Preparations are rapidly nearing completion for the horse show and carnival of sports to be held in St. John from October 5th to 10th. The horse show opens the full programme. This will take place in the Victoria Rink which has been altered considerably to meet the demands for space. The entries are at present numerous and keep coming in continually, so that by the time the first show is put on the number of horses of all classes entered will be large and varied.

The prizes for the successful competitors take different forms. Large valuable silver cups of great beauty have caused many an entry to be made in the hope of winning one, while money prizes totalling a large amount will be awarded to those whose exhibits merit such distinction. The horse show opens on October 6th and finishes October 7th, two days being thus occupied.

Entries have been made from all over the province, especially the country districts and every day more are added to the already long list showing the great interest which is being taken everywhere in reference to this show.

On October 8th and 9th a grand program of aquatic and athletic sports will take place. The aquatic sports consisting of yacht races and single, double and four oared boat races will be of an inter-provincial nature and has awakened much interest among the enthusiasts of the different provinces, who of course, swear by their own men. The harbor of St. John has been the scene of many a hard fought contest and the days when aquatics flourished in St. John promises to come back during the carnival. The athletic sports are of a most interesting nature. Athletes, famed in various parts of the world, will be present and will compete with home talent. Both amateur and professional events will be put on both of which promise to be of great interest and an afternoon of real pleasure is promised all who attend.

Special rates for the carnival have been made with all the railways from all points in the Maritime Provinces and Maine.

CARD TO THE PUBLIC.

Some time ago I saw an advertisement which said, "We advertise our business, mind our business, and pay the printer," or words to that effect. Now, what I propose to do is to advertise my business and attend to it. The first thing in my line of business is to let you know that this is a good time to bring in your Sleighs and Pungs to be painted. The next thing is to paint them well for the lowest possible price. This being up to you, you pay the Painter and he will pay the printer. This is business. Now is the time, gentlemen, to look your Pungs over, and should they want painting give me a call and I will please you. Thanking the public for their liberal patronage during the summer, in my new quarters I ask a continuance for the winter.

P. X.—When you are coming in with your Pung to McKenzie, and some one runs out and asks you where you are going, just say, "Watch my smoke!" or in other words mind your own business. Yours respectfully,

JOHN MCKENZIE,

At Hull & Glidden's, King St., Next Woollen Mill.
