HOW TO MAKE BABY SLEEP.

You can make baby sleep by giving him laudanum or the "soothing" stuffs which invariably contain opiates. But no sensible mother will do that. The way to make baby sleep happily and in comfort is to take away the cause of his wakefulness. This cause is located in his little inside—nowhere else. Babies seldom have anything the matter with them but their stomachs, and it is safe to say that the baby who cries unreasonably is complaining of his stomach. There is no ailment of a baby's stomach that Baby's Own Tablets will not cure right away. They make baby cheerful and happy and give him sound natural sleep—not the drugged sleep produced by soothing stuffs. Mrs. Wm. Smith, Littleton, Ont., says:—"My baby used to be very restless and sleepless, but since giving him Baby's Own Tablets, he is better natured, sleeps better and is better in every way." These cure all the minor ailments of little ones, and can be given to the very youngest baby. You can get them from any druggist, or they will be sent post paid at 25 cents a box by writing direct to the Dr. Williams Medicine Co., Brockville, Ont.

Territory Nothing to Good Feeling.

The Springfield Republican, which had been one of the strongest opponents of anything like arbitration in the Alaskan boundary dispute, is now taking much more reasonable attitude. In a long article, dealing with this question, the Republican says: "In looking the situation, as now outlined, squarely in the face, the conviction grows that our Government might as well go the whole length of the procedure of arbitration without further delay, and have the boundary issue settled forever. Our people ought not to overlook the fact that the Canadians are honestly of the opinion that they have a good claim—one at least that deserves arbitration. Their contention may originally have been 'trumped up' to serve Canada's selfish interests, but its merits have been so thoroughly dinned into their ears that the mass of Canadians honestly believe that they have a good case. The question thus becomes one of the future friendly relations of the adjoining countries; and, from that viewpoint, our people can well afford to make some concessions. The United States and Canada will have to live side by side through eternity—unless they amalgamate—and how infinitely small in value seem a few square miles of territory in the Alaskan panhandle compared with a friendly feeling between the two peoples!"

A Cheerful View.

Two men who had been sitting together in the seat near the door of a railway car became engaged in an animated controversy, and their loud voices attracted the attention of all the other passengers. Suddenly one of them arose and said:

"Ladies and gentlemen: 'I appeal to you to decide a disputed point. My friend here insists that not more than three people out of every five believe they have souls. I take a more cheerful view of humanity than that. Will all of you who believe you have souls raise your right hands?'"

Every hand in the car went up.

"Thank you," he said with a smile. "Keep them up just a minute. Now, will all of you who believe there is a hereafter please raise your left hand also?"

Every hand in the car went up.

"Thank you," he said. "Now while all of you have your hands raised," he continued, drawing a pair of revolvers, and leveling them, "my friend here will go down the aisle and relieve you of whatever valuable articles you may have. Lively now, Jim."
