large audience. The first was a curtain raiser, written by Mr. Elton, entitled "A Love Story." It is a pretty piece, not devoid of numor, and took well. The principals were given a curtain call at the close. The three act farce comedy was then given and kept the audience vastly amused. Mr. Elton as Irascible Fizzleton was excellent.
