The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation-more coughing. You take a cough mixture and it eases the irritation-for a while. You take

EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

Wasteful Ways of Saving.

Do not try to save money by: Doing without your luncheon. Even it only for once; this will injure your health.

Walking home after a day's shopping. You can get more money, but you can not get a new constitution after yours has been undermined.

Sewing in the twilight. Gas is cheaper than the oculist's bills.

Wearing thin clothing. Flannel is cheap-

er than druggist's prices.

Using cheap soap. It will cost you something in cold creams and suffering to remedy the harm it does.

Going about in thin shoes. Leather is cheaper than quinine and porous plasters; also than a case of pneumonia.

Trying to do the work of the upholsterer and the carpet layers. You may never feel like doing any work again.

Overworking. Nobody will thank you. You will be so cross that the very people for whom you are saving the money will take you and your husband will wish he had married a spendthrift .-- New York Press.

Danger of Open Telegrams.

Telegrams and cablegrams, the privacy of which is of greatest importance, are being sent without any precaution against the contents becoming known where such knowledge is 'not desirable. A visitor in the city from Demerara told us of a singular case of serious consequences following the contents of a telegram leaking out. A Planter one day received a telegram to effect that the price of sugar had risen, on which he was to operate. Immediately following this message a strike of the natives engaged (in the industry at Demerara took place. The strike nearly developed into a serious riot as the men refused to be pacified and demanded higher wages on the plea that, as the price of sugar had risen they were entitled to more pay. It became known, as the result of a public enquiry that, the contents of the telegram had become known to the messenger boy who had spread the news amongst the labourers, all of whom thereupon, struck work and threatened vengeance against the planters for not advancing wages. After some days of alarm peace was restored—but no market news telegrams now reach that Colony except in cypher.

ARE YOUR KIDNEYS SICK?

Let your morning urine stand for 24 hours in a glass or vessel, and then if it is milky or cloudy, or contains a reddish brick-dust sediment, or if particles or germs float about in it, your kidneys are diseased. If the kidneys are well they filter just so much blood, but if they are sick or weak from any cause, they leave the poison in the blood, and this poison affects the entire

It is natural to pass urine three times a day, but many who regard themselves as healthy are obliged to pass water six , to ten times daily and are obliged to get up frequently during the night. They have sick kidneys and bladder and don't know it. Smith's Buchu Lithia Pills cure Rheumatism and all Kidney and Bladder diseases, and make new, rich blood.

The Blind Man's Ears.

The degree to which the remaining senses can be trained when the sight is lost was illustrated the other morning by two blind men from a home for the blind. The men came from opposite directions, and as they approached each other a man standing on the corner was surprised to hear one of the blind men say: "Hello, Ed! What are you doing out this morning?" When the blind man was asked how he had known the other with a distance of five yards between them he answered; "By the sound of his cane, of course, I can tell at the distance of half a square the tap of the cane of any man in the home."

"I see by the newspapers," he observed, "That the City of Boston tried to borrow money, and was offered 10 times as much as was asked for."

"Yes, that's true."

"I noticed, too, that the Japanese war loan was over-subscribed a good many times. "Yes."

"It indicates that money is plentiful and

cheap?'

"It does." "Now, if I were to ask you to lend me \$10 would you offer to make it \$50 or a \$100. "Certainly not."

"If I were to ask for a dollar, would you volunteer to furnish me with four dollars?" "No." "If I should endeavor to negotiate the

loan of ten cents. I suppose you would not

even suggest that I take a quarter?" "You are quite right."

"It is as I thought," muttered the wouldbe borrower, as he walked away. "It is such a practical test as this that makes me sceptical of what I read in the newspapers."
