REASON NO 1 WHY YOU SHOULD USE Red Rose Tea

Because it is composed of both Indian and Ceylon teas.

The tea bush is indigenous to Assam in Northern India, and botanists are of the opinion that it is the parent species of all the cultivated varieties in India, Ceylon, China and elsewhere. In a wild state, it grows to a height of fifteen to twenty feet, but the cultivated shrub is only three to four feet high.

Assam being the natural home of the tea bush, it is not surprising that this and other districts in Northern India produce the richest, most pungent teas grown in the world—teas that command higher prices than even the finest Ceylons; but Ceylon teas are very flavory and fragrant, and seem to be specially made to blend with the richer, more syrupy tea of India. When combined, the Ceylons give point and piquancy to the liquor; the Indians, richness and strength.

The distinctive characteristic of Red Rose Tea, that rich, fruity flavor, is obtained by blending these fine Indians and Ceylons; and another very important feature of Red Rose Tea, viz., its uniformity of flavor all the year round, is secured the same way, something not possible to obtain where Ceylon or Indian teas are used alone.

The Blue Label is recommended, and unless you like very strong tea, use only three-quarters as much for a drawing as you use of other teas.

The Christmas trade was a very heavy one here, far exceeding any previous years sales.

Fourteen were baptised by Rev. Mr. Freeman on Sunday near the place where the baptism took place on the 18th instant. Some difficulty was experienced in securing a suitable place on account of the scarcity of water in the stream but willing hands soon cleared away the ice and one of the most beautiful places that could be arranged out side of the church fort was secured.

The ice on the mill pond has been cleared and all the speedy horses will likely be there.

An Exceedingly Popular Flour.

The most talked of flour on the Canadian market today is "Royal Household." Its sales extend from the Atlantic to the Pacific and many people pronounce it the finest flour they have ever used.

The "Fredericton Herald" recently interviewed a number of merchants in that city as to their success in selling this flour and the reports obtained show "Royal Household" to be a favorite flour in that section of the province. The firms interviewed were:—Messrs A. F. Randolph & Son, Mr. James Hodge, Mr. G. T. Whelply, Mr. A. A. Stirling, Mr. John McKnight, and they all testified favorably as to its general excellence and popularity among Fredericton consumers.

In Woodstock the sale of "Royal Household" is increasing and buyers can now obtain it from the following merchants:—H. G. Noble, W. S. Skillen, Holyoke & Brown, H. N. Payson, C. B. Snow, J. C. Millmore, J. W. Dalling, John Graham, A. F. Randolph & Son.

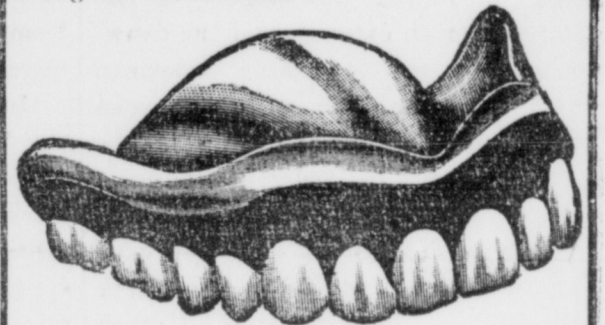

It may not be known to our readers that the process by which "Royal Household" is made is different from that in use by any Canadian Mills. It is a process worth seeing and Woodstock people who visit Montreal should make it a point to go and see the flour being made. Any person of average intelligence who examines this process will easily see why "Royal Household" must be purer and better than any other flour.

Something of an Office Hog.

There was a good deal of discussion about the fee-fed office hog in Ontario some ten or fifteen years ago; but our porcine specimens were scarcely short size in comparison with one that our neighbors can produce. During the last six years a district attorney in New York, has received, in addition to an annual salary of \$6,000, no less than \$273,000 in fees. Discovery has only recently been made of the extent of the fees paid in this case and prompt measures will now be taken for their reduction.
