

THE WOODSTOCK DISPATCH.

CHARLES APPELEY, Editor and Proprietor.

WOODSTOCK, N. B., MAY 17, 1905.

TUBERCULOSIS.

Last week's issue contained a fairly full report of the lecture on tuberculosis delivered in the opera house on the fourth instant by Dr. Moore, of Ottawa. The lecture was interesting and very instructive. As it is impossible for Dr. Moore to lecture in all parts of this county, we thought it well to publish this lengthy report in order that the important truths contained in his discourse might be placed before our readers. The study of the prevention and cure of tuberculosis is engaging the attention of the brightest minds in this country, and, as Dr. Moore said, there is strong hope of the discovery of a positive cure for this terrible disease. We learn from "The Outlook" that the following propositions embody the creed of the American Anti-Tuberculosis League which met last month at Atlanta, Georgia: "That tuberculosis is communicable but not inherited, though it is possible to inherit a predisposition to the disease; that tuberculosis is curable, and the germ may be destroyed when discovered early enough in the progress of the malady; that tuberculosis is preventable, two factors being essential to its development—the presence of the germ and favourable conditions for it—both factors being subject more or less to intelligent control." The object of the League was set forth as follows:—"To present to the American public practical and practicable methods and measures to avoid the infection of tuberculosis, to suppress its spread, and to encourage a healthful condition of living." The formation of State Leagues was recommended, the publication of literature was provided for, for the sake of educating the public, and a popular subscription was asked for to aid in stamping out the plague.

All wide awake and progressive communities are taking steps to prevent the spread of "the white plague" by adopting means of lessening the danger of infection. Woodstock has always had the reputation of being wide-awake and progressive.

THE BOARD OF TRADE.

That more interest is not taken in the Board of Trade and its work is a matter of deep regret. That the merchants of this town do not take a proper interest is a notorious fact. Thursday evening's meeting was made conspicuous by the absence of a great many prominent men who should have been present. No organization can do as much for the welfare and prosperity of a community as an energetic Board of Trade. This fact seems to be universally recognized and yet the lack of interest remains. With its present officials and membership much effective work can be done by the Woodstock Board of Trade, work that will be of great benefit to this town. The extent of the benefit that may accrue no man can measure. Important things are transpiring in these days. Let us follow the example of all other communities and make the board the agent for the accomplishment of some lasting good for Woodstock.

THE WAY THE MONEY GOES.

From the remarks made by Captain Duncan Campbell before the Canadian Club recently it would seem that the clicking coin cuts quite a figure in elections in other countries than Canada. Captain Campbell is a Canadian and was lately the Conservative candidate in Mid-Lanarkshire, England. He said that a great deal of money was spent in elections in that country, but the most of it went for campaign literature, and in the erection of recreation halls for young men, where gifted players furnished them with the burning words of truth. The market price of votes is somewhat lower there than in Canada. Canadians treat the matter in a more business like way. The political manipulator in England may aim for the ear, but the matter of fact Canuck heeler shoots straight for the pocket, and he generally gets a bulls eye. However, in both countries the horny-handed son of toil seems to have got wise to the fact that "the jingling of the guineas helps the hurt that honour feels."

SUCCINCTLY STATED.

The following solution of a fairly difficult problem is the product of the versatile pen of Brother Correll of the Victoria County News: "We have a long communication from 'Layman' on the 'Antanomy' Bill for which we are sorry but cannot spare the space. However, the case can be stated in a very few words without any long peroration on the subject."

"The Federal parliament both government and opposition members are acting like a lot of 10 year old children in the matter and putting in time to no purpose."

Reports come from all sections of the Province that the prospects are bright for getting out the greater portion of the lumber cut. Gibson's drive is practically safe and word from Dalhousie says that all the drives on the Restigouche will no doubt reach their destination except a couple on the extreme head waters. A very ordinary fall of rain seems to have done the trick.

Dr. James Hannay of St. John will be an applicant for the Professorship of Colonial History at Oxford University. This Chair was endowed by the late Alfred Beit. The position is worth 900 pounds a year.

Fifty-Seven Years Ago.

