Looks Like Business.

The Grand Falls Water Power Company represented by Barton E. Kingman of New York, and his associates, yesterday paid into the provincial treasury \$10,000 on account of the deposit required from the company by the legal government as evidence of the company's bona fide in the development of the great water power at the falls. Evidently the company intends to begin at once the work of development and the establishment of works by the Electric Manganese Company at Grand Falls is to follow.—Herald.
