WINCHESTER SPRINGS,
ONTARIO, Feb. 27, 1905.

"I read about Royal Household which is purified by electricity. I also read about the woman paying freight 25 miles before she would be without it. Royal Household was not sold in our town. I was asking about it and my grocer told me to wait a day or two and he would get some, and I am glad I did so. My wife is a good baker and made good bread out of other flours, but what she has now made out of Royal Household is so far ahead that I would be willing to pay freight 50 miles instead of 25 rather than go without it. There is no flour just as good as Royal Household."

A GUARANTEE TO MOTHERS.

There is only one medicine intended for use among infants and young children that gives mothers a guarantee that it is free from opiates and poisonous soothing stuffs. That medicine is Baby's Own Tablets. Milton L. Hersey, M. Sc., public analyst for the Province of Quebec, and demonstrator in chemistry for McGill University says:—"I hereby certify that I have made a careful analysis of Baby's Own Tablets which I personally purchased in a drug store in Montreal, and said analysis has failed to detect the presence of any opiate or narcotic in them." These tablets cure all minor ailments of little ones, such as teething troubles, simple fevers, colds, constipation, diarrhoea, colic and worms. They make little ones sleep naturally because they remove the cause of sleeplessness. They are a boon to all mothers and no home where there are young children should be without a box of Baby's Own Tablets. Sold by all medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.
