

DOES QUALITY COUNT WITH YOU?

In Medicine Quality is of First Importance.

THIS IS THE BASIS ON WHICH WE DO BUSINESS.

EVERY DRUGGIST says that his drugs are pure.
EVERY DRUGGIST says that he does not substitute.
EVERY DRUGGIST says that he does not use ^{Inferior or Adulterated} Drugs.
EVERY DRUGGIST says that he does accurate work.

What is there left for us to say different from anybody else? Simply this:

WHO DOES THE PRESCRIPTION BUSINESS?

Last year we filled 8942 Prescriptions!

So the QUALITY and PRICES must have been Right.

WE INVITE YOUR PRESCRIPTION TRADE.

EDGAR W. MAIR, The Prescription Druggist,
Cor. Main and King Sts. WOODSTOCK, N. B.

Canned and Evaporated Goods Trade.

The Canadian Export trade in canned and evaporated goods is a comparatively new one, but it is steadily increasing and promises to develop into one of large volume in the near future says Mr. A. W. Grindley in his annual report to the Dominion Department of Agriculture, of which he is one of the representatives in Great Britain. The British merchants have little or no idea of the large assortment of preserved meats, fish, fruits and vegetables which are packed by Canadian firms.

Great Britain in the past has bought canned goods largely from France, Germany and Italy, but owing to the friendly feeling that has arisen between the "Mother Country" and her "Colonies" Canadian firms may expect a large increase in orders providing their goods give satisfaction as regards quality and price. The leading American firms who export canned fruit, vegetables, meats and fish to Great Britain have more push than Canadian houses. The Americans either have representatives of their own in Great Britain to push their goods or if they consign to British firms to sell on commission they fix the prices at which their goods are to be sold, allowing a good commission, but not allowing prices to be cut in order to effect sales. In addition to this they enclose handsome embossed cards in each case of goods upon which is plainly marked the retail price in English money. The goods themselves have attractive labels making a nice window ornament and the embossed card with reasonable price in plain figures attracts customers and sales are made where Canadian goods of equally good quality, but not having such an attractive label, and having no fixed price are "sidetracked."

It has been found that large quantities of tinned and bottled peas, beans and spinach have been "greened" by a treatment with salts of copper. The public have been warned against the consumption of these goods by leading medical and food journals and it only

remains for Canadian packers to show that they put up goods of as reliable quality as the British merchant has been getting from other countries (but which are entirely free from adulteration) in order to create a large demand for Canadian brands. The British consumer prefers a smaller sized pea than is usually packed in Canada.

French peas are generally colored by using six tenths of grain of copper per pound of peas.

A preference is shown for the French style of tin for peas, the French tin being taller and narrower in diameter than the tin generally used in Canada.

Only the best grades of fruit and vegetables should be exported if we wish to hold, or increase our trade with Great Britain as there is keen competition from all parts of the world for the British Markets. The United States, France, Germany, Italy, the Australian Commonwealth, and New Zealand are shipping heavy lines of canned goods. During cool seasons like the past two, only the best grades are in demand. It is during hot weather, when cooking becomes a burden that people turn to canned goods.

Great care should be taken with goods packed in glass that all roughness is ground off the necks of bottles before they are filled as pieces of glass have been found in the contents and a prejudice created against goods put up in glass.

Bilker—You came near losing your life during your recent illness, didn't you?

Caterby—Yes; I tell you, old fellow, if I hadn't had women physicians it would have been all up with me.

Bilker—What! you had women physicians.

Caterby—Yes, and while they were holding a consultation over me I got well.—Town Topics.

Jolkley—This is your first visit to our flat, eh? It is rather small, but the agent is going to enlarge it a bit.

Polkley—Is it possible?

Jolkley—Oh, yes, its possible. He proposes to scrape the paper off the walls and merely paint them.—Philadelphia Press.

WOMAN'S DANGERS.

THE LIVES OF ALL WOMEN BESET BY SECRET TROUBLES.

