THE OLD HYMNS.

There's lots of music in 'em
Those dear sweet hymns of old—
With visions bright of lands of light
And shining streets of gold,
And hear 'em blithely ringing
Where memory dreaming stands,
"From Greenland's icy mountains,
To India's coral strand."

They seem to sing forever
Of holier, sweeter days.
When lilies of the love of God
Bloomed white in all the ways.
And I want to hear their music—
From the old time meetings rise,
Till "I can read my title clear
To mansions in the skies."

We never needed singing books
In them old days—we knew
The words and tunes of every one
The dear old hymnbooks through.
There's lots of music in 'em—
Those hymns of long ago,
And when some gray haired brother
Sings one I used to know,
I sorter want to take a hand—
I think of days gone by—
"On Jordan's stormy banks I stand
And cast a wishful eye!"
We didn't have no trumpets then,
No organs built for show;
We only sang to praise the "Lord
From whom all blessings flow."

An so I love the old, old hymns,
And when my time shall come—
Before the light has left my eyes
Before these lips are dumb—
If I can only hear 'em then,
I'll pass without a sigh
"To Canaan's fair and happy land
Where my possessions lie."

THOMAS JEFFERSON'S TEN RULES.

The following are said to be the
ten rules adopted by the author of
the immortal Declaration of Independence,
for the guidance of his life:

1. Never put off till tomorrow what you can do today.
2. Never trouble another for what you can do yourself.
3. Never spend your money before you have it.
4. Never buy what you do not want because it is cheap; it will be dear to you
5. Pride costs us more than hunger, thirst and cold.
6. We never repent of having eaten too little.
7. Nothing is troublesome that we do willingly.
8. How much pain the evils that never happened have cost us!
9. Take things always by their smooth handle.
10. When angry count ten before you speak; if very angry, a hundred.

THERE IS A VAST DIFFERENCE.

Between being sorry for sin and
being sorry you are "caught."

Between confessing your sins and
confessing some other fellow's.

Between seeing your own faults
and seeing some other person's.

Between conversion of the head
and conversion of the heart.

Between being led by the Holy
Spirit and led by your own imagination.

Between being persecuted for
"righteousness sake" and being persecuted
for foolishness sake.

Between "contending for the faith"
and striving for your opinion.
Between preaching the word and
preaching some other man's opinion.
Between real testimony and making
a speech.
Between a "heart" hallelujah and
a manufactured one.—Exchange.

How Seeds Are Sold in England.

The seed trade in Great Britain has made
great progress during the past few years due
largely to the introduction and adoption of
of the system of guaranteeing the purity and
germination of seeds. Mr. Arthur G. Leighton
a prominent seedsman of Newcastle, who has
been on a visit to Canada recently referring
to this trade stated that Canada is very much
behind England in seed trade methods: "I
sell" said Mr. Leighton, "all my seeds of farm
crops a guarantee of purity and germination,
subject to the tests of the botanists of the
Royal and Highland Societies, and Dr. Stebler,
of Zurich. For example I guarantee timothy,
red clover, alsike and lucerne, to show 99 per
cent, in a purity test; in germination I guarantee
timothy to show 99 per cent, alsike and lucerne,
98 per cent., and red clover, 97 per cent. I began
that system eight years ago and am becoming
convinced more and more each year that it is
the correct one, as my business has in that
time increased nearly thirty fold. I sell only
one quality, the best, and guarantee everything
I sell."

Next year a further advance will be made
and Mr. Leighton intends to state definitely
the kind and number of weed and foreign
seeds that are contained in each sample he
sells. He will be the first to adopt this
system, but is confident that it will be appreciated
by his customers."

Canadian red clover and alsike, Mr. Leighton
says, compare favorably in purity and vitality
with seed from other countries and usually
give better results than seeds from more
southerly climates.

A London letter writer describes a new
automobile, one of the most sumptuous ever
seen in London streets. It had points of
resemblance with a steam yacht, but might be
more properly described as a cabin on wheels.
The hind part of the car had large windows
on all four sides. Inside were four seats,
each in a corner, and down the middle ran a
table covered with green baize. The table,
as the automobile stopped for a minute in
Charing Cross road, was being used by two
women, who were playing cards, quite un-
concerned at the crowd which speedily began
to gather and stare at them. In another
corner of the vehicle lounged a man reading
a newspaper. Outside, on the back seat,
was a black tiger, resplendent in purple tur-
ban and gold uniform. One chauffeur was
not deemed adequate for so gorgeous a con-
veyance, and this one had two.

A Richmond, Ind., despatch states Dr. K.
D. Hawley, of Columbus, declares that by
the use of the X rays he has been able to re-
store to its natural color hair that has become
gray. For several years Henry P. Palmer
has been suffering from a cancer on his lip.
Dr. Hawley prevailed upon him to take the
X ray treatment. Several hundred exposures
were made on the diseased lip, and finally
the cancer was removed. Mr. Palmer is
elderly, and his hair and beard have been
perfectly white. He now notices that the
portion of the beard exposed to the rays has
resumed its former natural color. Dr. Haw-
ley says he himself also had gray hair until
he underwent the same treatment.

"Tornado" Threshing Machines,
with "Direct Gear" Horse Power.

BRISTOL, N. B., January 14th, 1903

MESSRS. CONNELL BROS., Woodstock, N. B.
Gentlemen,—I suppose that you are anxious to hear from the Threshing Machine.
She has been tried and came out with the following results: In 32 minutes, 34 bushels by
measure; in 62 minutes, 58½ bushels by measure; by weight 64½ bushels; this is an accurate
statement. Threshing capacity 60 bushels per hour; this Mr. Curtis and myself have
decided as correct. She was not forced to run beyond the ordinary rate of speed, cleaned
the grain very nice, no clogging, none thrown over, none carried out in the straw. Now
gentlemen, there is some thing more that I will tell you; it would be impossible for one crew
of men to tend this machine, they could not stand it at that rate of threshing. Give her
grain that has been reaped with a Reaper, and put in the barn in good shape, and she will
thresh 600 bushels in ten actual hours, and do her work with ease, and clean in good shape.
Yours truly,
EDWIN PHILLIPS.

SPRINGFIELD, KING'S CO., Oct. 11th, 1902.

MESSRS. CONNELL BROS., Woodstock, N. B.
Dear Sir,—I suppose you are anxious to hear from the machine. To tell you the
truth, I think her the most perfect I ever have seen. runs smooth, and does her work com-
plete, will not waste no matter how fast you thresh, can take care of a bushel per minute
with all ease. I am running her with a very light team and every day I use her she seems
to run faster.
Yours truly,
JAMES H. PICKLE.

Messrs. Cross & Gillis, of Lakeville, N. B., threshed 610 bushels grain in one day.