Present indications point to an enjoyable series of band concerts this season. That such an active interest is taken in the maintenance of two such organizations as we have in Woodstock is a matter upon which the town may congratulate itself; but a well equipped band is no new thing in this community. Long before Confederation had been brought to pass our citizens were entertained with the delightful strains provided them by the following bright galaxy of musical stars. In the year 1848 the members of the Woodstock Brass Band were:

Peter Fisher, French horn.
Robert Wetmore, clarinet.
Col. W. D. Baird, cornet.
Col. Chas. Raymond, offside.
Wm. Carrigan, cornet.
Ralph Dibblee, clarinet.
Fred. Biddle, trombone.
W. R. Melville, bass drum.
Edwin Parsons, French horn.
Stephen Parsons, tenor trombone.
James McLaughlan, piccolo.
Chas. Wetmore, trombone.

Only the first two members of the band are alive at the present time.

Camp Sussex.

The following regiments go into camp at Sussex for twelve days' training on June 27: 8th Hussars, 10th and 12th field batteries, No. 1 field company, C. E.; No. 7 Co. C. A. S. C.; No. VII Bearer Co., 12th infantry brigade, 67th, 71st, 73rd and 74th regiments.

The following are the officers:

Camp Commandant, Lt. Col. G. R. White, D. O. C.; Orderly officer, Capt. B. R. Armstrong, 3rd Regt. C. A.; Chief officer, Col. D. McLeod Vince, R. O.; Administrative staff deputy, Assistant Adjutant General, Capt. W. R. Marshall, D. S. A. M. D. 7.

Florenceville Consolidated School.

The plans for a consolidated school at Florenceville, Carleton County, have just been completed. It has not yet been determined whether the building is to be of wood or brick, but the foundation has been let and it is possible that local contractors may erect the building. It is to be two stories, with basement, and in general style will not be unlike the Alexandria school at Indiantown, St. John. In the basement will be play room, two furnace rooms, one large fuel room and boys' toilet room. On the first floor will be the lavatory, principal's room, intermediate, manual training and cloak rooms. One side of the second floor is to be fitted with folding doors, and on the other side are the girls' toilet, cloak and teachers' rooms, and an apartment where household science will be taught. In the attic will be a tank of water pumped from the basement. There will be hot water heating.

BOY WANTED

To learn the printing business. Apply at this office.

ROYAL INSURANCE COMPANY

J. N. W. Winslow has been appointed agent for the above company at Woodstock, N. B.

Dated this 8th day of May, 1905.

BOARDERS WANTED.

Wanted some good reliable boarders at MRS. E. E. CHURCHILL'S, South Queen Street, Woodstock.

THE SECRET OF HEALTH.

IS RICH RED BLOOD--DR. WILLIAMS' PINK PILLS MAKE NEW BLOOD.

Good blood—rich, red blood—is the only cure for such complaints as anaemia, decline, heart palpitation, skin eruptions, rheumatism, kidney troubles and a host of other every day ailments. Good blood makes you less liable to disease of every kind, because it strengthens and stimulates every organ in the body to throw off any ailment that may attack it. Good blood is the secret of life, and the secret of good, rich, red, blood is Dr. Williams' Pink Pills for Pale People. These little blood-building pills have saved lives that doctors and nurses have despaired of. They have cured thousands of others—they will cure you too. Mrs. Wm. Boothe, Montrose, Ont., says: "For a couple of years my daughter Meta was in failing health. She complained of headaches and distressing weakness, and seemed to be rapidly going into decline. We consulted several doctors, but they did not help her. She was apparently bloodless, and we were afraid she would not recover. She had no appetite and was greatly reduced in flesh. At this stage a friend advised me to give her Dr. Williams' Pink Pills, and in a few weeks we noticed some improvement in her condition, and that her appetite was improving. We continued the treatment for a couple of months longer, and by that time she was again in the best of health. She had gained thirty-two pounds in weight, had a good color, and was in the best of spirits. I do not think I am putting it too strongly when I say I think Dr. Williams' Pink Pills saved her life."

Dr. Williams' Pink Pills do only one thing, but they do that well. They do not act up on the bowels; they do not bother with mere symptoms. They actually make the new, rich red blood that goes right to the root of the disease and drives it from the system. But you must get the genuine with the full name, "Dr. Williams' Pink Pills for Pale People," printed on the wrapper around every box. All medicine dealers keep these pills or you can get them by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

BORN.

WRIGHT.—At Gordonsville, to Mr. and Mrs. William Wright, a son.

MARRIED.
