

BREAD MAKERS!

Is your yeast fresh and healthy? It is useless to expect a good bread even with

ROYAL HOUSEHOLD FLOUR

unless you have good yeast. Warm your flour before mixing it and see that it does not get chilled or overheated during the night. If the dough is allowed to get chilled it drags along all through the day and late in the afternoon; when the housekeeper puts it in the oven, it is still not ready for baking. Mistakes like this are what make bad bread.

NEWS FROM THE COUNTY.

Union Corner.

There having been so much snow on the highway road, and it getting soft so quickly, travelling was suspended for a time. Report says that a saw mill and wood-working factory will be built here this summer near the new wheat mill and a large band saw such as are used in the West will be put in to saw the logs into the different dimensions. There is an abundance of lumber here which could be used in a business of that kind that perhaps would not pay in the St. John market. Such an institution as that would be a great benefit to Centreville and at the same time a great convenience to the surrounding country.

G. W. White is reported to have sold his farm again. The buyer, Mr. Charles Merri-

thew, will move here sometime within a year.

The April Fool Club were out in full force on Saturday and when the roll was called every member answered to their names. The operations of this organization are some times resented by those not familiar with the doings of the "smart set," but no one should feel that he is deeply wounded when he stops to consider the mental calibre, the general character and the aspirations of those who spend their time trying to "work you" a little on the first day of April. The fool like the poor will always be with us, but who are the fools?

The sick are reported to be improving, all being past the danger time at the present time.

Henry Good, of Good Corner, is making arrangements to move to Centreville to engage in the meat business with Mr. Ingersoll.

An effort will be made in the near future to consolidate the schools within a radius of two and a half or three miles. Some do not consider the matter favourably but perhaps they do not consider the matter from every standpoint. There is much to be said in favour of consolidation in suitable localities and in this case can easily be seen that Centreville will not be behind in the advantages thus obtained.

The home of Roy Lee has been gladdened by the arrival of a little daughter. Let every one extend congratulations.

Society, its recovery from la grippe faces its duties with renewed energy.
