Interesting Concert.

The concert given in the opera house on Saturday evening by some of the pupils of the Halifax school for the Blind was a delightful affair. The opera house was packed to the doors and hundreds of people were turned away. The Ven. Archdeacon Neales presided, and introduced C. F. Fraser, LL. D., who explained the nature of the educational work being done in the school. The concert company consisted of 22 pupils. Their band, of 16 pieces, was an excellent one. The vocal and instrumental solos and duets were highly appreciated. In his address Dr. Fraser paid a high tribute to J. Hollis Lindsay, son of John A. Lindsay of Woodstock, who played the accompaniments.

For Wounds From Rusty Nails.

Very often we read or hear of some who has met with the accident of having a rusty nail thrust into his foot or hand, which frequently causes lockjaw. A writer supplies the following simple remedy, vouching for its efficacy, and certainly it might be tested without much trouble and no danger. It is simply to smoke thoroughly any bruise or wound that is inflamed with burning woolen cloth. It is said that twenty minutes in the smoke will take the pain out of the worst case of inflammation arising from such a wound.

The Doctor's Best Efforts

will come to naught unless his prescription is accurately compounded from drugs of known purity and strength. A prescription often means too much for any chances to be taken in the filling.

The Physician's Dilemma.

A doctor may dislike to tell you where to take your prescription because his motive may be misunderstood, but he will be satisfied if you bring it here. Our drugs fall short in nothing, our compounding is accuracy itself, and our prices are always as low as they can be.

We Believe in Doctors.

We believe that every man when he is sick ought to call a doctor, and not try to "doctor" himself. We believe that there would be far less sickness—far better health—if everybody would do everything possible to co-operate with doctors in taking better care of the health. We believe that the best way, always, is to have a doctor see what the matter is, and write a prescription for it, and then have a reliable druggist prepare the medicine according to the prescription.
