### Truth, Not Poetry.

The world is doing better than it did some time ago. We've learned some useful things our grand-sires didn't seem to know. And, by the information which experience has gained. A number of mysterious things are readily explained.

Why did the flow'et blush unseen amid the desert air? Why have some sages lived unknown in attics chill and bare? Why is reward withheld from men both talented and wise? The answer is as plain as day. They didn't advertise.

To merely take the light from 'neath a bushel will not do. You've got to keep it blazing where the passing throng may view. No matter what your walk in life, this fact you can't disguise. You'll be dropped from the procession if you do not advertise.

### The New Idea in Fairs.

As the season of fall fairs draws near, directors of agricultural societies will be on the lookout for new and attractive features to be added to the programme of events. A good many societies are making earnest endeavors to improve their fairs by the introduction of educational features, and it will not be out of place to once more draw their attention to the exhibition at Whitby, which the Dominion and Provincial Departments of Agriculture are striving to make a model for others to follow.

The Whitby Model Fair will of course have the services of expert judges, who will explain the reason for their decisions in the ring, and give addresses on the best types of horses, cattle, sheep, and swine. In this way the judging is made an educational feature instead of being merely an allotment of premiums by men who are often incompetent or biased in their judgment. The awarding of prizes at a fair is a comparatively unimportant matter as compared with other considerations. What is really desirable is that fairs should be the means of disseminating information and of fixing correct ideas in the minds of those who are producing food-stuffs and on them the prosperity of Canada depends. The advantages of the expert judge system have become so apparent that this year over 150 fairs in Ontario alone are to be supplied with judges by the Provincial Department of Agriculture.

Another feature of the Whitby Fair which is worthy of adoption by all agricultural societies, but which only some half-dozen have yet taken up, is the series of illustration plots on fair grounds. These plots are in excellent condition at Whitby, and will form an interesting and instructive exhibit of the best varieties of grasses, clovers, millets, sorghums, corn, fodder and pasture crops, turnips, mangels and sugar beets. By studying the plots farmers will be able to learn just what crops and what varieties are best adapted to their farms, thus bringing home to particular conditions of soil and climate the general conclusions arrived at by the Experimental Farms.

The Whitby Fair Board will this year attempt to combine amusement with instruction by holding a gymkhana, or series of games on horseback. It is a lamentable fact that horseback riding is unknown in Canada and that the saddle is rarely seen on a Canadian farm. We raise hundreds of good saddle horses for which there is a great demand at high prices but these horses are sold by the farmers practically unbroken, and the middleman finishes them for market and gets the cream of the profit. This is why an attempt is being made to interest our people in the pleasures of the saddle. The events to be put on in the gymkhana at Whitby to demonstrate skill in the saddle are as follows: polo pony competition, walking race, obstacle race, potato race, bonnet and skirt race, ginger ale race, polo pony scurry, nomination race, and high jumping competition. The gymkhana events will be interspersed with children's games and athletic competitions to keep the interest from flagging. The managers are determined to have a good clean fair, where all the boys and girls can go to spend a pleasant and instructive day without coming in contact with any injurious influence.

But it is not intended to allow the amusement feature to overshadow in any way the programme. Demonstrations of agricultural processes will be very much in evidence. A model kitchen and dining room will be shown in operation with exhibition of cooking simple dishes and addresses on economy. Desirable and undesirable types of fowls will be shown, with lectures on fattening chickens for the British markets, and exhibition of killing, plucking and packing for export. Practical demonstrations of the proper packing of fruit for export will be given by expert packers, and every effort will be made to minister the wants of those who are looking for information that will prove of practical benefit.

That the children may be instructed as well as amused, prizes will again be offered to the teacher and pupils of a public school section making the best exhibit of:—out flowers grown in the school grounds;—out flowers grown in the straw; clovers and grasses; roots

and vegetables; fruits; wild flowers and leaves of trees, pressed and mounted; reeds and wood seeds; beneficial and injurious insects and native woods. This year prizes are offered for the best essays on the wild flowers, grains, grasses, weeds insects, and birds of the locality. This plan has proved effective in inducing children to begin the fascinating study of Nature, directed toward the elements of general agriculture, economic botany and entomology, etc. Every fair board would find it advantageous to put on some of these prizes for school children's exhibits, full particulars of which may be obtained from Mr. F. W. Hodson, Live Stock Commissioner, Ottawa who is devoting a great deal of energy to the improvement of Canadian fairs.

## Dizzy Spells and Body Weakness

Tell of a Run-down System and Exhausted Nerves—Strength Comes With the Use of

## Dr. Chase's Nerve Food

To many people peculiar spells of dizziness and weakness are a source of almost daily annoyance and distress. Some see flashes of light before them, and become blind and dazed; others experience severe attacks of headache. The cause is exhaustion of the nervous system and deficiency in the quality and quantity of blood. In all such cases Dr. Chase's Nerve Food is the most certain as well as the most thorough cure obtainable.

Mrs. Boutter, King Street, Fredericton, N. B., states:—I suffered for years with a severe pain in my side. At times I was overcome with dizzy nervous feelings and was not able to sleep. Since I began the use of Dr. Chase's Nerve Food I have noticed a marked change. The pains in my side which had bothered me so long have entirely disappeared, my nerves do not trouble me and I sleep well. Others in my home have used this medicine with equally good results and I willingly testify to its merits.

Mrs. C. VanWart, Adelaide Street, St. John, N. B., and whose husband is a seaman states:—For a long time I have been a victim of severe nervousness and as a result I suffered from some of its attending ills such as headache, dizziness and insomnia. Being advised to try Dr. Chase's Nerve Food I procured a box and can say that I found it a splendid medicine. It strengthened my nerves and toned up my system generally so that I now feel very much better in every way. Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmansson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

### He Was Obedient.

Magistrate: Why is it that in your swindling work you have picked out only the religiously inclined people of the community? Convicted Confidence Man: My mother taught me, early in life, to do all the good I possibly could. I have never done anybody but the best.

## THE A. HENDERSON FURNITURE CO., LIMITED,

QUEEN STREET, WOODSTOCK. May 6th, 1903.

## THE WOODSTOCK RANGE.

The Methodist Parsonage, Jacksonville, Carleton Co., N. B., Oct. 11th, 1902 Messrs. Small & Fisher, Woodstock:

Gentlemen,—After upwards of thirty years experience with a large variety of cook stoves, none has ever given the satisfaction derived from your "Woodstock". It is a perfect heater and baker, keeps the water tank hot day and night, with less fuel than any stove we have ever had in our parsonages.

Yours faithfully, JOHN C. BERRIE.

P. S.—I kept the fire going night and day from the 1st of October to the end of March with less than five cords of hardwood.—J.C.B.

SMALL & FISHER COMPANY, Limited, WOODSTOCK, N. B.
