Mr. Mavor, of Fredericton, grandson of Francis Mavor, of Lower Kintore, visited his aunt, Mrs. George Barclay, last week.

Sunday Mr. Pringle dispensed communion at the Upper Kintore church. The church was well filled by visitors from other churches.

Young people of Kintore, as energetic as you farmer boys and girls are, why do you not exert a little energy in attempting to erect a hall? When the boys come home from the woods or potato digging they always have a few spare dollars and if a basket social and concert would be given at this time it would not only afford the young people a pleasant evening but by this means they would soon collect enough money to raise a nice hall and use this instead of the school house for all entertainments. I am sure that the young ladies will do all in their power to help in the good work.

Frank Dyer had his arm broken, while working at Foreston, a few days ago.

A story illustrating Mrs. Gladstone's unbounded faith and admiration for her distinguished husband deals with a dinner party at which she and Mr. Gladstone were assisting. The dining room, as it chanced, was upstairs. When the ladies came down to the drawing-room the conversation turned on the troublous times and the difficulties in which the nations seemed likely to be involved.

'Ah well!' remarked one very devout lady, 'there is One above who will guide and keep us in every danger.'

Mrs. Gladstone, not realizing that the Supreme Being was referred to promptly replied, 'Yes, indeed, I always feel that while dear William is at the helm things cannot go very seriously wrong.'

HOT WEATHER AILMENTS.

Careful Mothers Should Keep at Hand the Means to Check Ailments That Otherwise May Prove Fatal.

When the weather is hot the sands of the little life are apt to glide away before you know it. You can't watch the little one too carefully at this period. Dysentery, diarrhoea, cholera infantum and disorders of the stomach are alarmingly frequent during the hot moist weather of the summer months. At the first sign of any these, or any of the other ailments that afflict little ones, give Baby's Own Tablets. These Tablets will speedily relieve and promptly cure all hot weather ailments. Keep them in the house—their prompt use may save a precious little life. Mrs. Herbert Burnham, Smith's Falls, Ont., says:—"When my eldest child was six weeks old he had an attack of cholera infantum and was at death's door. My doctor advised me to use Baby's Own Tablets, and in twenty-four hours baby was better; the vomiting and purging ceased and he regained strength rapidly. I have used the Tablets for other ailments of children since and always with the happiest results. I can sincerely recommend them to mothers as a medicine that should always be kept in the house."

Little ones thrive, are good natured and grow plump and rosy in homes where Baby's Own Tablets are used. Children take them as readily as candy, and crushed to a powder they can be given to the youngest infant with the best of results. Sold at drug stores or you can get them post paid at 25 cents a box by writing direct to The Doctor Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

Death Among Fireman.

The killing of five members of the Toronto Fire Brigade last week by the collapse of a wall has moved the community strongly. Hardly a greater proof could be found of the sympathetic interest taken by citizens in the death of these men than the unprecedented number of persons who either took part in the mile-long funeral procession or lined the streets to see it pass. The men had perished in the discharge of duty, and the hearts of poor and rich alike responded to the thought that such are the true heroes. It is significant, too, of the sympathy of property-owners and business men with those whose calling as firemen exposes them to so much risk, that various respectable bodies have taken steps to see to the protection of their families.

The Board of Trade has appointed a committee to enquire into the circumstances of the bereaved families with a view to having additions made to their resources if they are found to be left badly off. The Toronto Board of Fire Underwriters has decided to start a fund for the benefit of the bereaved families. Either the association will vote a lump sum and assess the companies, or each company will subscribe to a fund for the purpose. And last, the City Council are about debating the best method of supplementing the Firemen's Benefit Fund. One of the aldermen has given notice of a motion which will propose a special grant of \$5,000 to the family of each of the married men who lost their lives in last week's fire, and \$2,000 to the relatives of the single ones.

It is satisfactory to have the declaration of the Chief of the Brigade that he did not order the men into the position of exceptional risk in which they met their death, for he knew that the walls were unsafe. Nor does it appear who ordered them. Possibly, with the reckless bravery characteristic of the firemen, they voluntarily took the risk, and paid for it with their lives.
