Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE Chemists Toronto, Ont. 50 cents and \$1.00 All druggists

Disgraceful Deficiencies.

- Orison Swett Marden, in success. it is a Disgrace. To halt-do things. Not to develop our possibilities. To be lazy, indolent, indifferent. To do poor, slipshod, botched work. To give a bad example to young people. To have crude, brutish, repulsive manners. To hide a talent because you have only one. To live a half life when a whole life is possible. Not to be scrupulously clean in person and surroundings. To acknowledge a fault and make no effort to overcome it. To be ungrateful to friends and to those who have helped us. To go through life a pigmy when nature intended you for a giant. To kick over the ladder upon which we have climbed to our position. To be grossly ignorant in these days of free usages of good society. To ignore forces which are improving civilization in your own country. Not to be able to carry on intelligently conversation upon current topics. To shirk responsibilities in politics, or to be indifferent to the public welfare. To know nothing of the things we see, handle and enjoy every day of our lives. To be ignorant of the general history of the world and of the various countries. Not to know something of the greatest leaders, reformers, artists and musicians of the world. Not to have intelligent knowledge of the general affairs of the world, and the inter-relations of nations. Not to know enough about the laws of health, about physiology and hygiene to live healthfully and sanely. To vote blindly for party, right or wrong, instead of for principle, because you have been doing so for years. To be grossly ignorant in these days of free schools, cheap newspapers, periodicals and circulating libraries. To be so controlled by an appetite or passion that one's usefulness and standing in the community are impaired. To be totally ignorant of natural history, to know nothing of the science which underlies the beauties and the marvels of nature. Not to have an intelligent idea of the country in which we live, not to know its history, its industries and the conditions of its people. Not to know anything of the movements for human betterment and not to help them along to the extent of our ability in time or money. To live in the midst of schools, libraries, museums, lectures, picture galleries and improvement clubs and not to avail oneself of their advantages.

A la Mercedith. CHAPTER I. "Will you be mine, Felicia?" "For how long, Albert?" "For fifteen years, dearest." "No; but I will for ten years." "Can't you make it twelve?" "No; ten is the limit." "All right. Here's the ring. Take good care of it, for I may need it again."

CHAPTER II. "Do you promise to take this woman for better or for worse for ten years?" "Yes—subject, of course, to renewal of contract." "Do you promise to love, honor and obey?" "Yes; up to September 20, 1914." "I pronounce you man and wife. Let no man put asunder in the meantime."

CHAPTER III. (Ten years later.)

"Well, Albert, your ten years are up today. Do you want an extension of the contract?" "No, thanks, dearest. I'm booked for the next ten years with Fanny Bishop. Her contract with Charley Bishop expires soon, you know." "Why, of course. How stupid of me to forget. In that case I'll accept Arthur Bridgeport for five years. His contract with Adelaide is up next Friday at noon."

CHAPTER IV. (Five years later.)

"Whose little boy are you?" "I'm Uncle Sam's little boy." "Where are your parents, my lad?" "Papa's doing six years with the late Mrs. Bishop, and mamma, I understand, is married at present to Mr. Bridgeport. Her contract expires some time next month, though she having failed to get a renewal. Mamma's getting old, you know."—Chicago Tribune.

A Hopeless Case.

"I fear, my dear madam," said the physician, "that your stomach will never recover its tone, unless you limit yourself to the simplest diet imaginable." "Ah, sir," cried the woman, tears rolling down her cheeks, "would that I could! But that is impossible."

"Impossible! Why?" "Because I am the wretched woman who supplies photographs of 'dainty dishes' to the fashion magazines. In order to photograph them, I must prepare them, and, as I cannot afford to waste expensive materials, I must eat them."

The physician started from his chair. "It is certain death," he cried. "What have you eaten today, my child?" "I had for breakfast a shredded wheat biscuit filled with candied violets and olives, with a maple sugar and grated cheese sauce, the whole surrounded with a wreath of daisies for decorative effect. For luncheon, the horror deepening in her eyes, "a large ripe tomato stuffed with cold lobster Newburg and chopped nuts, served with a sherry and chocolate dressing. This was topped with a pure white chrysanthemum, and a few orchids were laid lightly about the plate. They made beautiful photographs." "And they call men brave," murmured the doctor. "I now understand why so large a percentage of my patients are women." MRS. WILSON WOODROW.

ARE YOUR KIDNEYS SICK?

Let your morning urine stand for 24 hours in a glass or vessel, and then if it is milky or cloudy, or contains a reddish brick-dust sediment, or if particles or germs float about in it, your kidneys are diseased. If the kidneys are well they filter just so much blood, but if they are sick or weak from any cause, they leave the poison in the blood, and this poison affects the entire system. It is natural to pass urine three times a day, but many who regard themselves as healthy are obliged to pass water six to ten times daily and are obliged to get up frequently during the night. They have sick kidneys and bladder and don't know it. Smith's Buchu Lithia Pills cure Rheumatism and all Kidney and Bladder diseases, and make new, rich blood. We will send you a generous sample post paid Free, together with our large book on the above mentioned diseases. Address, W. F. Smith Co., 185 St. James Street, Montreal, Canada.
