ARRANGEMENTS are being made for a couple of days rare amusement in Woodstock some time in August. There will be a series of good horse races, some base ball, water sports, river illuminations, fire works and plenty of good music. ON THURSDAY evening while George Little, jr., was working about his house on Broadway a bullet from a Lee Enfield rifle whizzed past his ear and struck the fence. THE MacLean newspapers of Montreal and Toronto—The Hardware and Metal Merchant, The Canadian Grocer, The Bookseller and Stationer and The Dry Goods Review—have introduced a department for advertising suggestion and criticism, edited by W. Arthur Lydiatt, late of Printer's Ink, New York, and business men who desire modern and valuable suggestions regarding advertising cannot do better than read this department in one of these papers. The time has come when a knowledge of advertising methods is essential to success in business.

WE HAVE received the announcement of the Summer School of Science for the Maritime Provinces of Canada. The meeting for this year will be held at Chatham, N. B., July 21st to August 7th, 1903. The booklet is very neatly gotten up containing views of Chatham scenery, also some typical Summer School scenes. It also contains a short sketch of last year's work together with a full outline of the course of study for the present year. There is outlined a proposed European trip which an effort is being made to arrange for. It is sought to make this trip both educational and economical. It is thought that the cost will not exceed \$150. Any information regarding the school can be obtained by addressing the secretary, J. D. Seaman, Charlottetown, P. E. I.

We  
Believe in  
Doctors.

We believe that every man when he is sick ought to call a doctor, and not try to "doctor" himself. We believe that there would be far less sickness—far better health—if everybody would do everything possible to co-operate with doctors in taking better care of the health. We believe that the best way, always, is to have a doctor see what the matter is, and write a prescription for it, and then have a reliable druggist prepare the medicine according to the prescription.