A Simple and Certain Method by Which the Ills of Girlhood and Womanhood May be Overcome.

Every woman's health depends upon her blood—its richness and its regularity. Some times it is hard to believe that nearly all common diseases spring from the blood, no matter how different they may seem. It is hard, for instance, to realize that rheumatism and indigestion are both the cause of bad blood, and both cured by good blood. But there can be no doubt in the case of the secret troubles of a woman's life from fifteen to fifty. The blood is plainly the cause of all her irregularities in health. Then comes the signs of secret illness, the headaches, backaches and sideaches, the pale cheeks and dull eyes; the failing appetite and irritable nerves; the hysteria and biliousness; the weakness and languor, the distress and despondency and all the weary wretched feelings that attack women in their times of ill-health. And the blood is to blame for it all. When the blood is rich and red and regular, there is little trouble in the life of maid or mother. That is why Dr. Williams' Pink Pills for Pale People are worth their weight in gold to every woman. They actually make new blood. Every dose sends galloping through the veins pure, strong, rich red blood that strikes at the cause of the secret ill-health. The new blood restores regularity and braces all the special organs for their special tasks. In this way Dr. Williams' Pink Pills banish the backaches and headaches, sharpen the appetite and energies, soothe the nerves and bring back the rosy glow of health to faded cheeks. This is the special mission of Dr. Williams' Pink Pills and there is no other medicine in the world can do it so successfully. Mrs. Geo. Danby, of Tilbury, Ont., has proved the truth of these statements and says so for the benefit her experience may bring to other suffering women. For a long time I was a great sufferer from the ailments that inflict so many of my sex. I was extremely nervous at all times, suffered a great deal with headaches and indigestion. In fact I was in a most miserable condition when

I began the use of Dr. Williams' Pink Pills, but after taking them a short time I began to improve, and through their further use I am altogether like a new woman. I am sure if more women would take Dr. Williams' Pink Pills they would be convinced of the great good they can do."

What Dr. Williams' Pink Pills have done for Mrs. Danby they can do for every growing girl and ailing woman in Canada, if they are given a fair and reasonable use. But you must make sure you get the genuine pills with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. To be had from dealers in medicine or by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

Importance of Woman's Position.

New York Outlook: It is an axiom that no people can rise higher than their source. The measure of its womanhood is the measure of the potentialities of a race. If this be virtuous, clean of mind and body, filled with high ideals and noble aspirations, all things are possible to its sons. If, on the contrary, it be unchaste, diseased physically and morally, with groveling and material desires, the race is doomed, for death and decadence have set their seal upon it. Women mould the character of a people. It is eternally true that the hand that rocks the cradle rules the world. In the great crises of life the thing that determines the action of the great majority of men is not the code of ethics of their mature years, or the system of philosophy that they have reasoned out. It is the teaching that they imbibed at their mother's knee—it is the memory of old prayers they liaped in childhood, old songs and stories, a mother's kiss, a mother's tears that have crystallized into character, and that at the crucial moment decides their action for right or wrong, and whether they shall go forward or backward. Before a mother's influence political decrees are as empty and powerless as sounding brass and tinkling cymbals, and even the education of books and schools falls back impotent and defeated. At the last it is the woman who bears the race who determines its destiny.

TO LET

The residence on Connell street now occupied by me. House in good repair, bath, furnace, etc. Barn, garden and orchard in connection. Apply on premises to W. S. SAUNDERS, Connell street.

LOST.

On January 30th, between Jacksontown and Woodstock, a collier bitch, answering to the name of Minto. Will the finder please leave with Murray S. Saunders or Thomas Baker, Woodstock.

The Sunshine

of public favor is poured upon the Life Insurance Company which deals justly and fairly with its policy holders.

THE LONDON LIFE INSURANCE CO.

Has established a reputation for Honesty and Fair Dealing. Premiums payable yearly, half yearly or quarterly.
