Nature's Warning Signal.

The cry of a baby is nature's warning signal that there is something wrong. If a little one is fretful, nervous or sleepless, the safe thing to do is to administer a dose of Baby's Own Tablets. They speedily cure all the little ills of childhood, and gives sound, natural sleep, because they remove the cause of the wakefulness and crossness. Mrs. T. L. McCormick, Pelee Island, Ont., says "I am never worried about baby's health when I have the tablets in the house; they always give prompt relief for all little ailments." The Tablets are good for children of all ages, and are guaranteed to contain no opiate. If you do not find the Tablets at your medicine dealers send 25 cents to The Dr. Williams' Medicine Co., Brockville, Ont., and a box will be sent you by mail post paid.

The Secret of Generosity.

"Would there be so many marriage wrecks if the secret of generosity were learned?" asks Lillie Hamilton French aptly in the July Delineator. This author, who, of course, writes her thoughtful articles on "The Joy of Living" from the woman's standpoint, goes on to tell of two women who found their husbands exacting, and of the happy results brought about by the generous yielding of the wife in one of these cases. The writer concludes: "But the generous are always imposed upon. They end by being robbed, the little soul exclaims. 'People drain us when we give too much, and then when they have all they want they throw us over.' The little soul can never understand that the generous soul is never robbed. It is like the sun itself—it radiates. Its business is to add to life the joy of its cheer."

The Town and The Woollen Mills.

The matter between the town and the Woollen Mills Company is as yet unsettled.

The town thought the Woollen Mills Company should pay taxes and the company thought not. The town seized some property of the company and were about to sell it to realize the amount of the taxes when they were ordered not to do so by an injunction of the Equity Court.

The two parties in the matter then came together before the Judge in Equity and it was mutually agreed that the town should restore the goods and the question of their right to collect the tax should be tried out. The goods were given back and the Equity suit to try this right is now in progress. So the matter stands today. Neither side has won. Soon the final hearing will be held and then we shall see which party is right.

If it is decided that the town has a right to tax, then the company will have to pay not only the taxes but the costs of the injunction proceedings as well as the costs of the suit in Equity.

It is decided that the company should not pay taxes then the town will have to pay the costs of the injunction proceedings and of the Equity suit, and will also be answerable in damages for having seized the property of the company.

Needed all the Water.

In a little bayou so near the beach that the low tide rose and fell on the overgrown banks, a "flat-bottom," paddled by an old ducky, was shelved on a mud bank. The mud was too deep for him to get out and push, and his manoeuvres with the paddle were proving less and less effectual.

In his exasperation he saw a woman stooping down at the landing some yards above to fill her pail from the stream.

"Get out o' dat!" he called out, angrily. "Ef ye takes a drop outen dis yere bayou till I gits afloat agin, I'll mek ye pay for it ef I hev ter wade ashore to do it!"
