BABY'S VITALITY.

The vitality of infants and young children is at its lowest point during the hot weather. More children die in summer than at any other season. This is because the little ones suffer more from bowel troubles, are nervous, weak, sleepless and irritable. Prompt action often saves a valuable little life, and troubles of this kind can be promptly met and cured by giving the little ones Baby's Own Tablets, which should be kept in every home ready for emergencies. These Tablets speedily relieve, and promptly cure all stomach, bowel and other hot weather ailments, and give sound refreshing sleep. Mrs. P. Ferguson, 105 Mansfield street, Montreal, says: "My baby was attacked with dysentery and was hot and feverish. I gave him Baby's Own Tablets and they promptly cured him. Before this he had been rather delicate, but since using the Tablets he has been better and stronger in every way."

These Tablets can be given with an absolute certainty that they will do good to all children from a new born upwards. They contain no opiate or poisonous "soothing" stuff. Sold by medicine dealers or mailed at 25 cents a box by writing direct to Dr. Williams Medicine Co., Brockville, Ont.
